Bureau of Naval Personnel, 1963 *Social Learning in Study Abroad* Yoshifumi Fukada, 2025-02-28 This book explores how international students construct target language (TL) mediated social spaces for socializing. The author asks what factors either prevent or promote the construction of TL mediated socializing opportunities by international students, how such students can grow both as TL learners/speakers/users and as people throughout their TL mediated socializing, and how international students' socializing and their affective states during socializing change across time during their stay in the host country. He analyses international students' TL mediated socializing and its co-construction primarily within the conceptual frameworks of situated learning (Lave & Wenger 1991) and affinity space (Gee 2004) with additional insights from peripheral
