Seizing the Means of Reproduction Claudette Michelle

Murphy, 2012-11-26 In *Seizing the Means of Reproduction* M Murphy's initial focus on the alternative health practices developed by radical feminists in the United States during the 1970s and 1980s opens into a sophisticated analysis of the transnational entanglements of American empire population control neoliberalism and late twentieth century feminisms. Murphy concentrates on the technoscientific means the technologies practices protocols and processes developed by feminist health activists. They argue that by politicizing the technical details of reproductive health alternative feminist practices aimed at empowering women were also integral to late twentieth century biopolitics. Murphy traces the transnational circulation of cheap do it yourself health interventions highlighting the uneasy links between economic logics new forms of racialized governance U S imperialism family planning and the rise of NGOs. In the twenty first century feminist health projects have followed complex and discomfiting itineraries. The practices and ideologies of alternative health projects have found their way into World Bank guidelines state policies and commodified research. While the particular moment of U S feminism in the shadow of Cold War and postcolonialism has passed its dynamics continue to inform the ways that health is governed and politicized today.

Seizing Your Divine Moment

Erwin Raphael McManus, 2002-11-03 In this inspiring book Erwin McManus uses the biblical account of Israel's war with the Philistines 1 Samuel 13 and 14 and the characters of Saul and Jonathan to demonstrate the difference between living a life of purpose and adventure and living one of apathy and missed opportunity. In the midst of a less than hopeful battle Saul who should have been leading rested beneath a pomegranate tree as Jonathan seized the divine moment that would impact the future of Israel. Through this story McManus artfully illustrates the eight characteristics of an adventurer's heart what he calls the Jonathan factor. Using powerful examples from his own life and ministry along with fresh biblical teaching McManus asserts that God crafts divine moments specific to each of us priceless opportunities for us to actively engage in God's big picture plan. Apathy and apprehension prevent us from being all we are meant to be for God's kingdom. But by developing the characteristics McManus outlines Christians can move from mundane to miraculous living.

Theological Analyses of the Clinical Encounter

G.P. McKenny, J.R. Sande, 2013-04-17 Efforts to evaluate the clinical encounter in terms of autonomous agents governed by rationally justified moral principles continue to be criticised. These essays written by physicians ethicists theologians and philosophers examine various models of the clinical encounter emerging out of these criticisms and explore the prospects they offer for theological and religious discourse. Individual essays focus on the reformulation of covenant models revisions of principles approaches and topics such as power authority narrative rhetoric dialogue and alterity. The essays display a range of conclusions about whether theology articulates generally accessible religious insights or is a tradition specific discipline. Hence the volume reflects current debates in theology while analysing current models of the clinical encounter. Students

professionals and scholars who find themselves at the intersection of theology and medicine will welcome these voices in an ongoing conversation

Thinking Through the Skin Sara Ahmed, Jackie Stacey, 2003-09-02 This exciting collection of work from leading feminist scholars including Elspeth Probyn Penelope Deutscher and Chantal Nadeau engages with and extends the growing feminist literature on lived and imagined embodiment and argues for consideration of the skin as a site where bodies take form already written upon but open to endless re inscription Individual chapters consider such issues as the significance of piercing tattooing and tanning

the assault of self harm upon the skin the relation between body painting and the land among the indigenous people of Australia and the cultural economy of fur in Canada Pierced mutilated and marked mortified and glorified scarred by disease and stretched and enveloping the skin of another in pregnancy skin is seen here as both a boundary and a point of connection the place where one touches and is touched by others both the most private of experiences and the most public marker of a raced sexed and national history

Teratologies Jackie Stacey, 2013-07-23 Stories of cancer are full of monster and marvels the monstrosity of the disease and the treatments the marvels of the cures and the saved lives Still one of the most dreaded diseases to haunt our imaginations cancer is more than an illness it is a cultural phenomenon People who have cancer are bombarded with competing explanations of their conditions it is genetically inherited it is environmentally produced it is the result of their personality *Teratologies A Cultural Study of Cancer* investigates how this disease is perceived experienced and theorised in contemporary society It explores changing beliefs about the causes of and the cures for cancer in both biomedicine and its increasingly popular alternative counterparts Analysing conventional and alternative medical accounts self help manuals and patients personal stories Jackie Stacey takes a critical look at the place of heroes metaphors the self and the body in these competing bids to produce the authoritative definition of the meaning of cancer today Interspersed with these detailed textual investigations are discussions of broader issues such as the feminist debates about the history of science the place of consumer culture in health practices and the status of patients and of health professionals in postmodern society Combining autobiographical narratives with contemporary theoretical debates the author carves out a specifically feminist analysis of the cultural dimensions of cancer She brings accounts of her own illness under the critical lens of academic scrutiny and situates these personal stories within a discussion of contemporary cultural change

Enduring Shame Heather Brook Adams, 2022-05-17 A study of the rhetorical power of shame and its effect on reproductive politics Not long ago unmarried pregnant women in the United States hid in maternity homes and relinquished their illegitimate children to more deserving two parent families all to conceal shameful pregnancies Although times have changed reproductive politics remain fraught In *Enduring Shame* Heather Brook Adams recasts the 1960s and 70s an era of presumed progress as a time when expanding reproductive rights were paralleled by communicative practices of shame that cultivated increasingly public interventions into unwed and teen pregnancy and new forms of injustice Drawing from personal interviews archival documents legal decisions public policy journalism memoirs and advocacy writing Adams articulates how the rhetorical power of shame persuaded the American public to think about reproduction sexual righteousness and unwed pregnancy Despite the aspirational goals of reproductive liberation public sentiment frequently reflected supremacist beliefs regarding racial economic and moral fitness notions that informed new public policy *Enduring Shame* maps a range of experiences across these decades from women's experiences in homes for unwed mothers to policy and legal changes that are typically understood as proof of shame's dissipation including Title IX legislation and *Roe v Wade* Rhetorical historiography and questions of reproductive justice guide the analysis and women's testimonies provide essential

perspectives and context Through these histories Adams articulates a network of language affect and embodiment through which shame moves expands rhetorical understandings of the discursive power of the identities of woman and mother and considers how the gendered raced and classed aspects of shame can help us understand and support reproductive dignity Enduring Shame recovers a misunderstood part of women s recent history by considering why reproductive politics continue to be so volatile despite previous gains and why shame still figures centrally in discourse about women s reproductive and sexual freedoms

Seizing the Nonviolent Moments Nancy Small,2015-01-08 Life is filled with opportunities to practice nonviolence If we kept track we d be surprised at how often we get to choose a violent or nonviolent response to a given situation Seizing these moments is a spiritual practice that shapes a nonviolent heart Many people doing this together shapes the heart of a nonviolent world This book is a humble and accessible approach to nonviolence based on the belief that no one is perfectly nonviolent We are all works in progress Each chapter presents an imaginative interpretation of a scripture story about seizing a nonviolent moment that sheds new light on nonviolence and its spirituality Stories of contemporary peacemakers woven throughout offer lessons for living a spirituality of nonviolence for our times Prophetic words from the US Catholic bishops emphasize the essential role of peacemaking in renewing the earth Questions following each chapter inspire personal reflection and make the book a welcome resource for classrooms parishes and small groups The more we seize the nonviolent moments in our lives the more we are transformed by them And the more we experience the power of nonviolence within ourselves the more we believe in its potential to transform our troubled world

Reproducing Narrative Michael Thomson,2018-12-20 First published in 1998 Reproducing Narrative sets out to interrogate a number of medico legal reproductive discourses Recognizing that these dialogues are heavily imprecated in broader social political and economic discourses it is contended that responses to reproductive issues are influenced and possibly determined by non reproductive concerns both at a parochial and more general level Whilst a number of such influential narratives are recognized the book concentrates on the narratives of gender which appear implicit within the discourses and practices considered Given the productive nature of discourse and the traditional premising of gender on sexual difference it becomes apparent that the explicit figuring of the female reproductive body becomes a means of realizing the implicit gender narratives within these discourses Privileged medico legal discourses become understood as a technology of gender an important site at which gender is constituted
