Celebrity Advocacy and International Development Dan Brockington, 2014-04-03 Celebrity advocacy is a curious phenomenon It occupies a significant proportion of the public domain but does so without engaging particularly well with much of the public Yet this may not matter very much Many people at the core of advocacy and in political and business elites simply do not notice any lack of engagement In these circles celebrity advocacy can be remarkably effective Celebrity Advocacy and International Development examines the work of celebrity advocacy and lobbying in international development Its purpose is to understand the alliances resulting their history consequences wider contexts and implications It argues that celebrity advocacy signals a new aspect of elite rule For populist celebrity advocacy can mark ironically a disengagement between the public and politics and particularly the public and civil society Recognising this poses new challenges but also presents new opportunities for the development movement This book gives students and researchers in development studies and media studies a wealth of original empirical data including interviews across the NGO sector media and celebrity industries newspaper analysis large surveys of public opinion and focus group research

Public Relations , 2007 [Silences in NGO Discourse](#) Issa G. Shivji, 2007-06-30 One of the most articulate critics of the destructive effects of neoliberal policies in Africa and in particular of the ways in which they have eroded the gains of independence Issa Shivji shows in two extensive essays in this book that the role of NGOs in Africa cannot be understood without placing them in their political and historical context As structural adjustment programs were imposed across Africa in the 1980s and 1990s the international financial

institutions and development agencies began giving money to NGOs for programs to minimize the more glaring inequalities perpetuated by their policies As a result NGOs have flourished and played an unwitting role in consolidating the neoliberal hegemony in Africa Shivji argues that if social policy is to be determined by citizens rather than the donors African NGOs must become catalysts for change rather than the catechists of aid that they are today *World Poverty for Dummies* Lindsay Rae,Ashley Clements,Sarah Marland,Adam Valvasori,2012-03-08 Created especially for the Australian customer Uncover the global building blocks of poverty Ending world poverty is possible and you can help With World Poverty For Dummies you find out about the building blocks of poverty as well as its varying causes and manifestations in different regions around the world Most importantly you discover inspiring stories of change and actions you can take from changing your consumer and investment choices or lobbying your government to becoming an aid worker Discover The real situation of the global poor Life in the world s megacities Solutions that address poverty Ways to get your friends onboard How to become an aid worker *Poverty* Clive Gifford,2009 Poverty is a scourge which affects millions worldwide This title looks at several aspects of poverty such as what causes poverty what effects does long term poverty have on people and nations do rich countries hold poor ones back and how can we help the world s poor **Education and International Development, 2000-2020** Ian Wash,2024-08-22 Education and International Development 2000 2020 A Constructivist Critique of the One size fits all Liberal Model advances the claim that there exists a liberal theory of international education Ian Wash argues that the assumed harmony of this model is the main source of dispute in the field of education and international development The liberal thinking behind the aspirations for education the political levers necessary for its effective governance and the ideas behind the policies all have contributed towards growing tensions that prevented international education from achieving optimal functionality Through a qualitative discourse analysis of the key policy documents produced between 2000 and 2020 Wash reveals how the liberal model was discursively constructed as a grand narrative of three acts that chronicles the vision process and outcomes of international education Such a rendering brings an understanding of the hidden conflicts essential for finding a resolution to this policy puzzle thereby improving the prosperity and wellbeing of those in poorer countries *My Revision Notes: AQA GCSE Citizenship Studies* Mike Mitchell,2012-05-18 Unlock your full potential with this revision guide which focuses on the key content and skills you need to know for AQA GCSE Citizenship Studies My Revision Notes AQA GCSE Citizenship Studies has been designed to thoroughly prepare you for the AQA GCSE Citizenship Studies short and full course examinations It covers each theme in the specification Community Action and Active Citizenship Being a Citizenship in the UK Democracy and Identity Fairness and Justice Global Issues and Making a Difference Helps you to revise the essential information you need to know for the exam Improves your exam skills with practice questions and accompanying model answers online Tests your knowledge and understanding with activities and online quick quizzes *Fresh Perspectives: MGI Custom Publication: Business Management* ,2009 *The Frontman* Harry Browne,2013-06-04

Celebrity philanthropy comes in many guises but no single figure better encapsulates its delusions pretensions and wrongheadedness than U2's iconic frontman Bono a fact neither sunglasses nor leather pants can hide More than a mere philanthropist indeed he lags behind many of his peers when it comes to parting with his own money Bono is better described as an advocate one who has become an unwitting symbol of a complacent wealthy Western elite The Frontman reveals how Bono moved his investments to Amsterdam to evade Irish taxes his paternalistic and often bullying advocacy of neoliberal solutions in Africa his multinational business interests and his hobnobbing with Paul Wolfowitz and shock doctrine economist Jeffrey Sachs Carefully dissecting the rhetoric and actions of Bono the political operator The Frontman shows him to be an ambassador for imperial exploitation a man who has turned his attention to a world of savage injustice inequality and exploitation and helped make it worse
