children in today's primary schools. The number of skills they are expected to learn is a source of amazement to many adults outside education. It is no easier to teach, not least because of the many and varied demands on schools including the National Curriculum, SPaG tests, assessment frameworks and inspections. Now more than ever it is crucial that teachers focus on helping children become the most effective communicators they can be through the medium of writing. Throughout the book Mike Cain promotes the importance of a classroom culture characterised by focused talk and reasoning and provides lots of ideas for challenging children in their writing through the development of key learning dispositions and critical thinking skills.

Walking the Road Marilyn Cochran-Smith, 2017-10-05 Mapping the way to reconceptualizing teacher education today Marilyn Cochran Smith guides the reader through the conflicting visions and ideologies surrounding the education of teachers for a diverse democratic society. Our profession is at a critical crossroad. We must accept Cochran Smith's challenge to speak loudly and articulately for social justice and democracy. Could our society face a more urgent or compelling issue? From the Foreword by Jacqueline Jordan Irvine. This volume represents not only the best of Cochran Smith, it represents the best of teacher education. These essays are hard hitting yet lyrical, provocative yet poetic, theoretically sophisticated yet practically useful. Teacher education is in good hands.
