Death of the Spirit in the American Workplace Seth Allcorn, 2001-11-30 There's more to work and the life of the organization than just numbers In his new book on how people function in work settings Allcorn calls it the human spirit It too contributes to the life and performance of organizations but like life itself it can die or be killed Allcorn argues that changes in how organizations are managed downsizing rightsizing reengineering and other catastrophic means can have an unintended but devastating result These factors can cause spiritual death the end of that quality in people that keeps them alive growing and productive Allcorn shows that management and the methods it uses to cope with organizational change must be adjusted to take into account a special kind of workplace spirituality and to nurture it not destroy it Indeed he maintains that by appreciating the importance of the human spirit and liberating the quality of spirituality into the workplace benefits to the organization can be profoundly rewarding Allcorn explains the practical measurable results of this liberation documenting his assertions in heartbreaking detail Even the most tough minded executive will soon come to consider this book as essential as a spreadsheet Allcorn asserts that while spirituality inevitably has religious connotations in his use of the word it is fundamentally secular and powerfully humanistic Besides the rationality of numbers and the irrationalities common to a defensive workplace there is something else that permits members of organizations to rise above workplace adversities This creates organizational success As employees are downsized out or just furloughed the effect on the organization and those who remain is clearly destructive The author concludes that the way for an organization to achieve success is certainly not by killing its people's spirit by firing them Other means exist to preserve the organization and Allcorn explores them in careful useful detail **The Development of Secularism in Turkey** Niyazi Berkes, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company *The American University in a Postsecular Age* Douglas

Jacobsen,Rhonda Jacobsen,2008-02-27 For much of the twentieth century it was assumed that higher education was and ought to be a secular enterprise but that approach no longer suffices The culture has shifted and contemporary college and university students are increasingly bringing religious and spiritual questions to campus In response college and university leaders are exploring anew the relationship between religion and higher education The American University in a Postsecular Age grapples with key questions How religious or irreligious are faculty and students today What level of religious literacy should be expected from students Can religion be allowed into the classroom without being disruptive Should colleges and universities help students reflect on their own faith Is religion antithetical to critical inquiry Can religion have a positive role to play in higher education This is a state of the art introduction to the national discussion about religion and higher education Leading scholars and top educators express a wide spectrum of opinions that reflect the best current thinking Introductory and concluding essays by the editors describe the postsecular character of our age and propose a comprehensive framework intended to facilitate ongoing conversation

The Story of the Renaissance William Henry Hudson,1912 **Roma. Ancora Capitale d'Italia? / Rome. Still the Capital of Italy?** Anna Irene del Monaco,2019 **American Communities** Kenneth R Schneider,2005 American Communities centers upon a critical missing dimension of modern progress an organizational equivalent to the corporation The concept rests upon unified integrated socially beneficial community living that is comparable to a cruise ship on the inside and opens to a spacious recreational environment like a country club on the outside This new Community corporation serves its members who control its services and programs from health care and education to commerce and cultural programs Its social spaces built around interior plazas and promenades offers efficient yet casual opportunities for community members to associate both freely and formally in a vast array of member behaviors This community achieves a grand harmony of spaces and programs with closely yet spaciouly organized facilities serving most daily needs of its members The compactly organized spaces are necessary to achieve human scale efficiency and casual interactions The most critical principle is that urban spaciousness is possible only by compact development what a city should be which then immensely reduces the need for mechanized transport especially the space consuming distance promoting and congestive nature of costly wasteful automobiles A Good General Dag Heward-Mills,2015-07 Do you know that a mans life upon the earth is warfare We are at war whether we choose to be at war or not The Bible says that your life is warfare You must fight the good fight and win the war This new book on warfare is a must read for all leaders The Archaeology and Anthropology of Landscape Robert Layton,Peter Ucko,2003-09-02 The Archaeology and Anthropology of Landscape

contributes to the development of theory in archaeology and anthropology provides new and varied case studies of landscape and environment from five continents and raises important policy issues concerning development and the management of heritage

Marx and Laozi James Chambers, 2023-11-03 In this work the theories of Marx and Laozi are dialectically combined The resulting synthesis is a positive materialist negation of Hegel s idealist dialectics Syntheses are presented for Marx and Laozi in ontology metaphysics epistemology scientific method ethics and politics the full spectrum of their foundational principles The book is an attempt to reconstruct a materialist interpretation of Laozi which can be put to work for Marxist theory
