*Love's Promises* Martha M. Ertman, 2016-05-24 Blends memoir and legal cases to show how contracts can create family relationships. Most people think of love and contracts as strange bedfellows or even opposites. In *Love's Promises* however, law professor Martha Ertman shows that far from cold and calculating, contracts shape and sustain families. Blending memoir and law, Ertman delves into the legal cases, anecdotes, and history of family law to show that love comes in different packages, each shaped by different contracts and mini-contracts she calls deals. Family law should and often does recognize that variety because legal rules like relationships aren't one-size-fits-all. The most common form of family which Ertman calls Plan A come into being through different kinds of agreements than the more uncommon families that she dubs Plan B. Recognizing the contractual core of all families shows that Plan B is neither unnatural nor unworthy of legal recognition, just different. After telling her own moving and often irreverent story about becoming part of a Plan B family of two moms and a dad raising a child, Ertman shows that all kinds of people, straight and gay, married and single, related by adoption or by genetics, use contracts to shape their relationships. As couples navigate marriage, reproductive technologies, adoption, and cohabitation, they encounter contracts. Sometimes hidden and other times openly acknowledged, these contracts ensure that the people they think of as family are legally recognized as family in the eyes of the law. Family exchanges can be substantial like vows of fidelity or small like I cook and you clean. But regardless of scope, the agreements shape the

emotional social and financial terrain of family relationships Seeing the instrumental role contracts will help readers better understand how contracts and deals work in their own families as well as those around them Both insightful and paradigm shifting Love s Promises lets readers in on the power of contracts and deals to support love in its many forms and to honor the different ways that our nearest and dearest contribute to our daily lives **Lover Gift Book to the Lover** Seong Ju Choi,2019-10-17 Bride and bridegroom gift love engineering book for life success marriage Middle husband and wife check of marriage Both Old husband and wife reach at righteous soul living in destination place **Bailey & Love's Essential Operations in Hepatobiliary and Pancreatic Surgery** Ashley Dennison,Guy Maddern,Jia Fan,2024-11-15 Bailey Love s Essential Operations in Hepatobiliary and Pancreatic Surgery provides step by step explanations of both the core operations and more complex procedures Written by acknowledged experts and trainers from around the world and with abundant diagrams and figures to explain the operative steps this new resource will enable hepatobiliary and pancreatic surgeons to increase their skills in this demanding and technically challenging field Over 70 easy to read chapters cover the entire range of HPB surgery Essential management principles and technical points are included preferred operative techniques are described and alternative options discussed The practice of HPB surgery requires familiarity and expertise with a wide range of technologies and these are described and integrated within the text The text is enhanced by clear colour images ensuring that best practice in HPB surgery is made clear and accessible for a global audience As surgical trainees around the world continue to be faced with the reduction in training time surgical skills need to be increasingly codified so that trainees can reach a high level of proficiency as quickly as possible This manual ensures that surgeons will be able to access the core information that they need quickly and with ease and in the process increase their clinical judgement their experience and their technical skills **Bailey & Love's Short Practice of Surgery** Norman Williams,P Ronan O'Connell,2008-06-27 Bailey Love s Short Practice of Surgery remains one of the world s pre eminent medical textbooks beloved by generations of surgeons with lifetime sales in excess of one million copies Now in its 25th edition the content has been thoroughly revised and updated while retaining its traditional strengths Under the stewardship of the eminent e *Lead Community Fundraising* Linda Mareen Neugebauer,Irene Zanko,2021-06-30 The world is changing and so are our donors In the future it will become even more important for organizations to find leads supporters and new donors online because digitization is a bottleneck in fundraising This book highlights universal fundraising opportunities It explains the fundamentals of lead community fundraising and why especially in digital times it is important to start with the people the community The main topic of the book is the current state of digital fundraising which is becoming more and more important More than 45 examples from international fundraising practices provide a valuable foundation for all practitioners in this field **Psychonephrology 1** Norman B. **Ruskin Bond A Study of Human Emotions** Dr. Sangeeta Paul Budhiraja, Literature challenges one not only to think about ethical conundrums but also makes one sensitive and compassionate When it blends with euphoria and nostalgia the integral parts of human mind it toughens and becomes sturdy Man loves to live in his past memories to be happy The experiences form a part of human personality and shape their behaviour pattern Nostalgia stores for us our memories which we relish lifelong Even the lamentable days of past become pleasant Though we might have ignored some not too pleasant incidents in our bygone days yet somewhat bitter experiences appear to be impressive and attractive It is aptly said that the panorama of mountains appear beautiful and splendid from a distance The bitterness of nearness is intolerable The more we grow in years the more our past recedes Distance from the life lived long ago makes it sweet and desirable Strain and stress of the present becomes frivolous when we slip and relapse into euphoric nostalgia The instincts of euphoria and nostalgia have been vividly handled by the legendry writers of all times They have given various dimensions and definitions to the readers to redeem these human aspects yet many more stones are still unturned These two instincts in the oeuvre of the legendry writer Ruskin Bond are the anchor points that suggest the scope of study I have chosen to put forward the very idea about how a man s body mind and soul blend with traces of his past memories and support the holistic growth
