Rachel S Tattersall

Look At Tomorrows Tactical Air Forces:

A Look at Tomorrow's Tactical Air Forces Lane Pierrot,1997 **A Look at Tomorrow's Tactical Air Forces** Lane Pierrot,1997 *Irrational Security* Daniel Wirls,2010-05-01 2011 Winner of the Selection for Professional Reading List of the U S Marine Corps The end of the Cold War was supposed to bring a peace dividend and the opportunity to redirect military policy in the United States Instead according to Daniel Wirls American politics following the Cold War produced dysfunctional defense policies that were exacerbated by the war on terror Wirls s critical historical narrative of the politics of defense in the United States during this decade of neglect and the military buildup in Afghanistan and Iraq explains how and why the U S military has become bloated and aimless and what this means for long term security Examining the recent history of U S military spending and policy under presidents George H W Bush Bill Clinton and George W Bush Wirls finds that although spending decreased from the close of the first Bush presidency through the early years of Clinton s both administrations preferred to tinker at the edges of defense policy rather than redefine it Years of political infighting escalated the problem leading to a military policy stalemate as neither party managed to craft a coherent winning vision of national security Wirls argues that the United States has undermined its own long term security through profligate and often counterproductive defense policies while critical national problems have gone unmitigated and unsolved This unified history of the politics of U S military policy from the end of the Cold War through the beginning of the Obama presidency provides a clear picture of why the United States is militarily powerful but otherwise insecure Bulletin of the Atomic Scientists ,1998-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world Bulletin of the Atomic Scientists ,1998-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *Defense 101* Michael E. O'Hanlon,2021-05-15 In *Defense 101* a concise primer for understanding the United States 700 billion defense budget and rapidly changing military technologies Michael O Hanlon provides a deeply informed yet accessible analysis of American military power After an introduction in which O Hanlon surveys today s international security environment provides a brief sketch of the history of the US military its command structure the organization of its three million personnel and a review of its domestic basing and global reach *Defense 101* provides in depth coverage of four critical areas in military affairs Defense Budgeting and Resource Allocation detailed budget and cost breakdowns wartime spending allocations economics of overseas basing military readiness and defense budgeting versus US grand strategy Gaming and Modeling Combat wargaming micro modeling nuclear exchange calculations China scenarios and assessments of counterinsurgency missions Technological Change and Military Innovation

use of computers communications and robotics cutting edge developments in projectiles and propulsion systems The Science of War military uses of space missile defense and nuclear weapons testing and proliferation For policy makers and experts military professionals students and citizens alike Defense 101 helps make sense of the US Department of Defense the basics of war and the future of armed conflict and the most important characteristics of the American military **Bulletin of the Atomic Scientists** ,1998-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *Bulletin of the Atomic Scientists* ,1998-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

Hearings on National Defense Authorization Act for Fiscal Year 1998--H.R. 1119 and Oversight of Previously Authorized Programs Before the Committee on National Security, House of Representatives, One Hundred Fifth Congress, First Session United States. Congress. House. Committee on National Security. Subcommittee on Military Research and Development,1997 **Technological Change and the Future of Warfare** Michael E. O'Hanlon,2011-04-01 In light of the spectacular performance of American high technology weapons in the 1991 Persian Gulf War as well as the phenomenal pace of innovation in the modern computer industry many defense analysts have posited that we are on the threshold of a revolution in military affairs RMA The issue has more than semantic importance Many RMA proponents have begun to argue for major changes in Pentagon budgetary priorities and even in American foreign policy more generally to free up resources to pursue a transformed U S military and to make sure that other countries do not take advantage of the purported RMA before we do This book takes a more measured perspective Beginning with a survey of various types of defense technologies it argues that while important developments are indeed under way most impressively in electronics and computer systems the overall thrust of contemporary military innovation is probably not of a revolutionary magnitude Some reorientation of U S defense dollars is appropriate largely to improve homeland defense and to take advantage of the promise of modern electronics systems and precision guided munitions But radical shifts in U S security policy and Pentagon budget priorities appear unwarranted especially if those shifts would come at the expense of American military engagement in overseas defense missions from Korea to Iraq to Bosnia Circular United States. Office of Education,1964 **List of Publications** United States. Congressional Budget Office,2002 105-1 Hearings: Department of Defense Authorization for Appropriations for Fiscal Year 1998 and The Future Years Defense Program, S.HRG. 105-37, Part 4, March 5, 12; April 9, 16, 1997 ,1998 **US Aviation and Aerospace Industry Handbook Volume 2 Military Equipment and Developments** IBP, Inc,2013-08 2011 Updated Reprint Updated Annually US Aviation and Aerospace Industry Handbook Volume 1 BASIC TRENDS AND REGULATIONS **Arms Trade and Economic Development** Jurgen Brauer,Paul Dunne,2004-08-02 With

