Gender for the Warfare State Robin Truth Goodman, 2016-10-14 *Gender for the Warfare State* is the first scholarly investigation into the written works of U.S. women combat veterans in twenty first century wars Most recent studies quantify military participation showing how many women participate in armed services and what their experiences are in a

traditionally male institution Many of these treatments regard women as victims solely of enemy fire even as they are also often victims of their own military apparatus and of their own involvement in global aggression By applying literary analysis to a sociological question Gender for the Warfare State views women s experiences through story and literary traditions that carry meaning into present practices Goodman shows that women in combat are not just entering and being victimized in male institutions but are also actively changing the story of gender and thus the structure of power that is constructed through gender Moreover this book unveils a new narrative of care that affects economic relations more broadly and the contemporary politics of the liberal social contract Women s participation in combat is not just a U S event but global and therefore has a deeper historical range than current sociological accounts imply The book compares the political contexts of women s entry into war now with their prior twentieth century contributions to wars in other cultural settings and then uses this comparison to show a variety of meanings at play in the gender of war Women in the United States Armed Forces

Darlene M. Iskra,2010-03-23 This handbook provides the reader with an historical and contemporary overview of the service by women in all branches of the U S military tracing the causes and effects of evolving policies issues structural barriers and cultural challenges on the record and in the future of the accomplishments by women warriors Women in the United States Armed Forces A Guide to the Issues covers over a century of accomplishments of military women from the Civil War to the current wars in the Middle East Readers will learn for example that during World War II 565 women in the Women s Army Corps stationed in the Pacific theater received combat decorations proving that women had the courage strength and stamina to perform in a combat environment They will also learn that perhaps surprisingly it wasn t until the mid to late 1970s that women had their first opportunities to serve at sea and as aviators crew as well as pilots albeit on noncombatant ships and aircraft The book s final four chapters discuss the issues that continue to plague women in the military including sexual harassment noting that women s performance in America s two front wars in Iraq and Afghanistan have made a positive difference in attitudes The handbook closes with an epilogue that is at once a summary of the issues and a call for action Bodies at War

Belinda Linn Rincón,2017-10-31 In the wake of U S military intervention abroad and collapsing domestic economies scholars have turned their attention to neoliberalism and militarization two ideological and material projects that are often treated as coincident though not interdependent Bodies at War examines neoliberal militarism a term that signifies the complex ways in which neoliberalism and militarism interanimate each other as they naturalize disempowering notions of masculinity and femininity alter democratic practices and circumscribe the meaning of citizenship and national belonging Bodies at War examines the rise of neoliberal militarism from the early 1970s to the present and its transformation of political economic and social relations It charts neoliberal militarism s impact on democratic practices economic policies notions of citizenship race relations and gender norms by focusing on how these changes affect the Chicana o community and more specifically on how it shapes and is shaped by Chicana bodies The book raises important

questions about the cultural legacies of war and the gendering of violence topics that reach across multiple disciplinary fields of inquiry including cultural and media studies It draws attention to the relationship between war and society to neoliberal militarism's destructive social impact and to the future of Latina soldiering Through Chicana art activism and writing Rincón offers a visionary foundation for an antiwar feminist politics

From Where We Stand Cynthia Cockburn, 2013-07-04 This original study examines women's activism against war in areas as far apart as Sierra Leone India Colombia and Palestine It shows women on different sides of conflicts in the former Yugoslavia and Israel addressing racism and refusing enmity and describes international networks of women opposing US and Western European militarism and the so called war on terror These movements though diverse are generating an antimilitarist feminism that challenges how war and militarism are understood both in academic studies and the mainstream anti war movement Gender particularly the form taken by masculinity in a violent sex gender system is inseparably linked to economic and ethno national factors in the perpetuation of war

Soldiers' Stories Yvonne Tasker, 2011-08-08 A comprehensive analysis of the changing representations of military women in American and

British movies and TV programs from the Second World War to the present *It's My Country Too* Jerri Bell, Tracy Crow, 2017-07 This inspiring anthology is the first to convey the rich experiences and contributions of women in the American military in their own words from the Revolutionary War to the present wars in the Middle East Serving with the Union Army during the Civil War as a nurse scout spy and soldier Harriet Tubman tells what it was like to be the first American woman to lead a raid against an enemy freeing some 750 slaves Busting gender stereotypes Josette Dermody Wingo enlisted as a gunner's mate in the navy in World War II to teach sailors to fire Oerlikon anti aircraft guns Marine Barbara Dulinsky recalls serving under fire in Saigon during the Tet Offensive of 1968 and Brooke King describes the aftermath of her experiences outside the wire with the army in Operation Iraqi Freedom In excerpts from their diaries letters oral histories and pension depositions as well as from published and unpublished memoirs generations of women reveal why and how they chose to serve their country often breaking with social norms even at great personal peril **Gender Matters in Global Politics** ,

