**Tapestry** Jerry Carrier, 2014-08-01 American culture is a rich and complex tapestry of colorful threads from at least five continents and in recent decades increased immigration has meant that the pace of change is accelerating It's time for us to get to know ourselves and really appreciate this rich vast and rapidly expanding culture This book explores the contributions of Hispanic Black Native American Oriental Jewish and other cultures to a nation where many people still focus on the influences of Christian capitalist and ethnically European particularly British heritage Written for a general audience Tapestry explores the myths of American culture and reveals surprising cultural roots including the fact that American democracy and representative government were inspired more by Native American ways than by the ancient Greeks and Romans Capitalism has become an unchallenged idea a cultural universal and so dogmatic that coupled with Christianity it has become America's dominant religion However capitalism is a 19th century concept created for the bygone industrial era Now the system is showing decay Unfortunately America is an ethnocentric country whose jingoistic belief in its own exceptionalism may prevent needed change American culture has been both inclusive and intolerant Today it stands at a crossroad and must decide what road to take Are we to enter a renaissance or a dark age

Throughout it helps students to understand the nature of psychological science by addressing common myths and misconceptions in psychology showing how psychological science can be applied to everyday life and how new research can be created. Additionally, this student-friendly book is packed with pedagogical features including concept checks to test reader knowledge, extensions features which show how to apply knowledge, and a comprehensive glossary. Reflecting the latest APA Guidelines concerning the essential elements of an introductory psychology course, this text is core reading for all undergraduate introductory psychology students.

**Deaf Identities** Irene W. Leigh, Catherine A. O'Brien, 2020. Much has been written about deaf identities; however, no single book has focused specifically on how different academic disciplines conceptualize deaf identities in one fell swoop. This book, *Deaf Identities: Exploring New Frontiers*, does exactly that. It is a unique compilation of multidisciplinary perspectives on the lens of deaf identities, written by scholars representing a variety of disciplines including anthropology, counseling, education, literary criticism, practical religion, philosophy, psychology, sociology, social work, and Deaf Studies. Nowhere else can one find careful scrutiny of the meaning of deaf identities within, for example, the disciplines of philosophy and religion. Where else can one find a sense of identity in passing as a deaf person instead of almost passing as a hearing person? Where else can one examine mutating identities in progressing from Spiderman to the Incredible Hulk? The book focuses on how the contributors perceive what deaf identities represent, how these identities develop, and the societal influences that shape these identities. Intersectionality, examination of medical, educational, and family systems, linguistic deprivation, the role of oppressive influences, what the deaf body is about, strategies to facilitate positive deaf identity development, and how ethical values are interpreted are among the multiple topics examined in the search to better understand how deaf identities come into being. In presenting their deaf identity paradigms, contributors have endeavored to intertwine both scholarly and personal perspectives in their efforts to personalize academic content. The result is a book that reinforces the multiple ways in which deaf identities are manifested.

Deafening Modernism Rebecca Sanchez, 2015-10-02. *Deafening Modernism* tells the story of modernism from the perspective of Deaf critical insight. Working to develop a critical Deaf theory independent of identity-based discourse, Rebecca Sanchez excavates the intersections between Deaf and modernist studies. She traces the ways that Deaf culture, history, linguistics, and literature provide a vital and largely untapped resource for understanding the history of American language politics and the impact that history has had on modernist aesthetic production. Discussing Deaf and disability studies in these unexpected contexts, highlights the contributions the field can make to broader discussions of the intersections between images, bodies, and text. Drawing on a range of methodological approaches including literary analysis and history, linguistics, ethics, and queer cultural and film studies, Sanchez sheds new light on texts by T. S. Eliot, Ezra Pound, Gertrude Stein, William Carlos Williams, Charlie Chaplin, and many others. By approaching modernism through the perspective of Deaf and disability studies, *Deafening Modernism* reconceptualizes deafness as a critical modality enabling us to freshly engage topics we thought we knew.

*Pictographs of the North American Indians* Garrick Mallery, 2023-11-16 In *Pictographs of the North American Indians* by Garrick Mallery readers are presented with a comprehensive study of the prehistoric rock writings and drawings of various Native American tribes Mallery meticulously examines the art of pictographs decoding their meanings and cultural significance providing valuable insights into the history and artistic expressions of these indigenous communities The book showcases a combination of Mallery's meticulous research and his deep appreciation for the artistic traditions of the diverse Native American cultures making it a valuable resource for scholars and enthusiasts alike Mallery's writing style is both scholarly and accessible making this book an engaging read for anyone interested in Native American art and history Through his exploration of pictographs Mallery sheds light on the rich cultural tapestry of the North American indigenous peoples highlighting the importance of preserving and understanding these ancient forms of expression

**Looking at American signs** Jann Huizenga, 1982 Hollywood Speaks John S. Schuchman, 1988 Once described as the invisible handicap deafness remains a mystery to most Americans From the silent film era to 1986 when deaf actress Marlee Matlin won an Oscar for her performance in *Children of a Lesser God* Hollywood has reinforced stereotypical views of deafness and deaf people in nearly two hundred movies and television episodes front flap

Visual Subjectivity in Chinese and American Thought and Literature Guozhong Duan, Ming Dong Gu, 2025-10-15 Providing the reader with a systematic study of visual subjectivity in comparative thought and literature this book analyses the role that vision and visibility especially interpersonal visibility plays in the constitution of subject and subjectivity in Chinese and American traditions Examining the formation of visual subjectivity in the philosophical works by major Chinese and Western thinkers this book provides a comparative study of four masterworks of Chinese and American fiction focusing on *The Plum in the Golden Vase* *The Story of the Stone* *Moby Dick* and *The Scarlet Letter* It demonstrates that there are both psychologically universal and culturally specific factors and features in the visual constitution and representation of self identity subject and subjectivity Offering fresh insights for cross cultural studies of intellectual thought literature ideology and culture through the visual lens this book will appeal to students and scholars engaged in comparative studies of Chinese and American thought literature and narrative theory
