Sartre's early philosophical work which dealt first with imagination and the emotions then with the critique of Husserl's notion of a transcendental ego and finally with systematic ontology presented in his best known book *Being and Nothingness*. In addition since his preoccupation with ontological questions and especially with the meanings of ego self and consciousness endured throughout his career other essays discuss these themes in light of later developments both in Sartre's own thought and in the phenomenological hermeneutic and analytic traditions.

Universal (In the Realm of the Sensible) Dorothea Olkowski, 2007-03-02 *The Universal In the realm of the sensible* Beyond Continental Philosophy proposes a radical new philosophical system that moves from ontology to ethics Dorothea Olkowski develops the concept of an ontological unconscious a connection arising from our sensible relation to the world that conditions encounters with the environment and with others This fundamental ontology rethinks the space time relations opened by Irigaray's notion of the interval Bergson's recollection Merleau Ponty's idea of the flesh and Deleuze's plane of immanence Writing in an original style inspired by literature and the arts Olkowski locates a realm of the senses a field of vulnerability felt as pleasures and pains This presents an aesthetic sense of something universal to all human kind as well as to the organic and inorganic world In addition to this proposal for a wider ontology the relation between traditional ontologies and politics is examined as a

means of opening politics beyond a no exit or limit cycle. Instead, a multiplicity of self-organized emergent perspectives emerges, eliminating the need for the connections, conjunctions, and disjunctions of the Kantian paradigm at work in contemporary continental philosophy. This is a timely, controversial, and important book that will contribute enormously to the study of Deleuze and Continental Philosophy.

Tragic Sense Of Life Miguel de Unamuno, 2022-06-02

In *Tragic Sense of Life*, Miguel de Unamuno explores the profound existential conflicts that define human experience through a rich tapestry of philosophical inquiry and passionate prose. Written at the turn of the 20th century, this work grapples with themes of faith, doubt, and the search for personal meaning within the context of a largely indifferent universe. Unamuno employs a distinctive literary style, blending autobiography with philosophical essay, inviting readers to engage deeply with the tension between reason and emotion and the inherent suffering that accompanies human existence.

Miguel de Unamuno, a key figure of the Spanish Generation of 98, was profoundly influenced by the tumultuous socio-political landscape of his time, which informed his exploration of identity, culture, and the human condition. His own battles with faith and existential despair resonate throughout this text as he candidly reflects on the struggles of life. Unamuno's rich intellectual background and passion for vitalism compel him to question traditional notions of existence and inspire his call for an authentic life.

Tragic Sense of Life is an essential read for those interested in existential philosophy and literature. It challenges readers to confront their own beliefs, providing a powerful meditation on the nature of suffering and the quest for meaning. This masterpiece beckons readers to embrace their own tragic sense of life, making it a timeless exploration of humanity's most pressing concerns.