An Encyclopedia of American Women at War Lisa . Tendrich Frank, 2013-01-17 A sweeping review of the role of women within the American military from the colonial period to the present day In America the achievements defeats and glory of war are traditionally ascribed to men Women however have been an integral part of our country's military history from the very beginning This unprecedented encyclopedia explores the accomplishments and actions of the fairer sex in the various conflicts in which the United States has fought An Encyclopedia of American Women at War From the Home Front to the Battlefields contains entries on all of the major themes organizations wars and biographies related to the history of women and the American military The book traces the evolution of their roles as leaders spies soldiers and nurses and illustrates women's participation in actions on the ground as well as in making the key decisions of developing conflicts From the colonial conflicts with European powers to the current War on Terror coverage is comprehensive with material organized in an easy to use A Z ready reference format *Sexing War/Policing Gender* Linda Åhäll, 2015-02-11 Historically there has been reluctance from mainstream IR scholars as well as feminists to seriously engage with women's agency in warfare Instead scholarship has tended to focus on women's activism for peace or to ignore women's agency altogether This book rectifies this omission by exploring the cultural understanding of actors agents and structures of war and how can we make sense of attitudes towards women agency and war today By using a poststructuralist feminist perspective and by analysing empirical cases from a Western war on terror cultural context Åhäll argues that all types of stories are informed by ideas about motherhood and maternal reproduction as the foundation of sexual difference This does not only mean that women are judged read valued based on the shape of their maternalised bodies rather than what they actually do but it means that ideas about motherhood not motherhood itself function to police contemporary gender norms and contemporary understandings of agency in war Overall this book argues that maternalist war stories function to reiterate traditional heteronormative gender roles This is how a body politics of war is not only policing gender norms but actually writing sex itself The body politics of

war told through maternalist war stories is a process in which the sexing of war means the policing of gender borders with motherhood acting as the border agent This work will be of interest to students and scholars in areas such as gender political violence and international relations

Women in the United States Military Judith A. Bellafaire, 2011-01-26 Women's participation in the U S Armed Forces has grown over time in response to the national need for their services Throughout each era of American history patriotic women volunteered to serve their country in a wide variety of official and unofficially sanctioned capacities When there was a call to duty the United States Armed Forces always relied upon women to be a part of the effort Women in the United States Military An Annotated Bibliography is the most complete and up to date listing of resources to help students and scholars understand the effect women have had on the wars that have shaped the United States Covering everything from the American Revolution to Operations in Iraq Women in the United States Military is essential for all academic and research libraries

Waging Gendered Wars Paige Whaley Eager, 2016-02-24 Waging Gendered Wars examines through the analytical lens of feminist international relations theory how U S military women have impacted and been affected by the wars in Iraq and Afghanistan Although women were barred from serving formally in ground combat positions within the U S armed forces during both wars U S female soldiers are being killed in action By examining how U S military women's agency as soldiers veterans and casualties of war affect the planning and execution of war Whaley Eager assesses the ways in which the global world of international politics and warfare has become localized in the life and death narratives of female service personnel impacted by combat experience homelessness military sexual trauma PTSD and the deaths of fellow soldiers

When Janey Comes Marching Home Laura Browder, Sascha Pflaeging, 2010-05-01 While women are officially barred from combat in the American armed services in the current war where there are no front lines the ban on combat is virtually meaningless More than in any previous conflict in our history American women are engaging with the enemy suffering injuries and even sacrificing their lives in the line of duty When Janey Comes Marching Home juxtaposes forty eight photographs by Sascha Pflaeging with oral histories collected by Laura Browder to provide a dramatic portrait of women at war Women from all five branches of the military share their stories here stories that are by turns moving comic thought provoking and profound Seeing their faces in stunning color photographic portraits and reading what they have to say about loss comradeship conflict and hard choices will change the ways we think about women and war Serving in a combat zone is an all encompassing experience that is transformative life defining and difficult to leave behind By coming face to face with women veterans we who are outside that world can begin to get a sense of how the long wars in Iraq and Afghanistan have shaped their lives and how their stories may ripple out and influence the experiences of all American women The book accompanies a photography exhibit of the same name opening May 1 2010 at the Women in Military Service to America Memorial at Arlington National Cemetery and continuing to travel around the country through 2011
