The Warrior's Privilege , The Rose and the Warrior Karyn Monk, 2006-06-13 In the breathtaking tradition of *Once a Warrior* and *The Witch and the Warrior* comes Karyn Monk's passionate new tale of a distant time a proud people and a forbidden love She was an infamous thief When the ruthless MacTiers destroyed Melantha's clan she vowed to do whatever was necessary to keep her people alive It was a daring risk to disguise herself as the Falcon a mysterious horseman who stole food and gold from the enemy always slipping away unscathed But when Melantha captured the MacTier warrior who was sent to kill her the danger she faced was the desire aroused by this enigmatic stranger until one man stole her heart Roarke had known only battle for far too long With his family gone he had proved his loyalty to his laird in countless conflicts fighting with the fearless arrogance of a man who had nothing to lose and untold rewards to gain But murdering the enchanting spitfire who had waged her own maddening war against his clan was unthinkable Torn between fealty to his lord and the dictates of his conscience Roarke would look for an answer in the emerald eyes of a woman who dared to show him the meaning of honor the bonds of family and the power of love *The Warrior Prophet: Muhammad ﷺ and War* Joel

Hayward, 2023-01-02 Given the Prophet Muhammad's immense impact on history surprisingly few books specifically analyze his understanding and employment of warfare as an economically politically and socially transformational process even though he was continuously at war for a decade and initiated around eighty armed missions twenty seven of which he led himself Most Islamic biographies deal with this issue by using an understandable but insufficient logic that because Muhammad as the Messenger of Allah was the ideal and paradigmatic human he must have been an ideal and paradigmatic military commander His successes flowed from his prophetic status and his moral perfection Following this logic and wanting Muhammad's behavior to conform to very modern ethical concepts and widespread but not necessarily accurate beliefs about the nature and conduct of war the writers have inadvertently created a narrative which in significant ways departs from the account clearly and consistently revealed in the earliest extant Arabic sources The writers narrative also removes the Prophet from his historical and cultural context and the realities of the harsh and competitive tribal society in which he lived

Professor Joel Hayward sees this as an unhelpful explanatory tendency and believes that the modern depiction of the Prophet's relationship with warfare which presents him as being rather antipathetic to war indeed as virtually a pacifist who only fought reluctantly in self defense cannot actually be sustained by an even handed analysis of the early Islamic sources. A committed Muslim himself, Hayward agrees that Muhammad was a moral and decent man who saw peace as a highly desirable state in which humans should live and as a goal worth pursuing. Yet Hayward has approached the Prophet's understanding and employment of warfare from a different vantage point. He has painstakingly scrutinized the earliest Arabic sources impartially according to the strict standards of historical inquiry in order to ascertain whether Muhammad's actions, habits and methods can when understood within their original seventh century stateless Arabian context provide any substantial and meaningful insights into the way that he understood and undertook warfare. Hayward concludes that Muhammad was an astute, situationally aware and self-reflective man who created and communicated a believable strategic vision of a necessary and desirable future. That vision persuaded increasing numbers of people to follow him and risk everything willingly in the struggle to create the optimal conditions for their survival, security and prosperity. In a competitive and conflictual environment with ubiquitous threats, warfare was necessary to make real the bold new world that he foresaw. Through original, meticulously researched and rigorous analysis, Hayward covers all the raids and campaigns and demonstrates that Muhammad correctly understood the necessity and utility of force and duly developed into an intuitive, effective and victorious military practitioner who developed and enforced a strict moral code so as to attain his goals whilst safeguarding the innocent. This engaging, accessible yet deeply scholarly book makes a major contribution to strategic and military analysis and to the Prophet's biography.

Myth, Ritual, and the Warrior in Roman and Indo-European Antiquity Roger D. Woodard, 2013-01-28. This book examines the figure of the returning warrior as depicted in the myths of several ancient and medieval Indo-European cultures. In these cultures, the returning warrior was often portrayed as a figure rendered dysfunctionally destructive or isolationist by the horrors of combat. This mythic portrayal of the returned warrior is consistent with modern studies of similar behavior among soldiers returning from war. Roger Woodard's research identifies a common origin of these myths in the ancestral proto-Indo-European culture in which rites were enacted to enable warriors to reintegrate themselves as functional members of society. He also compares the Italic, Indo-Iranian and Celtic mythic traditions surrounding the warrior, paying particular attention to Roman myth and ritual, notably to the etiologies and rites of the July festivals of the Poplifugia and Nonae Caprotinae and to the October rites of the Sororium Tigillum.

THE EPICS OF CHINA Rinchindorji,Lang Ying,2020-02-05 The Epics of China introduces selected epic traditions of China providing information about them insights into their literary traditions and theories concerning their origins historical development cultural context structure bards and audiences The book deals with both historical epics and contemporary living epic traditions Examples are drawn from several of China's fifty-five official ethnic minority peoples focusing on epics from various historical or present-day Mongol subgroups of North China most notably Tibetan and Kirgiz as well as epics from peoples of Southwest China such as the Zhuang Yi Miao Dong and Dai Several chapters deal too with the early Turkic epics that once circulated in parts of northern China and Central Asia On the whole the book's chapters are grouped into three sections early epics small and medium length epics and the great heroic epics Jangar and Manas Epics from the North are mainly heroic narratives focusing on the exploits of martial heroes They feature story lines centered on bride kidnapping trials undergone by the suitor and encounters with multi-headed demons Mongol mangus one-eyed giants and female demons of the underworld Southern epics focus on tales of how early deities created the sky earth water and land forms and living beings often listing specific plants animals and local tribes Some of these epics

