Love School:

Love's Verdict Carsen Taite, 2018-08-14 Attorneys Landon Holt and Carly Pachett want the exact same thing the only open partnership spot at their prestigious criminal defense firm When Landon and Carly are forced to collaborate on the defense of one of the firm's A list celebrity clients in a high profile murder case there's no question the assignment is a test to see which one of them will get the promotion Fierce determination to stand out fuels the already heated rivalry between them but all those late nights working on legal strategy also fan the flames of attraction When it comes to the verdict will they compromise their careers for love

Quantificational Modification Zaina Hafiz Tsouhlaris, 2011 The thesis explores the syntactic and semantic dimensions of four linguistic elements that appear in Modern Greek arguably as quantifiers and modifiers i.e. in the form of Quantificational Modifiers QMods olos all whole overall and its extension olikos total merikos some a few partial ligos some few little insignificant and polis many great considerable Such QMods are analyzed as measure quantifiers of scalar semantics that appear in a syntactic position common to adjectival modifiers The thesis explores specific sets of readings and their interpretations Such a phenomenon is common to Modern Greek English French and Arabic QMods and gives evidence to the universality of Quantificational Modification Chapter 1 discusses Quantification as semantic interpretation along with the main questions this research intends to answer while Chapter 2 reviews recent literature on Quantification within and across languages Chapter 3 focuses on Modern Greek expressions of Quantification and extends chapter 2 into a further discussion about the various syntactic manifestations Chapters 4 and 5 are extensions to chapters 2 and 3 as they discuss the semantics of specific QMods as total and partial quantifiers which operate on homomorphic sets of degrees and amounts Chapter 6 discusses the broader issues in the thesis from a theoretical and typological perspective that establishes Quantificational Modification as a universal and purely semantic subclass of Quantification Our findings are summarized in chapter 7 followed by suggestions for expanding our investigation into other related areas

The Teacher Exodus Ernest J. Zarra III,2018-06-02 The Teacher Exodus Reversing the Trend and Keeping Teachers in the Classrooms is an authentic examination of many of the reasons public school teachers are leaving the profession It also takes a hard look at why students are no longer selecting teaching as their career choice American culture is at a tipping point and many politicians and bureaucrats are tinkering with culture through racial policies and social engineering in efforts to empower students rather than stem the tide of teacher attrition Teachers are frustrated by requirements to implement social and intervention programs that fall outside their training which limits the moral purpose they envisioned when they first entered the profession Across the nation teachers are feeling marginalized and impacted by policies handed down from above which actually elevate students over teachers Teachers sense their profession has been reduced to classroom monitoring and facilitating which they did not sign up for They are restricted in their classroom management and must employ a series of intervention strategies just to defend their actions of discipline If America is to reverse the trend of teachers leaving classrooms there must be genuinely supportive efforts to reinvigorate adults to pursue teaching and bureaucrats must release teachers to work their skills There must be a reversal of the mindset that teachers are leaving education because education has left them One way to do this is for bureaucrats and education administrators to once again empower teachers to be the local arbiters of education for their classrooms **Some Aspects of Hadewijch's Poetic form**

Poor and Working Class is a collection of mobility narratives of critical scholars in education from poor and working class backgrounds While Americans have long held deep seated cultural beliefs in the capacity of schooling to level unequal playing fields there has been little research on the psycho social processes of social and educational mobility in the United States Rising Up employs narrative research methodologies to interrogate the experiences of class border crossing via success in school This volume addresses two discourses within education First the experiences of those who have crossed class boundaries contribute to a deeper understanding of how social class functions in the United States The narratives compiled in this volume explore class within the lives of young people on the margins as identities ambition and achievement are constructed and negotiated in school More specifically the volume suggests new directions for policy and practice to counteract classism in schools and in the broader culture As they write of the constraints that they circumvented to succeed against the odds these authors complicate notions of opportunity as the inevitable reward for high achievement As they write of agency and tenacity they will illuminate cultural strengths that likely were invisible to teachers and peers As critical

scholars of education the contributors to this volume speak specifically to ways in which teacher education can and should address issues of class **Catalog of Copyright Entries** Library of Congress.
