

# Make your home a safe zone!

All parents want their children to grow up healthy and strong in the place where they deserve to feel safest: at home.

**Every year, more than 2,200 children die in the U.S. from injuries that happen at home.**

The good news is that there are simple and easy steps that families can take to protect their children.

## Bedroom

Falls are the No. 1 cause of non-fatal injuries for children.

**Safety tip:** Install window guards to prevent children from falling out of windows.

## Bathroom

Slips in the tub and on wet floors are common bathroom injuries.

**Safety tip:** Use non-skid decals or a rubber mat inside the tub. Dry the floor and your child's feet after a bath and discourage running in the bathroom.

## Kitchen

Scald burns, caused by hot liquids, are the most common types of burn injuries among young children.

**Safety tip:** Always put pots on the back burner, out of reach of children, and turn handles away from the edge of the stove.

## Living Room

Thirty-four percent of child fatalities from 2000-2013 due to TV tip-overs involved someone climbing on the furniture or TV.

**Safety tip:** Secure TVs to the wall using mounts, brackets, braces, anchors or wall straps to prevent tip-overs.

## Yard

Each year, children suffer from lawn mower-related injuries.

**Safety tip:** Never let children ride as passengers on riding lawn mowers or garden tractors.

## Pool

Pools are the most common place for a drowning to occur among children ages 1 to 4 years.

**Safety tip:** Whenever infants or toddlers are in or around water, an adult should be within arm's reach to provide active supervision.