the US invasion of Iraq the issue of arms trading is once again at the forefront of world events Arms importing countries often ask their suppliers to offset the cost by reinvesting some of the money in their country

Constructing Regional Security W. Durch, 2016-04-30 In this book William Durch examines conventional weapons proliferation since World War II the role of arms transfers in fueling regional conflict and prospects for curbing the global arms trade Noting that supply side arms control efforts which seek to constrain the companies and countries that produce and distribute major conventional weapons have a poor international track record Durch argues for a broader approach that tries to get at the demand side of the equation Addressing the political and regional dynamics that impel arms acquisitions he looks at how arms control might be combined with confidence and security building measures to contain demand and how value based arms trade control measures like codes of conduct could be implemented in stepwise fashion consistent with US national interests in regional stability

Defense Policy Choices for the Bush Administration, 2001-2005 Michael E. O'Hanlon, 2010-12-01 This latest study in the Brookings series on U S defense strategy and the defense budget reviews current American military capabilities and offers suggestions for the new administration and Congress Michael O Hanlon makes sense of the hot political topic of military readiness questions the continued relevance of the current two war framework for structuring most conventional combat forces and challenges the wisdom of current plans for the procurement of advanced jet fighters helicopters and submarines The book also focuses on missile defense other means of homeland defense the so called revolution in military affairs and possible conflicts between Taiwan and China that could involve U S forces Throughout the author looks for ways to close the gap between the cost of projected U S defense forces and the budget actually available to the Pentagon

Setting National Priorities Henry Aaron, Robert D. Reischauer, 2011-07-01 If the subject of influence in Washington interests you this series of books deserves your respectful attention it has changed the ways in which American politicians think about the budget The Washington Post For the first time in more than four decades the federal budget has registered two consecutive surpluses and the need to reduce the deficit is not casting a pall over the policy debate This new highly accessible book examines the policy options that are available in this new environment to address the new and recurring challenges that face the nation The book which continues the Brookings Institution's highly acclaimed and influential Setting National Priorities series will serve as a guide for understanding many of the complex issues that will be discussed during the presidential and congressional campaigns of 2000 The book centers around three themes providing opportunity in the domestic arena restoring confidence in government and adapting to the post Cold War international environment It tackles such critical issues as Medicare and social security tax reform and foreign policy spending as well as many areas not included in previous editions namely education urban problems the environment trade government renewal and reform crime and drugs and families In addition to the editors the contributors are Gary Burtless I M Destler John J DiIulio Jr William Gale Bruce Katz Donald F Kettl Paul C Light Thomas E Mann Michael O Hanlon Paul R Portney Diane Ravitch Isabel V Sawhill and

James Sly *The Political Economy of NATO* Todd Sandler, Keith Hartley, 1999-04-13 Using simple economic methods while accounting for political and institutional factors this book puts forward a political economy viewpoint of NATO's current status and its future prospects. A host of NATO policy concerns are addressed including the optimal membership for the alliance, its role in peacekeeping missions worldwide, the appropriate methods for deterring terrorism and proper procurement practices for the next generation of weapons. Additional topics concern defense burden sharing, arms trade, NATO's institutional structure, and NATO's role vis-à-vis other international organizations. Although the analysis is rigorous, the book is intended for a wide audience drawn from political science and economics.
