The Social in Question Patrick Joyce, 2002-01 With postmodernism has come the questioning of the very idea of the social Thinkers from across the social sciences and humanities now agree that

this one foundational concept can no longer be taken for granted as an objective or real characteristic of the world However their uncertainty has taken on many guises and the social in Question represents an attempt to pull these diverse forms of questioning together Drawn from sociology cultural studies history and theology an international and eminent cast of contributors look at how the idea of the social developed from its mediaeval foundations to its consolidation in the early twentieth century The book then charts how the concept has been brought into the question by critiques from science studies cultural studies and postcolonial studies before going on to look at how new frameworks are being proposed for the exploration of issues formerly seen as the social This book makes a fascinating contribution to the rethinking of contemporary academic activity

Irish Culture and Colonial Modernity 1800-2000 David Lloyd, 2011-09-22 From the Famine to political hunger strikes from telling tales in the pub to Beckett's tortured utterances the performance of Irish identity has always been deeply connected to the oral Exploring how colonial modernity transformed the spaces that sustained Ireland's oral culture this book explains why Irish culture has been both so creative and so resistant to modernization David Lloyd brings together manifestations of oral culture in the nineteenth and twentieth centuries showing how the survival of orality was central both to resistance against colonial rule and to Ireland's modern definition as a postcolonial culture Specific to Ireland as these histories are they resonate with postcolonial cultures globally This study is an important and provocative new interpretation of Irish national culture and how it came into being

Making Social Knowledge in the Victorian City Martin Hewitt, 2019-07-02 This study explores the ecology of knowledge of urban Britain in the Victorian period and seeks to examine the way in which Victorians comprehended the nature of their urban society through an exploration of the history of Victorian Manchester and two specific case studies on the fiction of Elizabeth Gaskell and the campaigns for educational extension which emerged out of the city It argues that crucial to the Victorians' approach was the visiting mode as a particular discursive formation including its institutional foundations its characteristic modes and assumptions and the texts which exemplify it Recognition of the importance of the visiting mode it is argued offers a fundamental challenge to established Foucauldian interpretations of nineteenth-century society and culture and provides an important corrective to recent scholarship of nineteenth-century technologies of knowing

Defining the Victorian Nation Catherine Hall, Keith McClelland, Jane Rendall, 2000-05-25 Defining the Victorian Nation offers a fresh perspective on one of the most significant pieces of legislation in nineteenth-century Britain Hall McClelland and Rendall demonstrate that the Second Reform Act was marked by controversy about the extension of the vote new concepts of masculinity and the masculine voter the beginnings of the women's suffrage movement and a parallel debate about the meanings and forms of national belonging Fascinating illustrations illuminate the argument and a detailed chronology biographical notes and a selected bibliography offer further support to the student reader

Public Health and Social Justice in the Age of Chadwick Christopher Hamlin, 1998-02-13 A revisionist account of the story of the foundations of public health in industrial revolution Britain

History and Cultural Theory Simon Gunn, 2014-05-22 In recent times there has been recognition of the growing influence of cultural theory on historical writing Foucault Bourdieu Butler and Spivak are just some of the thinkers whose ideas have been taken up and deployed by historians What are these ideas and where do they come from How have cultural theorists thought about history And how have historians applied theoretical insights to enhance their own understanding of events in the past This book provides a wide ranging and authoritative guide to the often vexed and controversial relationship between history and contemporary

