Dirty Love Tim Whitmarsh, 2018-04-02 Some of the world's earliest large form fictional narratives what would today be called novels are found in ancient Greece Dating back to the first century CE these narratives contain many of the elements common to the novelistic genre for instance the joining separation and reunion of two lovers These ancient works have often been heralded as the ancestors of the modern novel but what can we say of the origins of the Greek novel itself This book argues that whereas much of Greek literature was committed to a form of cultural purism presenting itself as part of a continuous tradition reaching back to the founding fathers within the tradition the novel reveled in cultural hybridity The earliest Greek novelistic literature combined Greek and non Greek traditions More than this however it also often self consciously explored its own hybridity by focusing on stories of cultural hybridization or what we would now call

mixed race relations This book is thus not a conventional account of the origins of the Greek novel it is not an attempt to pinpoint the moment of invention and to trace its subsequent development in a straight line Rather it makes a virtue of the murkiness or dirtiness of the origins of the novel there is no single point of creation no pure tradition only transgression and transformation The novel thus emerges as an outlier within the Greek literary corpus a form of literature written in Greek but not always committing to Greek cultural identity *Dirty Love* focuses particularly on the relationship between Persian Egyptian Jewish and Greek literature and explores such texts as Ctesias Persica Joseph and Aseneth the Alexander Romance and the tale of Ninus and Semiramis It will appeal not only to those interested in Greek literary history but also to readers of near eastern and biblical literature

Theories of Mimesis Arne Melberg,1995-01-26 Mimesis with its connecting concepts of imitation simile and similarity has been cited since classical times in the exploration of the relationship between art and reality In this major study Arne Melberg discusses the theory and history of mimesis through narratological analysis of texts by Plato Cervantes Rousseau and Kierkegaard Moving away from the relatively straightforward representation of reality ideas in Erich Auerbach s *Mimesis* 1946 Melberg brings the concept of mimesis into the context of the literary theories of de Man and others *Theories of Mimesis* is a strenuously argued account of language and time charting the movement of mimesis from the Platonic philosophy of similarity to modern ideas of difference

The Novel in the Ancient World Gareth L.
