Makers And Milestones Of The Middle Ages:

Men and Milestones of the Middle Ages Peter G. Stillman, 1970 *The Making of the Middle Ages* R. W. Southern, 1961-09-10 A study of the chief personalities and forces that brought Western Europe to pre eminence as a centre for political experimentation economic expansion and intellectual discovery *The Making of the Middle Ages* Richard William Southern, 1959 *The Making of Politics* John Watts, 2009-05-07 This major survey of political life in late medieval Europe provides a framework for understanding the developments that shaped this turbulent period Rather than emphasising crisis decline disorder or the birth of the modern state this account centres on the mixed results of political and governmental growth across the continent The age of the Hundred Years War schism and revolt was also a time of rapid growth in jurisdiction taxation and representation of spreading literacy and evolving political technique This mixture of state formation and political convulsion lay at the heart of the making of polities Offering a full introduction to political events and processes from the fourteenth century to the sixteenth this book combines a broad comparative account with discussion of individual regions and states including eastern and northern Europe alongside the more familiar west and south *Making Money in the Early Middle Ages* Rory Naismith, 2023-07-11 An examination of coined money and its significance to rulers aristocrats and peasants in early medieval Europe Between the end of the Roman Empire in the fifth century and the economic transformations of the twelfth coined money in western Europe was scarce and high in value difficult for the majority of the population to make use of And yet as Rory Naismith shows in this illuminating study coined money was made and used throughout early medieval Europe It was he argues a powerful tool for articulating people s place in economic and social structures and an important gauge for levels of economic complexity Working from the premise that using coined money carried special significance when there was less of it around Naismith uses detailed case studies from the Mediterranean and northern Europe to propose a new reading of early medieval money as a point of contact between economic social and institutional history Naismith examines structural issues including the mining and circulation of metal and the use of bullion and other commodities as money and then offers a chronological account of monetary development discussing the post Roman period of gold coinage the rise of the silver penny in the seventh century and the reconfiguration of elite power in relation to coinage in the tenth and eleventh centuries In the process he counters the conventional view of early medieval currency as the domain only of elite gift givers and intrepid long distance traders Even when there were few coins in circulation Naismith argues the ways they were used to give gifts to pay rents to spend at markets have much to tell us ***The Making of Medieval History*** G. A. Loud, Martial Staub, 2017 Essays on the discipline of medieval history and its practitioners from the late eighteenth century onwards A hugely interesting set of essays reflecting on a variety of ways in which medieval history has developed to the present time Scholarship of the highest standard deeply thought provoking and deeply engaged with the inheritances and future tasks of medieval academic history The collection will be essential reading

for all medievalists John Arnold Professor of Medieval History University of Cambridge Medieval history is present in many forms in our world Monuments from the Middle Ages or inspired by them are a familiar feature of landscapes across Europe and beyond the period between the end of the Roman Empire in Western Europe and the Reformation and European expansion is an essential part of our imagination be it conveyed through literature the arts science fiction or even video games it is also commonly invoked in political debates Specialists in the field have played a major role in shaping modern perceptions of the era But little is known about the factors that have influenced them and their work The essays in this volume provide original insights into the fabric and dissemination of medieval history as a scholarly discipline from the late eighteenth century onwards The case studies range from the creation of specific images of the Middle Ages to the ways in which medievalists have dealt with European identity contributed to making and deconstructing myths and more specifically addressed questions relating to land and frontiers as well as to religion GRAHAM A LOUD is Professor of Medieval History at the University of Leeds MARTIAL STAUB is Professor of Medieval History at the University of Sheffield Contributors Christine Caldwell Ames Peter Biller Michael Borgolte Patrick Geary Richard Hitchcock Bernhard Jussen Joep Leerssen G A Loud Christian L bke Jinty Nelson Bastian Schl ter Martial Staub Ian Wood