involve female creator figures and many play out in a dynamic process that moves through phases of initial creation destruction by fire a second creation a destructive flood and the ultimate re creation of the world as we now know it There are also heroic epics from southern China most notably from the Yi Dai and Miao *Logos without Rhetoric* Robin Reames,2017-06-19 A germinal examination of rhetoric s beginnings through pre fourth century Greek texts How did rhetoric begin and what was it before it was called rhetoric Must art have a name to be considered art What is the difference between eloquence and rhetoric And what were the differences if any among poets philosophers sophists and rhetoricians before Plato emphasized or perhaps invented their differences In *Logos without Rhetoric The Arts of Language before Plato* Robin Reames attempts to intervene in these and other questions by examining the status of rhetorical theory in texts that predate Plato s coining of the term rhetoric c 380 B C E From Homer and Hesiod to Parmenides and Heraclitus to Gorgias Theodorus and Isocrates the case studies contained here examine the status of the discipline of rhetoric prior to and therefore in the absence of the influence of Plato and Aristotle s full fledged development of rhetorical theory in the fourth century B C E The essays in this volume make a case for a porous boundary between theory and practice and promote skepticism about anachronistic distinctions between myth and reason and between philosophy and rhetoric in the historiography of rhetoric s beginning The result is an enlarged understanding of the rhetorical content of pre fourth century Greek texts Edward Schiappa head of Comparative Media Studies Writing and the John E Burchard Professor of Humanities at the Massachusetts Institute of Technology provides an afterword *Minutes of the Provincial Council of Pennsylvania* Pennsylvania. Provincial Council,1851 *The Code of the Warrior* Shannon E. French,2016-11-17 This revised and expanded second edition of *The Code of the Warrior* a book George R Lucas has described as groundbreaking and now part of the Military Ethics canon takes the reader on a tour of warrior cultures and their values from the ancient Greeks and Romans to the barbaric Vikings and Celts from chivalric knights to Native American tribesmen from Chinese warrior monks pursuing enlightenment to Japanese samurai practicing death This new edition enhances these discussions with analyses of modern day warriors and examines the ethical dimensions of emerging military technology such as drones cyber warfare and bio enhanced troops A new chapter also addresses the Islamic warrior code both in its historic and modern implementations Drawing these historical traditions up to the present this book seeks a code for the warriors of today as they do battle in asymmetric conflicts both remotely and face to face against the scourge of global terrorism This book offers a comprehensive survey of historic and modern warrior cultures for students of military history philosophy and ethics *The Medieval Warrior Aristocracy* Andrew Cowell,2007 A major reconsideration of the relationship between warrior aristocrats epics and heroes in medieval culture The process of identity formation during the central Middle Ages 10th 12th centuries among the warrior aristocracy was fundamentally centered on the paired practices of gift giving and violent taking inextricably linked elements of the same basic symbolic economy These performative practices cannot be understood without reference to a concept of the sacred which anchored

and governed the performances providing the goal and rationale of social and military action After focussing on anthropological theory social history and chronicles the author turns to the literary persona of the hero as seen in the epic He argues that the hero was specifically a narrative touchstone used for reflection on the nature and limits of aggressive identity formation among the medieval warrior elite the hero can be seen from a theoretical perspective as a supplement to his own society who both perfectly incarnated its values but also in attaining full integrity short circuited the very mechanisms of identity formation and reciprocity which undergirded the society The book shows that the relationship between warriors heroes and their opponents especially Saracens must be understood as a complex tri partite structure not a simple binary opposition in which the identity of each constituent depends on the other two ANDREW COWELL is Associate Professor of the Department of French and Italian and the Department of Linguistics at the University of Colorado

The Native Tribes of South West Africa Carl Hugo Linsingen Hahn, Heinrich Vedder, Louis Fourie, 1928 Published by the South African colonial administration in the late 1920s the purpose of this book was to present to the League of Nations a short sketch of each of the principal tribes in Namibia Three of the chapters were written by Heinrich Vedder The Herero The Namas The Berg Damara while the chapters on The Owambos and The Bushmen were written by C H L Hahn and L Fourie two South African colonial officials The articles are mainly concerned with anthropological zoo ism and are quite interesting as a distillation of the prejudices of colonial officials and as a reflection of the knowledge they thought they had on the historical ethnological background of the peoples in the territory The interest of the authors lie in magico religious beliefs and superstition physical characteristics puberty and initiation rites laws and customs the holy fire and marriage and courtship while there is less information on social conditions material culture production and trade The contributions by Vedder contain some sections on history based on premises such as that the history of the Berg Damaras commences with the history of missionary activities amongst them There are several photos and a brief bibliography at the end of each chapter Eriksen Moorsom 1989

Mycenaean Greece and the Aegean World Margaretha Kramer-Hajos, 2016-08-15 In this book Kramer Hajos examines the Euboean Gulf region in Central Greece to explain its flourishing during the post palatial period Providing a social and political history of the region in the Late Bronze Age she focuses on the interactions between this provincial coastal area and the core areas where the Mycenaean palaces were located Drawing on network and agency theory two current and highly effective methodologies in prehistoric Mediterranean archaeology Kramer Hajos argues that the Euboean Gulf region thrived when it was part of a decentralized coastal and maritime network and declined when it was incorporated in a highly centralized mainland looking network Her research and analysis contributes new insights to our understanding of the mechanics and complexity of the Bronze Age Aegean collapse
