**RECORDS IN THE POLITICAL HISTORY OF EUROPE** Prof. Dr. Dr. Ümit YAZICIOGLU,2023-11-19 A decade after September 11 2001 it seemed the world was entering a period of consensus in what is termed Western in the annals of global history America s first Black president Barack Obama had rhetorically broken with the foreign policy approach of his predecessor George W Bush The Euro American relationship appeared to be strengthening While the great financial crisis that started in the US in 2007 swiftly affecting the Eurozone hadn t been fully overcome it had passed its peak without dismantling global financial structures or the Euro The West s surge of military forces to 100 000 in Afghanistan succeeded in pushing back the Taliban only momentarily repelled after 9 11 back to the defensive The Americans managed to

provisionally re establish security in Iraq a nation they had destabilized with an invasion led by the U S in 2003 A path seemed visible for nuclear negotiations and the lifting of sanctions with Iran Osama bin Laden the figure behind the 9 11 attacks had finally been located In early May 2011 he was found and killed by American special forces in his residence in Abbottabad Pakistan despite the possibility of capturing him alive Furthermore around the turn of 2010 11 starting in Tunisia there were uprisings against regimes that had been in power for decades throughout the Arab world The Bush era s aggressive American Middle East policy had enforced a violent revolution for liberalization and democratization from the outside in Afghanistan and Iraq after 2001 Now Arabs were demanding democracy and the rule of law on their own terms thereby seemingly meeting Western expectations 2011 was a year of great beginnings and hope After the end of the Cold War many Western decision makers believed in a continuous global move towards freedom and democracy History was proceeding in the Euro Atlantic region as once predicted One day everyone would be like us just like the West This was the thesis put forward in American political scientist Francis Fukuyama s book The End of History Fukuyama was articulating what many Europeans and Americans already believed The West had won the historical final battle between liberal capitalism and dictatorial communism Now the whole world was open to its benevolent influence and would adapt to it as it had in Eastern Europe In the early hours of the Arab revolution the revolutionaries were young tech savvy creative Euro American educated setting for themselves a set of ideals human dignity political participation freedom from dictatorship and repression self rule and democracy Significant media developments that contributed to this beginning were witnessed a decade ago The TV channel Al Jazeera originating from Qatar gained its fame through broadcasting it had aired Bin Laden s video messages and in December 2010 brought the Tunisian revolution triggered by the self immolation of vegetable seller Mohammed Bouazizi right into the living rooms of all Arab nations Just a few weeks later the first despots were toppled in Tunisia Zine el Abidine Ben Ali and in Egypt Hosni Mubarak Others like Muammar Gaddafi in Libya and Ali Abdallah Saleh in Yemen were shaken and it wasn t long before it was understood that Baschar al Assad in Syria faced a public uprising supported by major cities in Central Syria Homs and Hama This situation had either removed or severely damaged the oldest and longest serving rulers or ruling families Twelve years on in the summer of 2023 Assad is the only one still alive and in office executing his duties while precariously balanced on the thin rope of Russian and Iranian support November 17 2023
