Approaches in Education Vol 9 No SI 2020 Soka Gakkai's Human Revolution Levi McLaughlin, 2018-12-31 Soka Gakkai is Japan's largest and most influential new religious organization. It claims more than 8 million Japanese households and close to 2 million members in 192 countries and territories. The religion is best known for its affiliated political party Komeito, the Clean Government Party, which comprises part of the ruling coalition in Japan's National Diet and it exerts considerable influence in education, media, finance, and other key areas. Levi McLaughlin's comprehensive account of Soka Gakkai draws on nearly two decades of archival research and non-member fieldwork to account for its institutional development beyond Buddhism and suggest how we should understand the activities and dispositions of its adherents. McLaughlin explores the group's Nichiren Buddhist origins and turns to insights from religion, political science, anthropology, and cultural studies to characterize Soka Gakkai as mimetic of the nation-state. Ethnographic vignettes combine with historical evidence to demonstrate ways Soka Gakkai's twin Buddhist and modern humanist legacies inform the organization's mimesis of the modern Japan in which the group took shape. To make this argument, McLaughlin analyzes Gakkai sources heretofore untreated in English language scholarship, provides a close reading of the serial novel *The Human Revolution* which serves the Gakkai as both history and de facto scripture, identifies ways episodes from members' lives form new chapters in its growing canon, and contributes to discussions of religion and gender as he chronicles the lives of members who simultaneously reaffirm generational transmission of Gakkai devotion as they pose challenges for the organization's future. Readers looking for analyses of the nation-state and strategies for understanding New Religions and modern Buddhism will find Soka Gakkai's *Human Revolution* to be an especially thought-provoking study that offers widely applicable theoretical models.

Chanting in the Hillsides Jeaneane D. Fowler, Merv Fowler, 2009 In 1983 a tiny group of people in Cardiff and a married couple in Aberporth, West Wales, were the only Welsh members of Soka Gakkai International, a Japanese movement based on the beliefs and teachings of the 13th-century Buddhist Nichiren Daishonin. Today there are hundreds of members in Wales and the Borders. This book examines the history of the movement in these two areas and draws on original research gleaned from the members themselves. The research elicits facets of their faith practices and study as well as their testimonies to the success of such beliefs and practices in their daily lives. The book combines the twin goals of academic analysis of the Buddhism of Nichiren Daishonin in general with the warmth of its expression in the lives of its adherents in Wales and the Borders.

Japanese Education Roberta E. Pike, 2007 Presents a large representative sample of the literature on Japanese education with an emphasis on its psychosocial aspects. Many discussions compare the Japanese educational system with that of the United States and other countries. The citations cover most of the 1990s, including a few earlier and later references. Includes extensive discussions about Japanese educational reform movements and their consequences. Also cites published and unpublished dissertations and theses. Updates the last comprehensive English language bibliography on Japanese education published by Ulrich Teichler in 1974. The citations were taken from many online databases. Suitable for

Beyond Religion and the Secular Wayne Hudson, 2022-11-17

Deploying a distinctive disaggregative approach to the study of religion this volume shows that spiritual movements with extensive counterfactual beliefs have been much more creative than one might expect Specifically Wayne Hudson explores the creativity of six spiritual movements the Bahá'í a Persian movement Soka Gakkai a Japanese movement Ananda Marga and the Brahma Kumaris two reformed Hindu movements and two controversial American churches The Church Universal and Triumphant and the Church of Jesus Christ of Latter day Saints Most of these movements have counterintuitive features that have led Western scholars making Enlightenment assumptions to dismiss them as irrational and or inconsequential However this book reveals that these movements have responded to modernity in ways that are creative and practical resulting in a wide range of social educational and cultural initiatives Building on research surrounding the ways in which spiritual movements engage in cultural productions this book takes the international research in a new direction by exploring the utopian intentionality such cultural productions reveal

[Value-Creating Global Citizenship Education for Sustainable Development](#) Namrata Sharma, 2020-10-13 This volume brings together marginalized perspectives and communities into the mainstream discourse on education for sustainable development and global citizenship Building on her earlier work Sharma uses non western perspectives to challenge dominant agendas and the underlying Western worldview in the UNESCO led discourse on global citizenship education Chapters develop the theoretical framework around the three domains of learning within the global citizenship education conceptual dimensions of UNESCO the cognitive socio emotional and behavioral and offer practical insights for educators Value creating global citizenship education is offered as a pedagogical approach to education for sustainable development and global citizenship in addition to and complementing other approaches mentioned within the recent UNESCO guidelines