Boomers 3.0 Lawrence R. Samuel, 2017-07-14 Capitalizing on what is arguably the most important social phenomenon of our time and place the aging of America this book shows organizations how to market specifically to baby boomers in their third act of life The graying of America is undeniable with an estimated 10 000 boomers turning 65 every day But to dismiss the baby boomer generation as a group no longer worth marketing to would be foolish According to the Census Bureau in 2029 the year when the last boomer will have turned 65 there will still be more than 61 million boomers roughly 17 percent of the projected population of the United States Boomers will still be the wealthiest generation in the United States until at least 2030 according to the Deloitte Center for Financial Services with their share of net household wealth to peak at 50.2 percent by 2020 *Boomers 3.0 Marketing to Baby Boomers in Their Third Act of Life* describes how to market to baby boomers from a cultural perspective specifically addressing the demographic group of baby boomers in their later adulthood a period that will continue for the next two to three decades The author uses the term 3.0 to indicate the baby boomers third phase of life and explains how this third act of life will differ from earlier periods accordingly organizations should take a different approach to marketing to them than in the past This book offers a way to contextualize business objectives within a culturally based forward thinking framework that fully leverages the opportunities presented by what is perhaps the biggest and most affluent customer base in history Readers will be able to use the strategies described to map territories to stake and mine in targeting boomers create meaningful relationships with individuals in this group and communicate effectively with boomers to offer them products and services

The Making of Crusading Heroes and Villains Mike Horswell,Kristin Skottki,2021-02-27 Engaging the Crusades is a series of volumes which offer windows into a newly emerging field of historical study the memory and legacy of the crusades Together these volumes examine the reasons behind the enduring resonance of the crusades and present the memory of crusading in the modern period as a productive exciting and much needed area of investigation This new volume explores the ways in which significant crusading figures have been employed as heroes and villains and by whom Each chapter analyses a case study relating to a key historical figure including the First Crusader Tancred villains Reynald of Ch tillon and Conrad of Montferrat the oft overlooked Queen Melisende of Jerusalem the entangled memories of Richard the Lionheart and Saladin and the appropriation of St Louis IX by the British Through fresh approaches such as a new translation of the inscriptions on the wreath laid on Saladin s tomb by Kaiser Wilhelm II this book represents a significant cutting edge intervention in thinking about memory crusader medievalism and the processes of making heroes and villains The Making of Crusading Heroes and Villains is the perfect tool for scholars and students of the crusades and for historians concerned with the development of reputations and memory

Playing the Middle Ages Robert Houghton,2023-08-24 The Middle Ages have provided rich

source material for physical and digital games from Dungeons and Dragons to Assassin's Creed This volume addresses the many ways in which different formats and genre of games represent the period It considers the restrictions placed on these representations by the mechanical and gameplay requirements of the medium and by audience expectations of these products and the period highlighting innovative attempts to overcome these limitations through game design and play Playing the Middle Ages considers a number of important and timely issues within the field including one the connection between medieval games and political nationalistic rhetoric two trends in the presentation of religion warfare and other aspects of medieval society and their connection to modern culture three the problematic representations of race and four the place of gender and sexuality within these games and the broader gaming community The book draws on the experience of a wide ranging and international group of academics across disciplines and from games designers Through this combination of expertise it provides a unique perspective on the representation of the Middle Ages in modern games and drives key discussions in the fields of history and game design

Montmartre and the Making of Mass Culture Gabriel P. Weisberg, 2001 Located on the fringes of Paris Montmartre attracted artists such as Toulouse Lautrec Picasso Steinlen and Jules Chéret By the beginning of the twentieth century the artists in the quarter began to create works blurring the boundaries between fine art and popular illustration the artist and the audience as well as class and gender distinctions The creative expression that ensued was an exuberant mix of high and low a breeding ground for what is today termed popular culture The carefully interlocked essays in Montmartre and the Making of Mass Culture demonstrate how and why this quarter was at the forefront of such innovation The contributors bring an unprecedented range of approaches to the topic from political and religious history to art historical investigations and literary analysis of texts This project is the first of its kind to examine fully Montmartre's many contributions to the creation of a mass culture that reigned supreme in the twentieth century

Arabic Type-Making in the Machine Age Titus Nemeth, 2017-07-20 Arabic is the third most widely used script in the world and gave rise to one of the richest manuscript cultures of mankind Its representation in type has engaged printers engineers businesses and designers since the 16th century and today most digital devices render Arabic type Yet the evolution of the printed form of Arabic and its development from metal to pixels has not been charted before Arabic Type Making in the Machine Age provides the first comprehensive account of this history using previously undocumented archival sources In this richly illustrated volume Titus Nemeth narrates the evolution of Arabic type under the influence of changing technologies from the perspective of a practitioner combining historical research with applied design considerations
