Stephen Evans, 2004-09-09 A compelling account of Kierkegaard's ethical views seeing him against the backdrop of nineteenth century European society but showing the relevance of his thought for the twenty first century Kierkegaard's view of morality as grounded in God's command to love our neighbours as ourselves has clear advantages over contemporary secular rivals *Love and Freedom* Jorge N. Ferrer, 2021-06-24 In Love and Freedom Jorge Ferrer proposes a paradigm shift in how romantic relationships are conceptualized a step forward in the evolution of modern relationships In the same way that the transgender movement surmounted the gender binary Ferrer defines how a parallel step can and should be taken with the relational style binary This book offers the first systematic discussion of relationship modes beyond monogamy and polyamory as well as introduces the notion of relational freedom as the capability to choose one's relational style free from biological psychological and sociocultural conditionings To achieve these goals Ferrer first discusses a number of critical categories specifically monopride polyphobia and polypride monophobia that mediate the contemporary mono poly wars that is the predicament of

mutual competition among monogamists and polyamorists The ideological nature of these mono poly wars is demonstrated through a review of available empirical literature on the psychological health and relationship quality of monogamous and polyamorous individuals and couples Then after showing how monogamy and polyamory ultimately reinforce each other Ferrer articulates three relational pathways to living in between through and beyond the mono poly binary fluidity hybridity and transcendence Moving beyond that binary opens a fuzzy liminal and multivocal relational space that Ferrer calls novogamy In this groundbreaking book readers will learn practical tools to not only transform jealousy but also enhance their relational freedom while being aware of key issues of diversity and social justice They will also learn novel criteria to evaluate the success of their intimate relationships and be introduced to a transformed vision of romantic love beyond both monocentrism and emerging polynormativities *Adult Catalog: Subjects* Los Angeles County Public Library,1970 An essay of health and long life ... The fourth edition George Cheyne,1725 *The Psychology of War and Peace* Fred van Houten,2013-06-29 Can a Baby Be an Enemy Our world is in a deep prolonged crisis The threat of global nuclear war the chronic condition of local wars the imperilled environment and mass starvation are among the major forms this crisis takes The dangers of massive overkill overexploitation of the environment and overpopulation are well known but surprisingly little has been said about their potential interactions their bearing upon each other If there were to be a nuclear confrontation between today's superpowers it might not take place in today's world but in a far less friendly habitat such as the world may be some decades hence And it need hardly be added that the era of this particular super power configuration may be waning rapidly its place to be taken by other international arrangements not necessarily less threatening To understand and cope with our situation we need correspondingly serious reflection This volume forms a welcome part of that process Unavoidably a large part of our thinking about the issues of human survival must be oriented to physical and biological aspects of the total danger But it has not escaped the authors of this book that coupled with these aspects there are profound psychological dangers such as loss of the sense of futuristic moral deterioration and a fatalistic decline in the will to struggle to protect our home the Earth **Themes of Work and Love in Adulthood** Neil J.
