In Part II the concept of emerging adulthood as a developmental period is explored and strategies for providing improved comprehensive care for this age group are discussed. A section on addressing health maintenance has been added to this edition. Part III reviews specific chronic childhood conditions such as attention deficit hyperactivity disorder, autism, cystic fibrosis, and diabetes mellitus, and offers clinical cases and summary reports that can be used as a quick guide to each condition. Several new conditions have been added to this section, including metabolic issues, conditions eating disorders, transgender medicine, and childhood endocrine conditions. Section IV is a completely new section that focuses on hospital medicine. Chapters within this section include pre-op clearance, maintaining safety, neurodiversity considerations, ER issues, and triaging emergencies, contact with PCP, adult issues not addressed, pediatric issues often overlooked, inpatient transition policies, procedures, Med Peds Transition, palliative care, hospice, and unique inpatient cases. In Part V, additional clinical considerations that are not necessarily condition specific but are highly relevant to the care of young adults with chronic childhood conditions are examined. Part VI describes the socio-legal issues involved in caring for this population. Finally, part VII is another completely new section that focuses on public health and population considerations. Chapters in this section include telemedicine, disaster preparedness, quality improvement, health care services, mental health, psychiatry, neurodiversity, and addressing equity and racism. Written by experts in the field, *Care of Adults with Chronic Childhood Conditions 2e* provides primary care providers with a new framework for the care of young adults and identifies opportunities to influence patient health outcomes over a life trajectory.

Primary Care of the Child With a Chronic Condition E-Book Patricia Jackson Allen, Judith A. Vessey, Naomi Schapiro, 2009-06-25

Written by nurse practitioners for nurse practitioners, this one of a kind resource provides the expert guidance you need to provide comprehensive primary care to children with special needs and their families. It addresses specific conditions that require alterations in standard primary care and offers practical advice on managing the major issues common to children with chronic conditions. A consistent format makes it easy to locate essential information on each condition. Plus, valuable resources help you manage the issues and gaps in health care coverage that may hinder quality care. This is the only book authored by Nurse Practitioners that focuses on managing the primary health care needs of children with chronic conditions. More than 60 expert contributors provide the most current information available on specific conditions. Comprehensive summary boxes at the end of all chronic conditions chapters provide at a glance access to key information. Resource lists at the end of each chronic condition chapter direct you to helpful websites, national organizations, and additional sources of information that you can share with parents and families. Updated references ensure you have access to the most current evidence-based coverage of the latest research findings and management protocols. Four new chapters: Celiac Disease, Eating Disorders, Muscular Dystrophy, and Obesity keep you up to date with the latest developments in treating these conditions.
