Preislamic Coinagesupplement:

The Hellenistic Settlements in the East from Armenia and Mesopotamia to Bactria and India Getzel M. Cohen, 2013-06-02
This is the third volume of Getzel Cohen's important work on the Hellenistic settlements in the ancient world. Through the conquests of Alexander the Great, his successors, and others, Greek and Macedonian culture spread deep into Asia, with colonists settling as far away as Bactria and India. In this book, Cohen provides historical narratives, detailed references, citations, and commentaries on all the Graeco-Macedonian settlements founded or refounded in the East. Organized geographically, Cohen pulls together discoveries and debates from dozens of widely scattered archaeological and epigraphic projects, making a distinct contribution to ongoing questions and opening new avenues of inquiry. *The Pre-Islamic Coinage of Eastern Arabia* D. The New Cambridge History of Islam: Volume 1, The Formation of the Islamic World, Sixth to Eleventh Centuries Chase F. Robinson, 2010-11-04
Volume One of *The New Cambridge History of Islam*, which surveys the political and cultural history of Islam from its Late Antique origins until the eleventh century, brings together contributions from leading scholars in the field. The book is divided into four parts. The first provides an overview of the physical and political geography of the Late Antique Middle East. The second charts the rise of Islam and the emergence of the Islamic political order under the Umayyad and the Abbasid caliphs of the seventh, eighth, and ninth centuries, followed by the dissolution of the empire in the tenth and eleventh centuries. Regionalism, the overlapping histories of the empire's provinces, is the focus of Part Three, while Part Four provides a cutting-edge discussion of the sources and controversies of early Islamic history, including a survey of numismatics, archaeology, and material culture.

Court Cultures in the Muslim World Albrecht Fuess, Jan-Peter Hartung, 2014-06-03. Courts and the complex phenomenon of the courtly society have received intensified interest in academic research over recent decades; however, the field of Islamic court culture has so far been overlooked. This book provides a comparative perspective on the history of courtly culture in Muslim societies from the earliest times to the nineteenth century and presents an extensive collection of images of courtly life and architecture within the Muslim realm. The thematic methodology employed by the contributors underlines their interdisciplinary and comprehensive approach to issues of politics and patronage from across the Islamic world, stretching from Cordoba to India. Themes range from the religious legitimacy of Muslim rulers, terminologies for court culture in Oriental languages, Muslim concepts of space for royal representation, accessibility of rulers, the role of royal patronage for Muslim scholars and artists, to the growing influence of European courts as role models from the eighteenth century onwards. Discussing specific terminologies for courts in Oriental languages and explaining them to the non-specialist.
