

GEORGES DUNÉZIL

## L'oubli de l'homme et l'honneur des dieux

Ce troisième volume d'Esquisses de mythologie indo-européenne, comme les précédents, se borne à poser des problèmes et à indiquer les principaux éléments de solution.

Une première partie étudie des récits ou des conceptions fondés sur la structure fondamentale chez les Indo-Européens, des trois fonctions de souveraineté magico-religieuse, de force et de fécondité. Huit concernent des œuvres bien connues de la littérature grecque (51-58) ; ainsi la longue introduction que forment les premiers chants de l'*Illiade* se justifie unitairement à la lumière du conflit des trois déesses et des idées qu'elles incarnent ; dans la geste de Crésus, les trois fonctions ne soutiennent pas seulement le fameux dialogue de Solon et du roi de Lydie, mais le triple malheur qui punit ensuite le roi de son orgueil. Les deux Esquisses suivantes étendent l'analyse aux plus occidentaux des Indo-Européens, Celtes (59) et Italiques (60) ; la première partie du *Mabinogi* de Math apparaît comme la mise en scène d'une doctrine cohérente.

Dans la deuxième partie sont réunies des questions très diverses de mythologie, séparée ou comparée, qui se posent à Rome (61-65), en Scythie (67-68), dans la Perse achéménide (69-72).

La troisième partie contient trois réponses à de récentes critiques de méthode. Deux (73-74) réfutent les objections d'un germaniste américain ; l'auteur est ainsi conduit à vérifier l'interprétation précédemment proposée de récits aussi importants que la fabrication et la destruction de Kvasir, la boisson enivrante personnifiée, à la fin de la guerre des dieux Ases et des dieux Vanes, ou que l'ensemble de la théologie de Týr, avec le mythe du loup enchaîné (73) ; une des attestations les plus claires de la triade des grands dieux scandinaves patrons des trois fonctions, dans la saga du scalde Egill, obscurcie comme à plaisir, est restaurée dans sa simplicité (74). La dernière Esquisse (75) examine la présentation qu'un historien de Rome, M. Arnaldo Momigliano, vient de faire des thèses de l'auteur.

## **Loubli De Lhomme Et Lhonneur Des Dieux:**

**L'oubli de l'homme et l'honneur des dieux** Georges Dumézil, 1985      The Fluid Pantheon Bernard Faure, 2015-12-31

Written by one of the leading scholars of Japanese religion The Fluid Pantheon is the first installment of a multivolume project that promises to be a milestone in our understanding of the mythico ritual system of esoteric Buddhism specifically the nature and roles of deities in the religious world of medieval Japan and beyond Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual in doing so he moves away from the usual textual historical and sociological approaches that constitute the method of current religious studies The approach considers the gods including buddhas and demons as meaningful and powerful interlocutors and not merely as cyphers for social groups or projections of the human mind Throughout he engages insights drawn from structuralism post structuralism and Actor network theory to retrieve the implicit pantheon as opposed to the explicit orthodox pantheon of esoteric Japanese Buddhism Mikkyō Through a number of case studies Faure describes and analyzes the impressive mythological and ritual efflorescence that marked the medieval period not only in the religious domain but also in the political artistic and literary spheres He displays vast knowledge of his subject and presents his research much of it in largely unstudied material with theoretical sophistication His arguments and analyses assume the centrality of the iconographic record and so he has brought together in this volume a rich and rare collection of more than 180 color and black and white images This emphasis on iconography and the ways in which it complements supplements or deconstructs textual orthodoxy is critical to a fuller comprehension of a set of medieval Japanese beliefs and practices It also offers a corrective to the traditional division of the field into religious studies which typically ignores the images and art history which oftentimes overlooks their ritual and religious meaning The Fluid Pantheon and its companion volumes should persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation parallelism or complementarity between some monolithic teachings known as Buddhism and Shinto Once these reductionist labels and categories are discarded a new and fascinating religious landscape begins to unfold      **Decayed Gods** Wouter W. Belier, 2015-09-01 In 1930 Dumézil wrote an article in which he defended the Indo European character of the Indian varnas In 1986 he was completing his final 25 Esquisses research proposals the aim of which was to allow his model of the tripartite division of Indo European traditions to be applied to his disciplines According to this model Indo European traditions were typified by a threefold division into functions of society the world of the gods and the heroic traditions These were the functions of sovereignty power and fertility This theoretical model was elaborated by Dumézil in a large number of books and articles Between 1930 and 1986 he broadened enormously the amount of data on which his model was based To do so he had regularly to adapt and reformulate his model This was not without consequences for the material which he had interpreted earlier on In this study a detailed description is given of this process of reformulation and

