*The Long Road to Reform* Henry Milner, 1986 Although it has often been assumed that the Quiet Revolution represented the triumph of secularism over religion in Quebec important vestiges of ecclesiastical influence have remained among those which have proved to be particularly well entrenched are the structural foundations of the school system      **The Reconquest Of Montreal** Marc Levine, 2010-04-28 An examination of the nature of the linguistic transformation of Montreal and the role of public policy in promoting it      Religion and Schooling in Canada Robert K. Crocker, 2022-11-15 Christian organizations have always played a large role in Canadian education By 1949 five provinces had constitutionally protected denominational schools The federal government's responsibility for the education of Indigenous Peoples was effectively contracted out to the churches for more than a century resulting in a history of abuse that has only recently come to light From the 1950s to the 1970s several initiatives in different provinces set the stage for significant reforms to education Some of these tested the limits of denominational protections but could not shake the underlying constitutional structures Patriation of the Constitution and adoption of the Canadian Charter of Rights and Freedoms in 1982 codified fundamental changes in thinking about civil rights The Charter allowed existing denominational rights to be challenged on many fronts However all such challenges were rebuffed by the courts on the grounds that the Charter cannot be used to override other parts of the Constitution By the 1990s it became apparent that another route to reform was available through the amending formula Constitutional amendments were used to end denominational control of schools in Newfoundland and Quebec in 1997 and 1998 The circumstances around those constitutional amendments are discussed in detail as possible precedents for similar outcomes in Alberta Ontario and Saskatchewan This book contends that change will certainly come to these provinces and several paths to reform are explored This reform aims to remove the discrimination inherent in denominational institutions while preserving some form of religious involvement in certain schools      *A Meeting of the People* Roderick MacLeod, Mary Anne Poutanen, 2004 A study of the local school board as a key political and social institution in Protestant communities in Quebec      *Diversity and Equity in Canadian Schools* Cathlene Hillier, Wendy D. Bokhorst-Heng, 2024-12-16 This edited collection introduces readers to the main concepts that comprise the spectrum of diversity and multicultural education in Canada with a particular focus on social justice and on what human flourishing might mean in these contexts Diversity and Equity in Canadian Schools blends theory and practice with each section containing one theoretical and one practical chapter devoted to each area of diversity including socio economic status gender and sexual orientation language religion geography disability ethnicity and race and Indigenous education with a continuous focus on intersectionality The first chapter in each section is conceptual providing thoughtful narrative of the historical and current concerns of the given area of diversity The second chapter then provides practical considerations for educators in the K 12 classroom building teacher capacity both to work against the structures policies curriculum and pedagogies that limit marginalized students

flourishing and to build the capabilities for flourishing in all students Readers are provided with practical guidelines to help them approach each chapter with openness humility and critical engagement Diversity and Equity in Canadian Schools is well suited for Canadian university courses in Education that focus on critical multicultural education and equity diversity and inclusion in the classroom

**Honorary Protestants** David Fraser,The Osgoode Society,2015-11-26 When the Constitution Act of 1867 was enacted section 93 guaranteed certain educational rights to Catholics and Protestants in Quebec but not to any others Over the course of the next century the Jewish community in Montreal carved out an often tenuous arrangement for public schooling as honorary Protestants based on complex negotiations with the Protestant and Catholic school boards the provincial government and individual municipalities In the face of the constitution s exclusionary language all parties gave their compromise a legal form which was frankly unconstitutional but unavoidable if Jewish children were to have access to public schools Bargaining in the shadow of the law they made their own constitution long before the formal constitutional amendment of 1997 finally put an end to the issue In Honorary Protestants David Fraser presents the first legal history of the Jewish school question in Montreal Based on extensive archival research it highlights the complex evolution of concepts of rights citizenship and identity negotiated outside the strict legal boundaries of the constitution

Learning to School Jennifer Wallner,2014-05-27 Among countries in the industrialized world Canada is the only one without a national department of education national standards for education and national regulations for elementary or secondary schooling For many observers the system seems impractical and almost incoherent But despite a total lack of federal oversight the educational policies of all ten provinces are very similar today
