Young,2017-10-14 Excerpt from The Minor Tactics of Chess A Treatise on the Development of the Forces in Obedience to Strategic Principle N this contribution to the literature of chess the authors have attempted to present the elements of a new theory of playr They have confined themselves in the main to the exposition of that part of the System which governs the opening of a game by suggestion however if not by definite statement they hope to have laid before the reader at least the spirit of the complete theory Leibnitz pronounced chess an exact sci ence Petroff placed it on a level with the integral calculus and the great anderssen declared that its intricacies were more abstruse than the most profound mathematics the authors of the new theory agreeing with this trio of distinguished scholars are tempted to go still

further and to assert even at the peril of being considered somewhat visionary not only that Chess is a real About the
