Revolution In A Chinese Village:

Fanshen William Hinton, Fred Magdoff, 1992-01-01 More than forty years after its initial publication William Hinton's *Fanshen* continues to be the essential volume for those fascinated with China's revolutionary process of rural reform and social change. A pioneering work, *Fanshen* is a marvelous and revealing look into life in the Chinese countryside where tradition and modernity have had both a complimentary and caustic relationship in the years since the Chinese Communist Party first came to power. It is a rare concrete record of social struggle and transformation as witnessed by a participant. *Fanshen* continues to offer profound insight into the lives of peasants and China's complex social processes. Rediscover this classic volume which includes a new preface by Fred Magdoff.

[Revolution in a Chinese Village](#) Isabel Crook, David Crook, 1959 *Revolution in a Chinese Village* is a ten years history of one Chinese village covering the period immediately before the setting up of the Chinese People's Republic. The authors describe in vivid detail based on first hand observation the social, political and economic changes involved in passing from the landlord regime under the Kuomintang to the distribution of land to the peasants under the Communists with the organization of the villagers both for resistance to the Japanese armies and for the seizure of land from the landlords and rich peasants. The writers spent a long time in the village living with the farmers and getting material directly from them and from village records.

[A Century of Change in a Chinese Village](#) Lin Juren, Xie Yuxi, 2018-05-04 Over the last half century China has evolved from a poor rural country to a geopolitical powerhouse. Rapid urbanization has been at the heart of that transformation and as migrant laborers have left their villages, what has become of the rural communities that were once the center of economic, social and cultural life? And how do contemporary Chinese scholars understand those changes? These are the questions that this compelling book answers.

Lengshuigou village located near the Shandong provincial capital of Jinan was first studied by Japanese social scientists in the early 1940s and then again in the 1980s and 1990s. Building on these rich surveys, this book traces changes from the early twentieth century to the present day in family and lineage, social stratification, personal networks, annual and life cycle rituals, village politics and elite formation. Drawing on their own large scale survey of contemporary village households, the authors analyze the physical and institutional changes that have altered the community as well as the shifts in interpersonal relations and attitudes that have upended centuries old systems of patriarchy and generational order. This important book presents for the first time in English analysis by Chinese sociologists on the radical transformation of Chinese rural society.
