Teaching English to Japanese Sumako Kimizuka, 1968

The Role of English Teaching in Modern Japan Mieko Yamada, 2014-09-25

The Role of English Teaching in Modern Japan examines the complex nature of Japan's promotion of English as a Foreign Language (EFL). In globalized societies where people with different native languages communicate through English, multicultural and multilingual interactions are widely created. This book takes the opportunity to look at Japan and examines how these multiple realities have affected its English language teaching within the domestic context. The myth of Japan's racial and ethnic homogeneity may hinder many Japanese in recognizing realities of its own minority groups such as Ainu, Zainichi Koreans and Brazilian Japanese who are in the same EFL classrooms. Acknowledging a variety of English uses and users in Japan, this book emphasizes the influence of Japan's recent domestic diversity on its EFL curriculum and urges that such changes should be addressed. It suggests new directions for incorporating multicultural perspectives in order to develop English language education in Japan and other Asian contexts where English is often taught as a foreign language. Chapters include Social, cultural and political background of Japan's EFL education; Race, ethnicity and multiculturalism; Representations of diversity in Japanese EFL Textbooks; Perceptions of English learning and diversity in Japan; The role of EFL education in multicultural Japan.

The English Guide For Japanese Students Thomas Daniels, 2024-07-29

Are you a Japanese English student? Do you make the same mistakes in English when trying to communicate? If you are, please keep reading. Because this book will show you how to learn English faster so you can start communicating better in weeks even if you have been struggling to learn the language for years. Let me tell you something. That's really the biggest problem that you are facing. Your lack of communication skills in English. By the way, this is why I wrote the book. I'm tired of seeing Japanese learn the language for elementary school until college and still not be able to make a simple complete sentence. Okay, now here are some things that this book will teach YOU. How to learn faster by reading faster. How to start communicating better in English. Since communication is the key to interacting with native English speakers, this book will give you tips and hacks on how to do it better and this will then have you speaking more fluently in months. But that's not all. This book will show you how to teach yourself English. Then you can save yourself a lot of money in the future. Because you won't have to waste it on the bad English schools here in Japan. Yes, teaching English is big business here. And it's also a big scam on the people. Sorry, I just want to be honest with you guys. These schools charge expensive lesson fees, then they use unqualified teachers. Honestly, it's really sad, and that is why I wrote the book. My main goal is to help Japanese English students learn English the right way so they can communicate with native English speakers better. You should also know that I have taught for more than 12 years here. So you are getting all that experience from teaching all levels and ages and MORE when you read the book. Okay, hope

this gets your attention Imagine this scene You go to a social setting and you are speaking in English fluently and they ask you Why are your English speaking abilities so good Anyway I look forward to talking to you more on the inside PS Whatever you do don't waste your money on bad schools in Japan