reinterpretation and the conclusion is that the totality of the various models does not despite its aesthetic attraction satisfy the criteria which should be set for scientific models

**The Indo-Europeans** Jean-Paul Demoule, 2023 The existence of an Indo European linguistic family allowing for the fact that several languages widely dispersed across Eurasia share numerous traits has been demonstrated for several centuries now But the underlying factors for this shared heritage have been fiercely debated by linguists historians archaeologists and anthropologists The leading theory of which countless variations exist argues that this similarity is best explained by the existence at one given point in time and space of a common language and corresponding population This ancient prehistoric population would then have diffused across Eurasia eventually leading to the variation observed in historical and modern times The Indo Europeans Archaeology Language Race and the Search for the Origins of the West argues that despite its acceptance and use by most researchers from different disciplines such a model is inherently flawed This book describes how beginning in the late eighteenth century Europeans began a quest for a supposed original homeland from which a small conquering people would one day spread out bringing their language to Europe and parts of Asia India Iran Afghanistan This quest was often closely tied to ideological preoccupations and it was in its name that the Nazi leadership claiming for the Germans the status of the purest Indo Europeans or Aryans waged genocide The last part of the book summarizes the current state of knowledge and current hypotheses in the fields of linguistics archaeology comparative mythology and genetics The culmination of three decades of research this book offers a sweeping survey of the historiography of the Indo European debate and poses a devastating challenge to the Indo European origin story at its roots

The Shah and the Ayatollah Fereydoun Hoveyda, 2003-02-28 Twenty two years after Ayatollah Khomeini's ascent to power in Iran many aspects of his 1979 Islamic revolution remain obscure if not baffling For instance in November 1978 an offer was made to him in his Paris exile to return to Iran with international guarantees of freedom of speech and action He refused and demanded the departure of the Shah Americans put pressure on the monarch to leave the country Khomeini arrived in Tehran in early February 1979 and he immediately demanded the return of the Shah and his trial before an Islamic tribunal No one could give a valid explanation of this contradiction in Khomeini's conduct and demands Many other mysteries in the unfolding of the revolution and the policies of the Islamic republic which replaced the monarchy have gone unexplained up to now Scholars and experts in the West have offered the usual explanations for the Islamic revolution corruption deepening gaps between the rich and the poor rapid industrialization sky rocketing inflation westernizing policies that offended traditions lack of democratic institutions authoritarian rule and on and on But such characteristics which exist in other Muslim countries especially in the Arab world fail to clarify the particularities of the Iranian revolution Indeed as Ambassador Hoveyda points out Iran is not an Arab country It has kept alive its ancient mythological heritage which is not Islamic It is an Indo European nation with a recorded history of three thousand years To understand the real causes of the 1979 revolution one must refer to the deep rooted beliefs of Iranians and to their very rich

mythology One must also take into account the kind of Islam shiism Iranians have created and nurtured In fact Iran is a powerful example of how mythologies remain alive and can account for the conduct of a whole nation Hoveyda shows the influence of myths in history in the making Indeed he has found in the Iranian revolution many points that can be clarified only by the impact of old mythology and mindsets He provides a very original explanation of the events that led to the fall of the Shah and the ascent of Khomeini changing the political and diplomatic situation in the Middle East the Persian Gulf and the Caspian Sea region As such it will be of great interest to scholars students researchers and foreign policy makers involved with the Middle East and Islamic fundamentalism

**Handbook on Governmentality** William Walters, Martina Tazzioli, 2023-01-20 The Handbook on Governmentality discusses the development of an interdisciplinary field of research focusing on Michel Foucault's post foundationalist concept of governmentality and the ways it has been used to write genealogies of modern states the governance of societal problems and the governance of the self

*Aristotle and the Theology of the Living Immortals* Richard Bodeus, Richard Bodéüs, Richard Bodéüs, 2000-09-22 Bodeus argues that Aristotle is more closely aligned with popular Greek religion than is usually thought and attention to the ethical and political writings reveals more about Aristotle's resources for conceiving the gods than study of his theoretical works

**Arjuna-Odysseus** N. J. Allen, 2019-11-07 Bringing together the study of the Greek classics and Indology Arjuna Odysseus provides a comparative analysis of the shared heritage of the Mahabharata and early Greek traditions presented in the texts of Homer and Hesiod Building on the ethnographic theories of Durkheim Mauss and Dumont the volume explores the convergences and rapprochements between the Mahabharata and the Greek texts In exploring the networks of similarities between the two epic traditions it also reformulates the theory of Georges Dumézil regarding Indo European cultural comparativism It includes a detailed comparison between journeys undertaken by the two epic heroes Odysseus and Arjuna and more generally it ranges across the philosophical ideas of these cultures and the epic traditions metaphors and archetypes that define the cultural ideology of ancient Greece and India This book will be useful to scholars and researchers of Indo European comparativism social and cultural anthropology classical literature Indology cultural and post colonial studies philosophy and religion as well as to those who love the Indian and Greek epics

*Theorizing Myth* Bruce Lincoln, 1999 In *Theorizing Myth* Bruce Lincoln traces the way scholars and others have used the category of myth to fetishize or deride certain kinds of stories usually those told by others He begins by showing that mythos yielded to logos not as part of a mythic Greek miracle but as part of struggles over political linguistic and epistemological authority occasioned by expanded use of writing and the practice of Athenian democracy Lincoln then turns his attention to the period when myth was recuperated as a privileged type of narrative a process he locates in the political and cultural ferment of the eighteenth and nineteenth centuries Here he connects renewed enthusiasm for myth to the nexus of Romanticism nationalism and Aryan triumphalism particularly the quest for a language and set of stories on which nation states could be founded In the final section of this wide ranging book

Lincoln advocates a fresh approach to the study of myth providing varied case studies to support his view of myth and scholarship on myth as ideology in narrative form **L'oubli de l'homme et l'honneur des dieux et autres essais**, 1985

they represent the life's work of one of the most important legal historians of our era      Indo-European Sacred Space Roger D. Woodard, 2010-10-01 In *Indo-European Sacred Space* Roger D. Woodard provides a careful examination of the sacred spaces of ancient Rome finding them remarkably consistent with older Indo-European religious practices as described in the Vedas of ancient India. Employing and expanding on the fundamental methods of mile Benveniste as well as Georges Dumézil's tripartite analysis of Proto-Indo-European society, Woodard clarifies not only the spatial dynamics of the archaic Roman cult but stemming from that, an unexpected clarification of several obscure issues in the study of Roman religion. Looking closely at the organization of Roman religious activity especially as regards sacrifices, festivals and the hierarchy of priests, Woodard sheds new light on issues including the presence of the god Terminus in Jupiter's Capitoline temple, the nature of the Roman *suovetaurilia*, the *Ambarvalia* and its relationship to the rites of the *Fratres Arvales* and the identification of the Sabine god *Semo Sancus*. Perhaps most significantly, this work also presents a novel and persuasive resolution to the long-standing problem of agrarian Mars.

**A Companion to Greek Mythology** Ken Dowden, Niall Livingstone, 2014-01-28 *A Companion to Greek Mythology* presents a series of essays that explore the phenomenon of Greek myth from its origins in shared Indo-European story patterns and the Greeks' contacts with their Eastern Mediterranean neighbours through its development as a shared language and thought system for the Greco-Roman world. Features essays from a prestigious international team of literary experts. Includes coverage of Greek myth's intersection with history, philosophy and religion. Introduces readers to topics in mythology that are often inaccessible to non-specialists. Addresses the Hellenistic and Roman periods as well as Archaic and Classical Greece.

*Europe and Empire* Massimo Cacciari, 2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions and civilizations. Europe will never be One but to survive as a union it will have to become a federation of islands both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity; however impossible it seems to achieve.

Apples and Oranges Bruce Lincoln, 2018-08-22 Comparison is an indispensable intellectual operation that plays a crucial role in the formation of knowledge. Yet comparison often leads us to forego attention to nuance, detail and context, perhaps leaving us bereft of an ethical obligation to take things correspondingly as they are. Examining the practice of comparison across the study of history, language, religion and culture, distinguished scholar of religion Bruce Lincoln argues in *Apples and Oranges* for a comparatism of a more modest sort. Lincoln presents critiques of recent attempts at grand comparison and enlists numerous theoretical examples of how a more modest, cautious and discriminating form of comparison might work and what it can accomplish. He does this through studies of shamans.

werewolves human sacrifices apocalyptic prophecies sacred kings and surveys of materials as diverse and wide ranging as Beowulf Herodotus's account of the Scythians the Native American Ghost Dance and the Spanish Civil War Ultimately Lincoln argues that concentrating one's focus on a relatively small number of items that the researcher can compare closely offering equal attention to relations of similarity and difference not only grants dignity to all parties considered it yields more reliable and more interesting if less grandiose results Giving equal attention to the social historical and political contexts and subtexts of religious and literary texts also allows scholars not just to assess their content but also to understand the forces problems and circumstances that motivated and shaped them

*From Triads to Pentads* Robert Parkin, 2025-03-01 N J Nick Allen had an extensive academic career which for the most part was spent in Oxford He passed away in 2020 This edited volume brings together a selection of his anthropological papers They cover two major fields and a supplementary one Indo European mythical comparison and his own notion of tetradic kinship supplemented by a long term interest in the work of Marcel Mauss and his uncle mile Durkheim It follows key areas of his research in which his contributions were novel innovative stimulating and plausible

**Ex Oriente Lex** Raymond Westbrook, 2015-02-25 An essential collection of Raymond Westbrook's groundbreaking work on the cross cultural history of ancient law Throughout the twelve essays that appear in *Ex Oriente Lex* Raymond Westbrook convincingly argues that the influence of Mesopotamian legal traditions and thought did not stop at the shores of the Mediterranean but rather had a profound impact on the early laws and legal developments of Greece and Rome as well He presents readers with tantalizing fragments of early Greek or archaic Roman law which when placed in the context of the broader Near Eastern tradition suddenly acquire unexpected new meanings Before his untimely death in July 2009 Westbrook was regarded as one of the world's leading authorities on ancient legal history Although his main field was ancient Near Eastern law he also made important contributions to the study of early Greek and Roman law In his examination of the relationship between ancient Near Eastern and pre classical Greek and Roman law Westbrook sought to demonstrate that the connection between the two legal spheres was not merely theoretical but also concrete The Near Eastern legal heritage had practical consequences that help us understand puzzling individual cases in the Greek and Roman traditions His essays provide rich material for further reflection and interdisciplinary discussion about compelling similarities between legal cultures and the continuity of legal traditions over several millennia Aimed at classicists and ancient historians as well as biblicalists Egyptologists Assyriologists and legal historians this volume gathers many of Westbrook's most important essays on the legal aspects of Near Eastern cultural influences on the Greco Roman world including one new never before published piece A preface by editors Deborah Lyons and Kurt Raaflaub details the importance of Westbrook's work for the field of classics while Sophie D mare Lafont's incisive introduction places Westbrook's ideas within the wider context of ancient law