theory It analyses the concepts that concern both theorists and historians such as power identity modernity and postcolonialism and offers a critical evaluation of them from an historical standpoint Written in an accessible manner History and Cultural Theory gives historians and students an invaluable summary of the impact of cultural theory on historiography over the last twenty years and indicates the likely directions of the subject in the future Fatherhood, Authority, and British Reading Culture, 1831-1907 Melissa Shields Jenkins, 2016-04-15 During a period when the idea of fatherhood was in flux and individual fathers sought to regain a cohesive collective identity debates related to a father's authority were negotiated and resolved through competing documents Melissa Shields Jenkins analyzes the evolution of patriarchal authority in nineteenth century culture drawing from extra literary and non narrative source material as well as from novels Arguing that Victorian novelists reinvent patriarchy by recourse to conduct books biography religious manuals political speeches and professional writing in the fields of history and science Jenkins offers interdisciplinary case studies of Elizabeth Gaskell George Meredith William Makepeace Thackeray George Eliot Samuel Butler and Thomas Hardy Jenkins's book contributes to our understanding of the part played by fathers in the Victorian cultural imagination and sheds new light on the structures underlying the Victorian novel A Cultural History of the British Census K. Levitan, 2011-08-14 The book explores the hotly disputed process by which the census was created and developed and examines how a wide cast of characters including statisticians novelists national and local officials political and social reformers and journalists responded to and used the idea of a census **Neoliberalism and Cultural Transition in New Zealand Literature, 1984-2008** Jennifer Lawn, 2015-11-25 Through a literary lens Neoliberalism and Cultural Transition in New Zealand Literature 1984-2008 Market Fictions examines the ways in which the reprise of market based economics has impacted the forms of social exchange and cultural life in a settler colonial context Jennifer Lawn proposes that postcolonial literary studies needs to take more account of the way in which the new configuration of dominance increasingly gathered under the umbrella term of neoliberalism works in concert with rather than against assertions of cultural identity on the part of historically subordinated groups The pre eminence of new right economics over the past three decades has raised a conundrum for writers on the left while neoliberalism has tended to undermine collective social action it has also fostered expressions of identity in the form of cultural capital which minority communities can exploit for economic gain Neoliberalism and Cultural Transition in New Zealand Literature 1984-2008 advocates for reading practices that balance the appeals of culture against the structuring forces of social class and the commodification of identity while not losing sight of the specific aesthetic qualities of literary fiction Jennifer Lawn demonstrates the value of this approach in a wide ranging account of New Zealand literature Movements towards decolonization in a bicultural society are read within the context of a marginal post industrial economy that was in many ways a test case for radical free market reforms Through a study of politically engaged writing across a range of genres by both Maori and non Maori authors the New Zealand experience shows in high relief the twinned dynamics

of a decline in the ideal of social egalitarianism and the corresponding rise of the idea of culture as a transformative force in economic and civic life tending ultimately to blur the distinction between these spheres altogether This work includes well recognized authors such as Alan Duff Patricia Grace Witi Ihimaera Eleanor Catton and Maurice Gee but also introduces a number of non canonical or emergent writers whose work is discussed in detail for the first time in this volume The result is a distinctive literary history of a turbulent period of social and economic change Romantic Generations Robert F.

Gleckner,2001 These essays express a common belief that the study of Romantic literature must be at once professionally serious and personally engaging Topics discussed range from Wordsworth to Lady Caroline Lamb and from Blake and Burke to the contemporary Irish poet Paul Muldoon Each essay also offers close readings of essential works on English and Irish Romanticism Introducing the collection is a tribute by the celebrated Romanticist Peter Manning **Class, Self, Culture** Beverley Skeggs,2013-11-05 Class Self Culture puts class back on the map in a novel way by taking a new look at how class is made and given value through culture It shows how different classes become attributed with value enabling culture to be deployed as a resource and as a form of property which has both use value to the person and exchange value in systems of symbolic and economic exchange The book shows how class has not disappeared but is known and spoken in a myriad of different ways always working through other categorisations of nation race gender and sexuality and across different sites through popular culture political rhetoric and academic theory In particular attention is given to how new forms of personhood are being generated through mechanisms of giving value to culture and how what we come to know and assume to be a self is always a classed formation Analysing four processes of inscription institutionalisation perspective taking and exchange relationships it challenges recent debates on reflexivity risk rational action theory individualisation and mobility by showing how these are all reliant on fixing some people in place so that others can move **Performing Medicine** Michael

Brown,2018-02-28 When did medicine become modern This book takes a fresh look at one of the most important questions in the history of medicine It explores how the cultures values and meanings of medicine were transformed across the late eighteenth and early nineteenth centuries as its practitioners came to submerge their local identities as urbane and learned gentlemen into the ideal of a nationwide and scientifically based medical profession Moving beyond traditional accounts of professionalization it demonstrates how visions of what medicine was and might be were shaped by wider social and political forces from the eighteenth century values of civic gentility to the radical and socially progressive ideologies of the age of reform Focusing on the provincial English city of York it draws on a rich and wide ranging archival record including letters diaries newspapers and portraits to reveal how these changes took place at the level of everyday practice experience and representation Imagining the Dead in British Literature and Culture, 1790-1848 David McAllister,2018-09-29 This book offers the first account of the dead as an imagined community in the early nineteenth century It examines why Romantic and Victorian writers including Wordsworth Dickens De Quincey Godwin and D Israeli believed that influencing the imaginative

conception of the dead was a way to either advance or resist social and political reform This interdisciplinary study contributes to the burgeoning field of Death Studies by drawing on the work of both canonical and lesser known writers reformers and educationalists to show how both literary representation of the dead and the burial and display of their corpses in churchyards dissecting rooms and garden cemeteries responded to developments in literary aesthetics psychology ethics and political philosophy *Imagining the Dead in British Literature and Culture 1790 1848* shows that whether they were lauded as exemplars or loathed as tyrants rendered absent by burial or made uncannily present through exhumation and display the dead were central to debates about the shape and structure of British society as it underwent some of the most radical transformations in its history
