peoples for a public audience as well as for research and teaching Ethnographic Film 1976 was one of the first books to provide a comprehensive introduction to this field of visual anthropology and it quickly became the standard reference In this new edition Karl G Heider thoroughly updates Ethnographic Film to reflect developments in the field over the three decades since its publication focusing on the work of four seminal filmmakers Jean Rouch John Marshall Robert Gardner and Timothy Asch He begins with an introduction to ethnographic film and a history of the medium He then considers many attributes of ethnographic film including the crucial need to present whole acts whole bodies whole interactions and whole people to preserve the integrity of the cultural context Heider also discusses numerous aspects of making ethnographic films from ethics and finances to technical considerations such as film versus video and preserving the filmed record He concludes with a look at using ethnographic film in teaching **Decoding Modern Consumer Societies** H. Urban Spaces in Japan Christoph Brumann, Evelyn Schulz, 2012-06-14 Urban Spaces in Japan explores the workings of power money and the public interest in the planning and design of Japanese space Through a set of vivid case studies of well known Japanese cities including Tokyo Kobe and Kyoto this book examines the potential of civil society in contemporary planning debates Further it addresses the implications of Japan's biggest social problem the demographic decline for Japanese cities and demonstrates the serious challenges and exciting possibilities that result from the impending end of Japan's urban growth Presenting a synthetic approach that reflects both the physical aspects and the social significance of urban spaces this book scrutinizes the precise patterns of urban expansion and shrinkage In doing so it also summarizes current theories of public space urban space and the body in space which are relevant to both Japan and the wider international debate With detailed case studies and more general reflections from a broad range of disciplines this collection of essays demonstrates the value of cross disciplinary cooperation As such it is of interest to students and scholars of geography and urban planning as well as history anthropology and cultural studies Toxic Archipelago Brett L. Walker, 2011-07-01 Every person on the planet is entangled in a web of ecological relationships that link farms and factories with human consumers Our lives depend on these relationships and are imperiled by them as well Nowhere is this truer than on the Japanese archipelago During the nineteenth century Japan saw the rise of Homo sapiens industrialis a new breed of human transformed by an engineered industrialized and poisonous environment Toxins moved freely from mines factory sites and rice paddies into human bodies Toxic Archipelago explores how toxic pollution works its way into porous human bodies and brings unimaginable pain to some of them Brett Walker examines startling case studies of industrial toxins that know no boundaries deaths from insecticide contaminations poisonings from copper zinc and lead mining congenital deformities from

methylmercury factory effluents and lung diseases from sulfur dioxide and asbestos This powerful probing book demonstrates how the Japanese archipelago has become industrialized over the last two hundred years and how people and Japan's Early Experience of Contract Management in the Treaty Ports the environment have suffered as a consequence Yuki Allyson Honjo, 2013-12-19 This is the first in depth study of the early trial and error experiences of contracting between Japanese and western merchants trading in the Japanese Treaty Ports in the eighteen year period immediately following the opening of the ports in 1859 Fundamental to the equation were the inevitable east west cultural and legal ambiguities that impacted on the traders The learning curve for both westerners and Japanese regarding the nature and application of western contracting law was predictably difficult tortuous and open to constant misunderstanding Nevertheless it was within such a framework that the principal benchmarks for trade with Japan were set down and which in essence have lasted to the present day Fantasies of Ito Michio Tara Rodman, 2024-10-01 Born in Japan and trained in Germany dancer and choreographer Ito Michio 1893 1961 achieved prominence in London before moving to the U S in 1916 and building a career as an internationally acclaimed artist During World War II Ito was interned for two years and then repatriated to Japan where he contributed to imperial war efforts by creating propaganda performances and performing revues for the occupying Allied Forces in Tokyo Throughout Ito continually invented stories of voyages made artists befriended performances seen and political activities carried out stories later dismissed as false Fantasies of Ito Michio argues that these invented stories unrealized projects and questionable political affiliations are as fundamental to Ito's career as his real activities helping us understand how he sustained himself across experiences of racialization imperialism war and internment Tara Rodman reveals a narrative of Ito's life that foregrounds the fabricated and overlooked to highlight his involvement with Japanese artists such as Yamada Kosaku and Ishii Baku and global modernist movements Rodman offers fantasy as a rubric for understanding how individuals such as Ito sustain themselves in periods of violent disruption and as a scholarly methodology History of Miso and Its Near Relatives William Shurtleff; Akiko Aoyagi, 2021-05-05 The world s for engaging the past most comprehensive well documented and well illustrated book on this subject With extensive subject and geographical index 363 photographs and illustrations many in color Free of charge in digital PDF format
