**Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 RECOLLECTIONS OF A JAMESTOWN SWEDE Barbara Ann Hillman Jones,2009-08-20 Chapter 1 JAMESTOWN NEW YORK Jamestown New York is my home town Although I went to college and moved away at the age of eighteen my formative years were lived in Jamestown and Jamestown will always be my home town My mother s family moved to Jamestown in 1925 and all of them lived the rest of their lives in Jamestown except for my mother who spent five years in West Newton Pennsylvania I was born in West Newton Pennsylvania my father s hometown but my parents moved to Jamestown when my father bought his own grocery store in 1940 I m certain that having been away for the first five years of her marriage my mother wanted to live in Jamestown with the rest of her family Some of our relatives already lived in Jamestown and perhaps my grandfather had an opportunity to get away from the coal mines of Dagus Mines where he worked when he first arrived in America Immigrant Swedes helped other Swedish relatives as much as possible to get ahead in their new land THE SWEDES IN AMERICA The first Swedes came to Delaware in 1638 just eighteen years after the Pilgrims They made real contributions to both the Revolutionary War and the Civil War The Swedes were the first to preach the Gospel to the American Indians and Luther s Small Catechism was translated into the Delaware Indian dialect Many of the Swedes came for economic reasons Much of the land in Sweden was not able to be farmed and as the population grew and the small farms went to the eldest son there was not much left for the remaining sons Crop failures also contributed to their determination to go to America where it was reported that everyone was rich In his book Saga From the Hills M Lorimer Moe says In America there were only two classes the rich and the newcomers who had not yet been in America long enough to become rich With that enticement and the encouragement of relatives who were already here it did not take much for many of them to leave everything and travel to

the Promised Land Later the Homestead Act of 1862 also promised free land in the Midwest There were reasons other than economic however for coming to America There was a very sharp class distinction between the privileged and the non privileged Many wanted to avoid the required military service with its harsh discipline Others came for political reasons In Sweden the right to vote was based on how much land a person held some having no right to vote at all Many came because of a very serious problem with alcohol in Sweden and some brought that problem with them Many came for religious reasons There was a State Church in Sweden supported by taxes but there was indifference and cold formalism in many parishes However when they came to America they realized that the churches were not supported by taxes and people soon learned that if the church were to survive they had to support it This was a new concept for Swedish immigrants but it quickly took hold and the Swedes built over two thousand churches and several schools and colleges in America many of which are still thriving today Many Swedes were simply looking for adventure and they certainly found it in this new world Many Swedish immigrants stopped and settled in Jamestown for several reasons but perhaps the most important was that the trees lakes and hills reminded them of their homeland Many were headed for the Midwest but upon finding the Jamestown area in Western New York they didn't go any farther Most of them came in the 1850s The earliest immigrants were farmers but each one had a trade or skill that contributed a great deal to the success of the community Swedish immigration was at its peak in 1882 when sixty eight thousand Swedes came to America It's interesting to note that of one million two hundred thousand immigrants during that period at least one out of four came from Sweden

**Beyond Imagined Uniqueness** William Glass, 2010-08-11 Beyond Imagined Uniqueness Nationalisms in Comparative Perspectives is a collection of essays from a variety of disciplines and theoretical perspectives that explore the contentious issue of nationalism in historical and contemporary settings They adopt an interdisciplinary approach to the topic of nationalism and its permutations and modes of expression The unspoken context of these essays is the trends subsumed under the processes of globalization Though the world may be becoming more integrated economically these essays suggest social cultural and political forces historically rooted keep the nation and national identity alive and well The comparative perspectives offered by the essays appear in two ways one set is the explicit comparisons of nations made by several authors within their essays and between the essays themselves when the authors focus on developments within a single nation A second and indeed more thought provoking set of comparisons come from the way the essays address nationalism in disparate scholarly approaches that include visual culture history sociology and literature Moreover while traditional themes in the study of nationalism are not ignored these essays expand the discussion with case studies of nationalism in Turkey Asia and Eastern Europe Even when nationalism is considered in those areas that have been the central focus of nationalism studies Western Europe and the USA the authors bring unique voices to the conversation as in the use of portraiture as a vehicle of nationalism in Cold War America or children's literature shaping a Swedish American identity or in the idea of a covenant as

a source of Dutch nationalism or the role of minority languages in West European societies Section One of this volume contains essays that examine the terrain of the national imaginary through language monuments and visual culture Several of the essays in this traverse the cultural sites of representation and commemoration of the nation looking carefully at the politics of memory in places material objects and texts Section Two provides more individual case studies of nations though many of these essays engage significant regional and international tensions especially in a post Cold War world that has often influenced the internal dynamics of nation building Section Three moves the focus away from the nation to immigrant communities especially those in the United States Canada and the Caribbean Diasporas throughout the world have challenged many theories about the nation as crossing borders becomes the norm rather the exception      **Spectator**
