The Literary Culture of Early Modern Scotland Sebastiaan Verweij, 2016-03-24 This study presents a history of the literary culture of early modern Scotland 1560-1625 based on extensive study of the literary manuscript It argues for the importance of three key places of production of such manuscripts the royal court burghs and towns and regional houses stately homes but also minor lairdly and non-aristocratic households This attention to place facilitates a discussion of respectively courtly urban or civic and regional literary cultures Sebastiaan Verweij's methodology stems from bibliographical scholarship and the study of the History of the Book and more specifically from a school of manuscript research that has invigorated early modern English literary criticism over the last few decades The Literary Culture of Early Modern Scotland will also intersect with a programme of reassessment of early modern Scottish culture that is currently underway in Scottish studies Traditional narratives of literary history have often regarded the Reformation of 1560 as heralding a terminal cultural decline and the Union of Crowns of 1603 with the departure of king and court was thought to have brought the briefest of renaissances in the 1580s and 1590s to an early end This book purposefully straddles the Union in order to make possible the rediscovery of Scotland's refined and sophisticated renaissance culture

Anthologies of British Poetry, 2021-11-22 From Tottel s Miscellany 1557 to the last twentieth century Oxford Book of English Verse 1999 anthologies have been a prime institution for the preservation and mediation of poetry The importance of anthologies for creating and re creating the canon of English poetry for introducing new programmes of poetry as a record of changing poetic fashions audience tastes and reading practices or as a profitable literary commodity has often been asserted Despite its impact however the poetry anthology in itself has attracted surprisingly little critical interest in Britain or elsewhere in the English speaking world This volume is the first publication to explore the largely unmapped field of poetry anthologies in Britain Essays written from a wide range of perspectives in literary and cultural studies and the point of view of poets editors publishers and cultural institutions aim to do justice to the typological functional and historical variety with which this form of publication has manifested itself from early modern print culture to the postmodern age of the world wide web
