Henry Vyverberg,1989-08-17 In this work Henry Vyverberg traces the evolution and consequences of a crucial idea in French Enlightenment thought the idea of human nature Human nature was commonly seen as a broadly universal unchanging entity though perhaps modifiable by geographical social and historical factors Enlightenment empiricism suggested a degree of cultural diversity that has often been underestimated in studies of the age Evidence here is drawn from Diderot s celebrated Encyclopedia and from a vast range of writing by such Enlightenment notables as Voltaire Rousseau and d Holbach Vyverberg explains not only the age s undoubted fascination with uniformity in human nature but also its acknowledgment of significant limitations on that uniformity He shows that although the Enlightenment s historical sense was often blinkered by its notions of a uniform human nature there were also cracks in this concept that developed during the Enlightenment itself **Youtai - Presence and Perception of Jews and Judaism in China** Peter Kupfer,2008

This volume summarizes the results of a research project organized at Mainz University in Gernersheim Germany It focused on the Jewish community in Kaifeng in China 12th to 19th century In recent years increasing research has been done about the history and culture of the Jews in China and in the future more academic interest in all questions connected with it can be expected Main topics are the perception of Chinese Judaism in European history as well as in Chinese society itself the self image of the descendants in Kaifeng and their present status in China and how China deals with foreign ethnics and religions as part of its own history and identity These topics were discussed from various interdisciplinary points of view The authors from Australia China Hong Kong Israel Great Britain France and Germany are prominent sino judaists who present their latest results of research in the light of new facts and approaches **Candide (Third International Edition)**

revised and expanded Selected Bibliography *Kant's Political Philosophy* Patrick Riley, 1983 **Œuvres complètes de Voltaire (Complete Works of Voltaire) 76** Voltaire, 2013-03-18 Part of the complete works of the French philosopher historian and social reformer Voltaire Contains philosophical and historical texts on themes such as fate the nature of the soul the dangers of atheism and the slow march of history towards a better future For students and scholars of the 18th century Enlightenment **Œuvres complètes de Voltaire (Complete Works of Voltaire) 77B** Voltaire, 2014-05-08 Part of the complete works of the French philosopher historian and social reformer Voltaire Contains texts on the economics of the region of Gex and on the civilisations of China and India which he admired For students and scholars of the 18th century Enlightenment **Philosophical Religions from Plato to Spinoza** Carlos Fraenkel, 2012-11-22 Many pagan Jewish Christian and Muslim philosophers from Antiquity to the Enlightenment made no meaningful distinction between philosophy and religion Instead they advocated a philosophical religion arguing that God is Reason and that the historical forms of a religious tradition serve as philosophy's handmaid to promote the life of reason among non philosophers Carlos Fraenkel provides the first account of this concept and traces its history back to Plato He shows how Jews and Christians appropriated it in Antiquity follows it through the Middle Ages in both Islamic and Jewish forms and argues that it underlies Spinoza's interpretation of Christianity The main challenge to a philosophical religion comes from the modern view that all human beings are equally able to order their lives rationally and hence need no guidance from religion Fraenkel's wide ranging book will appeal to anyone interested in how philosophy has interacted with Jewish Christian and Muslim religious traditions
