

The background of the entire page is a photograph of a savanna landscape at sunset. A large, dark acacia tree stands in the middle ground, its branches silhouetted against the bright orange and yellow sky. The sun is low on the horizon, creating a strong glow. The foreground is a dry, reddish-brown field with some sparse green grass. In the distance, there are rolling hills or mountains under the hazy sky.

Treatise on the Love of God Saint Francis de Sales,Aeterna Press,2017-05-28 THE following Treatise presents at first sight considerable difficulties They do not arise from any defect in the Saint s mode of expression but are inherent in his subject and manner of treatment going deep down into the roots of the Love of God Thus he speaks in his Preface and continues The first four books and some chapters of the others might doubtless have been omitted without disadvantage to such souls as seek only the practice of holy love I have been forced to say many things which will appear more obscure than they are The depths of science are always somewhat hard to sound But he tells us that the state of the minds of his age required this deeper treatment and whatever may be thought as to the best way of presenting modern religious teaching to an age so ignorant so shallow and so unthinking as is our own with regard to spiritual truths there can be no question that this masterpiece of the chief doctor of ascetic theology must not be brought down to our level but that we must raise ourselves towards it Aeterna Press Selections Volume II Frances De Sales,2010-05 This is Part II of the Treatise Treatise on the Love of God an authoritative work which reflects perfectly the mind and heart of Francis de Sales as a great genius and a great saint It contains twelve books The first four give us a history or rather explain the theory of Divine love its birth in the soul its growth its perfection and its decay and annihilation the fifth book shows that this love is twofold the love of complacency and the love of benevolence the sixth and seventh treat of affective love which is practiced in prayer the eight and ninth deal with effective love that is conformity to the will of God and submission to His good pleasure The last three resume what has preceded and teach how to apply practically the lessons taught therein **Plato's Greater Hippias** - Plato,2020-07-30 Hippias of Elis travels throughout the Greek world practicing and teaching the art of making beautiful speeches On a rare visit to Athens he meets Socrates who questions him about the nature of his art Socrates is especially curious about how Hippias would define beauty They agree that beauty makes all beautiful things beautiful but when Socrates presses him to say precisely what he means Hippias is unable to deliver such a definition The more Socrates probes the more absurd the responses from Hippias become This is one of Plato s best comedies and one of his finest efforts at

posing the philosophical problem of the difference between particular things and universal qualities Plato lived in Athens Greece He wrote approximately two dozen dialogues that explore core topics that are essential to all human beings Although the historical Socrates was a strong influence on Plato the character by that name that appears in many of his dialogues is a product of Plato's fertile imagination All of Plato's dialogues are written in a poetic form that his student Aristotle called Socratic dialogue In the twentieth century the British philosopher and logician Alfred North Whitehead characterized the entire European philosophical tradition as a series of footnotes to Plato Philosophy for Plato was not a set of doctrines but a goal not the possession of wisdom but the love of wisdom Agora Publications offers these performances based on the assumption that Plato wrote these works to be performed by actors in order to stimulate additional dialogue among those who listen to them
