## **Love And Other Passions:**

Of Love and Other Passions Guiomar Dueñas-Vargas, 2015-06-01 In *Of Love and Other Passions* Guiomar Dueñas-Vargas delves into the world of emotions among the bourgeois elite in Bogotá from the end of the colonial period to 1870. While most studies of the period focus solely on the country's political activity, Dueñas-Vargas shows how Colombia's social, cultural, and political changes transformed the meaning of love, which contributed to the evolution of new models of femininity and masculinity. By examining sources such as personal letters and diaries, Dueñas-Vargas presents the emotional profiles of families and couples, demonstrating how their conduct challenged the established order. As lovers insisted on choosing their own mates rather than marrying spouses selected by their parents, they undermined the patriarchal structure of Colombian society. Such decisions unveil the many functions women assumed in both public and private life and how they participated in the invention of a nation.

**Love, Hatred, and Other Passions** Paolo Santangelo, Donatella Guida, 2006-12-01 This volume aims at starting a debate on the function, role, and relevance of states of mind in Chinese history and civilization. It focuses on an anthropological aspect of human experience: the affective world as it is represented and evaluated in the various sources. A number of well-known specialists, ranging from the philosophical to the basic concepts, address some fundamental questions about terminology, analyze literary, historical, and judicial materials, and present different opinions, experiences, and perspectives on the understanding of emotional and mental states in Chinese civilization, as well as about the difficulties met on the topic. A fascinating and useful reading for all those who are interested in humanities and in the history of mentality.

**My Three Mothers and Other Passions** Sophie Freud, 1991-04 Sophie Freud, author, teacher, social worker, mother, daughter, and granddaughter of Sigmund Freud, here offers for the first time a candid portrait of her struggles in her own life. Blessed and cursed with the legacy of a famous family, Dr. Freud has negotiated her way from a blissful childhood in Vienna to Paris to Radcliffe College to her present-day life as one of the most respected teachers in her field. *My Three Mothers and Other Passions* is a remarkable story about a remarkable woman, and Dr. Freud explores with us, openly and engagingly, the many experiences of her life.

The Passions of the Soul and Other Late Philosophical Writings René Descartes, 2015-11-12 Those most capable of being moved by passion are those capable of tasting the most sweetness in this life. Descartes is most often thought of as introducing a total separation of mind and body. But he also acknowledged the intimate union between them, and in his later writings he concentrated on understanding this aspect of human nature. *The Passions of the Soul* is his greatest contribution to this debate. It contains a profound discussion of the workings of the emotions and of their place in human life, a subject that increasingly engages the interest of philosophers and intellectual and cultural historians. It also sets out a view of ethics that has been seen as a radical reorientation of moral philosophy. This volume also includes both sides of the correspondence with Princess Elisabeth of Bohemia, one of Descartes's keenest disciples and shrewdest critics, which played a crucial role in the genesis of *The Passions*, as well as the first part of *The*

Principles of Philosophy which sets out the key positions of Descartes's philosophical system ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

**Love and Lies** Clancy Martin, 2015-02-03 A provocative and unsettling look at the nature of love and deception Is it possible to love well without lying At least since Socrates's discourse on love in Plato's Symposium philosophers have argued that love can lead us to the truth about ourselves and the ones we love But in the practical experience of erotic love and perhaps especially in marriage we find that love and lies often work hand in hand and that it may be difficult to sustain long term romantic love without deception both of oneself and of others Drawing on contemporary philosophy psychoanalysis and cognitive neuroscience his own personal experience and such famed and diverse writers on love as Shakespeare Stendhal Proust Adrienne Rich and Raymond Carver Clancy Martin himself divorced twice and married three times explores how love truthfulness and deception work together in contemporary life and society He concludes that learning how to love and loving well inevitably requires lying but also argues that the best love relationships draw us slowly and with difficulty toward honesty and trust *Love and Lies* is a relentlessly honest book about the difficulty of love which is certain to both provoke and entertain

**Physiology of Love and Other Writings** Paolo Mantegazza, 2008-02-16 Physician anthropologist travel writer novelist politician Paolo Mantegazza 1831-1910 was probably the most eclectic figure in late nineteenth century Italian culture A prolific writer Mantegazza can be seen as a forerunner of what has come to be known as cultural studies on account of his interdisciplinary approach his passionate blend of scientific and literary elements in his writings and his ability to transcend the boundaries between high and low culture Though extremely popular during his lifetime both in Italy and abroad Mantegazza's works have not been made available in a significant English language compilation This volume is a representative overview of Mantegazza's key works many of them translated into English for the first time In addition to the unabridged *Physiology of Love* 1873 a veritable best seller at the time of its initial publication this compilation features selections from Mantegazza's writings on medicine his travelogues his epistolary novel *One Day in Madeira* 1868 and his treatise on materialistic aesthetics Replete with an extensive and informative introduction by the editor *The Physiology of Love and Other Writings* also excerpts Mantegazza's works of science fiction memoir and social and cultural criticism As an anthology of the works of Paolo Mantegazza a writer of diverse topical orientations this volume is also an account of the circulation of ideas and cross fertilization of disciplines that defined a crucial period of Italian and European cultural life

**The Cyclopaedia; Or, an Universal Dictionary of Arts, Sciences, and Literature** Abraham Rees,1819      **The Cyclopædia, Or, Universal Dictionary of Arts, Sciences, and Literature** Abraham Rees,1819      Love and Friendship Eduardo A. Velásquez,2003-01-01 *Love and Friendship* gathers

the reflections of some of today's most preeminent political scientists, philosophers, historians, and students of literature and religion in an investigation of the most influential accounts of love and friendship in Western history. The collection begins with a discussion of classical philosophers such as Plato and Aristotle, moves through a wide array of modern philosophers among them Montaigne, Hobbes, Locke, and Rousseau, and concludes with contemporary, postmodern accounts of love and friendship. Taken together, the essays provide an unprecedented exploration of the most compelling and sovereign human affections and associations. Eduardo Velásquez's marvelous, ambitious project succeeds as each thoughtful and engaging piece proves the depth of the intimate relationship between psychology and political life.

**Love and the Postmodern Predicament** D. C. Schindler, 2018-05-11 The computer has increasingly become the principal model for the mind, which means our most basic experience of reality is as mediated through a screen or stored in a cloud. As a result, we are losing a sense of the concrete and imposing presence of the real, and the fundamental claim it makes on us, a claim that Iris Murdoch once described as the essence of love. In response to this postmodern predicament, the present book aims to draw on the classical philosophical tradition in order to articulate a robust philosophical anthropology and a new appreciation of the importance of the transcendental properties of being, beauty, goodness, and truth. The book begins with a reflection on the importance of metaphysics in our contemporary setting and then presents the human person's relation to the world under the signs of the transcendentals: beauty is the gracious invitation into reality; goodness is the self-gift of freedom in response to this invitation; and truth is the consummation of our relation to the real in knowledge. The book culminates in an argument for why love is ultimately a matter of being and why metaphysical reason is indispensable in faith.

**Cyclopaedia: Or, An Universal Dictionary of Arts and Sciences** Ephraim Chambers, 1786

**Love and Christian Ethics** Frederick V. Simmons, 2016-12-15 At the heart of Christian ethics is the biblical commandment to love God and to love one's neighbor as oneself. But what is the meaning of love? Scholars have wrestled with this question since the recording of the Christian gospels, and in recent decades, teachers and students of Christian ethics have engaged in vigorous debates about appropriate interpretations and implications of this critical norm. In *Love and Christian Ethics*, nearly two dozen leading experts analyze and assess the meaning of love from a wide range of perspectives. Chapters are organized into three areas: influential sources and exponents of Western Christian thought about the ethical significance of love; perennial theoretical

questions attending that consideration and the implications of Christian love for important social realities Contributors bring a richness of thought and experience to deliver unprecedentedly broad and rigorous analysis of this central tenet of Christian ethics and faith William Werpehowski provides an afterword on future trajectories for this research Love and Christian Ethics is sure to become a benchmark resource in the field

**The Bridling of Pegasus** Alfred Austin, 2019-09-25 Reproduction of the original *The Bridling of Pegasus* by Alfred Austin

[The Concept of Love in 17th and 18th Century Philosophy](#) Herman de Dijn, 2007 Love is joy with the accompanying idea of an external cause Spinoza's definition of love manifests a major paradigm shift achieved by seventeenth century Europe in which the emotions formerly seen as normative forces of nature were embraced by the new science of the mind This shift has often been seen as a transition from a philosophy laden with implicit values and assumptions to a more scientific and value free way of understanding human action But is this rational approach really value free Today we tend to believe that values are inescapable and that the descriptive mechanical method implies its own set of values Yet the assertion by Spinoza Malebranche Leibniz and Enlightenment thinkers that love guides us to wisdom and even that the love of a god who creates and maintains order and harmony in the world forms the core of ethical behavior still resonates powerfully with us It is evidently an idea Western culture is unwilling to relinquish This collection of insightful essays offers a range of interesting perspectives on how the triumph of reason affected not only the scientific philosophical understanding of the emotions and especially of love but our everyday understanding as well

**The Works of Bishop Butler: Sermons, charges, fragments & correspondence** Joseph Butler, 1900

**The Passion of Love in the Summa Theologiae of Thomas Aquinas** Daniel Joseph Gordon, 2023-05-19 This book is an introduction to three questions on love according to St Thomas Aquinas *Summa Theologiae* I II qq 26 28 These three questions reflect on the nature of love q 26 the causes of love q 27 and the effects of love q 28 It is thus an introduction to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes making the body of the text accessible to more readers

**Moral Psychology** Thomas Nadelhoffer, Eddy Nahmias, Shaun Nichols, 2010-10-18 *Moral Psychology Historical and Contemporary Readings* is the first book to bring together the most

significant contemporary and historical works on the topic from both philosophy and psychology Provides a comprehensive introduction to moral psychology which is the study of psychological mechanisms and processes underlying ethics and morality Unique in bringing together contemporary texts by philosophers psychologists and other cognitive scientists with foundational works from both philosophy and psychology Approaches moral psychology from an empirically informed perspective Explores a wide range of topics from passion and altruism to virtue and responsibility Editorial introductions to each section explain the background of and connections between the selections
