Goldston,1971-01-01 Describes the events of the 6 000 mile march undertaken by Mao Tse tung and his Communist followers as they retreated before the forces of Chiang Kai shek      The Long March Harrison Evans Salisbury,1987 An engrossing account New York Times Book Review of the Red Army s flight from the superior forces of Chiang Kai shek in China during 1934 1935 Authortour      **Paradigms Powering China's Rise: A Historical Perspective** Belal Ehsan Baaquie,2023-11-02 The primary aim of this book is to understand the ground breaking paradigms and policies that have powered China s remarkable rise from an agricultural society to an industrial powerhouse and a leading nation and that too in a span of merely forty years from 1979 to 2019 The book covers the rise of China up to 2019 and is divided into five parts The first part takes a strategic view of China s rise the second part provides a quantitative assessment of China s rise using macroeconomic indicators the third part provides a historical background of modern China starting from the unification of China in 221 BC to the rise to power of the Communist Party of China leading to the establishment of the People s Republic of China in 1949 The fourth part analyses China s governance as well as its economic system and lastly part five summarizes China s rise and the paradigms that powered this rise      **The Minjian Avant-Garde** Chang Tan,2024-02-15 The Minjian Avant Garde studies how experimental artists in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants the affective functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The Minjian Avant Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force This book was published with generous support from the George Dewey and Mary J Krumrine Endowment      **The Long March, 1935** Richard Garratt Wilson,1971      **Asian Nationalism in the Twentieth Century** Joseph Kennedy,1968-06-18 *Library of Congress Subject Headings* Library of Congress. Cataloging Policy and Support Office,2007      Words and Their Stories Ban Wang,2010-10-05 As China joins the capitalist world economy the problems of social disintegration that

gave rise to the earlier revolutionary social movements are becoming pressing. Instead of viewing the Chinese Revolution as an academic study, these essays suggest that the motifs of the Revolution are still alive and relevant. The slogan 'Farewell to Revolution' that obscures the revolutionary language is premature. In spite of dislocations and ruptures in the revolutionary language, to rethink this discourse is to revisit a history in terms of sedimented layers of linguistic meanings and political aspirations. Earlier meanings of revolutionary words may persist or coexist with non-revolutionary rivals. Recovery of the vital uses of key revolutionary words proffers critical alternatives in which contemporary capitalist myths can be contested.

**Chinese Women in a Century of Revolution, 1850-1950** Kazuko Ono, 1989. Spanning the century from the Taiping Rebellion through the establishment of the People's Republic of China, this is the first comprehensive history of women in modern China. Its scope is broad, encompassing political, economic, military, and cultural history, and drawing upon Chinese and Japanese sources untapped by Western scholars. The book presents new information on a wide range of topics: the impact of Western ideas on women, especially in education; the importance of women in the labor force; the relative independence enjoyed by some women textile workers; the struggle against footbinding; the influence of anarchism; the participation of a women's brigade in the Revolution of 1911; the role of women in the May Fourth Movement; the differences between the more assertive women of South China and the traditional women of the North in organizing for political action; the involvement of peasant women in insurgency and anti-Japanese struggles in the countryside; and the effects of the Marriage Law of 1950. The author has contributed a new preface to this English edition, and Joshua A. Fogel and Susan Mann have written an introduction that places the book in the context of studies of Chinese women, Japanese sinology, and women's history in general. The book has extensive notes, a bibliography, and as an appendix, a chronology of the history of women in modern China.

**Mao's Cultural Army** Brian James DeMare, 2015-04-02. This study explores the role of drama troupes that were tasked with roaming the countryside in support of Mao's communist revolution in China. Caught between the party and their audiences, the book illustrates how drama troupes, through performance, attempted to resist the ever-growing reach of the People's Republic of China state.

**The SAGE Encyclopedia of War: Social Science Perspectives** Paul Joseph, 2016-10-11. Traditional explorations of war look through the lens of history and military science, focusing on big events, big battles, and big generals. By contrast, The SAGE Encyclopedia of War: Social Science Perspective views war through the lens of the social sciences, looking at the causes, processes, and effects of war, and drawing from a vast group of fields such as communication and mass media, economics, political science, and law, psychology, and sociology. Bajwa, 2002 The Author Has Not Only Traced The History Of The

People's Liberation Army PLA but also that of the People's Republic of China PRC during its formative years. More interestingly, the author probes the ethos and psyche of the Chinese leadership past and present. He explains how deeply the philosophy of war and statecraft as propounded by Sun Tzu is ingrained and embedded even in modern China.

**A Covenantal Imagination** William Johnson Everett, 2021-12-15 This harvest of articles drawn from William Johnson Everett's career of teaching and research on four continents and in a variety of institutions shows the breadth, depth, and diversity of his interests. Like spotlights in the wider field of Christian social ethics, they illuminate the key threads that have held together an emerging tapestry of thought woven around the powerful concept of covenant. Whether lifting up concepts of covenant federalism and corporation, the oikos of work, family and faith, the public nature and mission of the church, or the ethical meaning of journey metaphors, his rich and artful style leads us into thinking more deeply about the way our lives are joined in a covenantal imagination about a more just and sustainable world.

**A Military History of China** David A. Graff, Robin Higham, 2012-04-13 Gaining an understanding of China's long and sometimes bloody history can help to shed light on China's ascent to global power. Many of China's imperial dynasties were established as the result of battle, from the chariot warfare of ancient times to the battles of the Guomindang (KMT) and Communist regimes of the twentieth century. China's ability to sustain complex warfare on a very large scale was not emulated in other parts of the world until the Industrial Age, despite the fact that the country is only now rising to economic dominance. In *A Military History of China*, Updated Edition, David A. Graff and Robin Higham bring together leading scholars to offer a basic introduction to the military history of China from the first millennium B.C.E. to the present. Focusing on recurring patterns of conflict rather than traditional campaign narratives, this volume reaches farther back into China's military history than similar studies. It also offers insightful comparisons between Chinese and Western approaches to war. This edition brings the volume up to date, including discussions of the Chinese military's latest developments and the country's most recent foreign conflicts.
