Through his far ranging travels Blumenthal illuminates the present by uncovering the ghosts of the past the histories of Palestinian neighborhoods and villages now gone and forgotten how that history has set the stage for the current crisis of Israeli society and how the Holocaust has been turned into justification for occupation A brave and unflinching account of the real facts on the ground Goliath is an unprecedented and compelling work of journalism Popular Science ,2004-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
