Love Changes Everything Micah Berteau, 2019-09-03 We all crave love We try to fill the void inside with any number of poor substitutes We seek validation from empty outlets We re thirsty for compliments We change who we are to impress people who aren t looking and don t care Yet we are still desperately searching for a love that changes everything for us a love that doesn t fade and doesn t fail even when we do That s the kind of love God shows that he has for us through the remarkable story of Hosea and Gomer Unpacking this powerful love story from the Old Testament in a way you have never heard pastor Micah Berteau releases us from the fears hurts insecurities and anxieties of life by showing us just how extravagantly we are loved in spite of our faults our failures and our sins If you re tired of trying so hard to be worthy of someone else s love lost in what s fake or drawn to live in the temporary Micah Berteau has good news for you there is a better way to live and love Foreword by Jentezen Franklin

**Crowning Achievement** Bill Wilson,2022-12-06 In his previous book Faith Refractioned the author suggested that faith needs to be periodically refracted by looking at it through the lens of our prevailing understanding of the world For our fathers this was the world of supernatural beings and mystical powers For us today it is the world of science and reason and faith will only reveal its true beauty when refracted through this prism In this book the author addresses an argument made by religious traditionalists which says that without God or gods there can be no morality He outlines how morality can be explained as a natural phenomenon how it helps humanity survive and thrive and how it can be encapsulated within the framework of a moral compass The author observes that for our forefathers morality was obedience to the laws of God But with the belief in God in sharp decline in most of the Western world morality either doesn t exist or it is somehow part of our evolved nature Accordingly through much trial and error an almost global consensus has been achieved about the elements of a moral code But this consensus is fragile and demands constant nurturing if it is to withstand the pressures of modern high speed living *Blue Cat 7.
