Making A New People Education In Revolutionary Cuba:

Making a New People Theodore Harney MacDonald,1985 *The People's Professors of Cuba* Kate Moody,2018-12-11
The People's Professors How Cuba Achieved Education for All describes how Cuba managed in spite of scarce resources to successfully educate its entire population after the revolution in 1959 It details how illiterate peasants learned to read and write how the nation's vision of education was developed how the national school system was doubled in size thousands of teachers were educated and now how Cuba is entering the realm of digital media and the internet The people of Cuba can read and write better than the citizens of most countries including the United States Moreover Cubans excel on international measures of math science the arts and healthcare This book considers Cuba's schools as well as its integrated systems such as healthcare and community mental health and makes a case for the principles that education is a human right and that teaching is the responsibility of everyone **Patriots and Traitors in Revolutionary Cuba, 1961-1981** Lillian Guerra,2023-01-17 Authorities in postrevolutionary Cuba worked to establish a binary society in which citizens were either patriots or traitors This all or nothing approach reflected in the familiar slogan patria o muerte fatherland or death has recently been challenged in protests that have adopted the theme song patria y vida fatherland and life a collaboration by exiles that predictably has been banned in Cuba itself Lillian Guerra excavates the rise of a Soviet advised Communist culture controlled by state institutions and the creation of a multidimensional system of state security whose functions embedded themselves into daily activities and individual consciousness and reinforced these binaries But despite public performance of patriotism the life experience of many Cubans was somewhere in between Guerra explores these in between spaces and looks at Cuban citizens complicity with authoritarianism leaders exploitation of an earnest anti imperialist nationalism and the duality of an existence that contains elements of both support and betrayal of a nation and of an ideology **The Origins and Foundations of Music Education** Gordon Cox,Robin Stevens,2011-11-03 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com This landmark collection explores the origins and foundations of music education across five continents and considers the inclusion of music as part of the compulsory school curriculum in the context of the historical and political landscape the aims objectives and content of the music curriculum teaching methods the provision and training of teachers of music the experiences of pupils Contributors have been carefully selected to represent countries which have incorporated music into compulsory schooling for a variety of differing reasons giving a diverse collection which will guide future actions and policy **Education for Slavery Or Liberation?** Jo Williams,1999 [Operation Pedro Pan and the Exodus of Cuba's Children](#) Deborah Shnookal,2022-06-28 This in depth examination of one of the most controversial episodes in U S Cuba relations sheds new light on the program that airlifted 14 000 unaccompanied children to the United States in the wake of the Cuban Revolution Operation Pedro Pan is often remembered within the U S as an urgent rescue mission but Deborah Shnookal points out that a

multitude of complex factors drove the exodus including Cold War propaganda and the Catholic Church's opposition to the island's new government Shnookal illustrates how and why Cold War scare tactics were so effective in setting the airlift in motion focusing on their context the rapid and profound social changes unleashed by the 1959 Revolution including the mobilization of 100 000 Cuban teenagers in the 1961 national literacy campaign Other reforms made by the revolutionary government affected women education religious schools and relations within the family and between the races Shnookal exposes how in its effort to undermine support for the revolution the U S government manipulated the aspirations and insecurities of more affluent Cubans She traces the parallel stories of the young Pedro Pans separated from their families in some cases indefinitely in what is often regarded in Cuba as a mass kidnapping and the children who stayed and joined the literacy brigades These divergent journeys reveal many underlying issues in the historically fraught relationship between the U S and Cuba and much about the profound social revolution that took place on the island after 1959 Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities
