Smith, 2024-08-06 Building sustainable diversity in higher education isn t just the right thing to do it is an imperative for institutional excellence and for a pluralistic society that works In *Diversity's Promise for Higher Education* author Daryl G

Smith proposes clear and realistic practices to help institutions identify diversity as a strategic imperative for excellence and pursue diversity efforts that are inclusive of the varied issues on campuses without losing focus on the critical unfinished business of the past. To become more relevant while remaining true to their core missions, colleges and universities must continue to frame diversity as central to institutional excellence. Smith suggests that seeing diversity as an imperative for an institution's mission and not just as a value is the necessary lever for real institutional change. Furthermore, achieving excellence in a diverse society requires increasing institutional capacity for diversity, working to understand how diversity is tied to better leadership, positive change, research in virtually every field, student success, accountability, and more equitable hiring practices. In this edition, Smith emphasizes a transdisciplinary approach to the topic of diversity. Drawing on fifty years of diversity studies, this fourth edition engages with how the environment has transformed for diversity work since the third edition appeared in 2020. It addresses the changed landscape in which DEI work has been politicized both on and off campus, provides examples and language to suggest ways to articulate the centrality of diversity to mission and excellence, emphasizes the link between healthy democracies and higher education's mission in light of the current global and domestic challenges to democracy, highlights the need to focus on the conditions for developing healthy communities where dialogue, difference, and learning can take place, examines the current climate of campus protests and the implications for free speech and academic freedom, and reemphasizes the complexity of identity and explains how to attend to the growing kinds of identities relevant to diversity, equity, and inclusion while not overshadowing the unfinished business of race, class, and gender.

Thought Paralysis Farhad Dalal, 2018-03-21. Given the enormous struggles, efforts, and money expended on the equalities enterprise, why has more progress not been made? And further, why have things actually become worse in some circumstances? It is argued that this has occurred because the values of Equality have been bureaucratized, allowing the liberal principle of live and let live to be perverted and put in the service of fear and control. The Diversity discourse has been hijacked by the libertarians and put in the service of increasing profit under the guise of liberty and inclusivity. The equality movements have become apolitical, sidetracked into the project of the indiscriminate celebration and preservation of cultures in lieu of challenging the status quo within cultures as much as between them. The versions of psychology and sociology that the equality movements have drawn on are over simple.
