Long Live The Child:

The Figure of the Child in WWI American, British, and Canadian Children's Literature Elizabeth A. Galway, 2022-03-30 Over the past century much attention has been paid to the literature written for adults in response to the First World War but there has been comparatively little consideration of how the war influenced literature for young readers at the time Based on extensive archival research this study examines an array of wartime writing for young people and provides a new understanding of the complexities and nuances within children's literature of the period In its discussion of nearly 150 primary sources from Britain Canada and the United States this volume considers some well known texts but also brings to light forgotten children's literature of the era providing new insights into how WWI was presented to the young people whose lives were indelibly impacted by the crisis Paying special attention to the varied ways in which child figures were depicted it reflects on what these portrayals reveal about adult conceptualizations of youth and it considers how these may have shaped young readers own views of armed conflict citizenship and childhood From the helpless victim to the heroic combatant child figures appeared in many guises exposing a range of adult concerns about nation empire and children's citizenship Exploring everything from alphabet books for beginning readers to recruitment materials for high school students this book examines works from multiple genres and provides a uniquely comprehensive study of transatlantic children's literature produced during the first global war

Budapest's Children Friederike Kind-Kovács, 2022-07-05 In the aftermath of World War I international organizations descended upon the destitute children living in the rubble of Budapest and the city became a testing ground for how the West would handle the most vulnerable residents of a former enemy state Budapest's Children reconstructs how Budapest turned into a laboratory of transnational humanitarian intervention Friederike Kind Kovács explores the ways in which migration hunger and destitution affected children's lives casting light on children's particular vulnerability in times of distress Drawing on extensive archival research Kind Kovács reveals how Budapest's children as iconic victims of the war's aftermath were used to mobilize humanitarian sentiments and practices throughout Europe and the United States With this research Budapest's Children investigates the dynamic interplay between local Hungarian organizations international humanitarian donors and the child relief recipients In tracing transnational relief encounters Budapest's Children reveals how intertwined postwar internationalism and nationalism were and how child relief reinforced revisionist claims and global inequalities that still reverberate today
