Making Ethnic Choices:

Making Ethnic Choices Karen Leonard, 1994-01-25 A thoroughly original study that greatly expands our knowledge of how ethnic identities are formed Leonard writes clearly and her inclusion of the voices of the Punjabi Mexicans lends humor and depth to the history This insightful study will be of interest to all scholars concerned with immigration and ethnicity and the history of California The Journal of Asian Studies This is a study of the flexibility of ethnic identity In the early twentieth century men from India's Punjab province came to California to work on the land The new immigrants had few chances to marry There were very few marriageable Indian women and miscegenation laws and racial prejudice limited their ability to find white Americans Discovering an unexpected compatibility Punjabis married women of Mexican descent and these alliances inspired others as the men introduced their bachelor friends to the sisters and friends of their wives These biethnic families developed an identity as Hindus but also as Americans Karen Leonard has related theories linking state policies and ethnicity to those applied at the level of marriage and family life Using written sources and numerous interviews she invokes gender generation class religion language and the dramatic political changes of the 1940s in South Asia and the United States to show how individual and group perceptions of ethnic identity have changed among Punjabi Mexican Americans in rural California This is an extraordinary work It is simultaneously an ethnography of early South Asian immigrant life in California a model of fine grained historical research using all manner of documents to reconstruct and interpret the migration flows social structure and family cycles of Punjabi men and their Mexican spouses and a sophisticated examination of the complex role of identity in their perceptions of themselves and their descendants In the midst of contemporary discussions about multi culturalism politically correct positions and valuing diversity this book would be a fine place to begin a thoughtful consideration of the potential multiplicity of meanings ethnicity may have for human beings Journal of American Ethnic History No other book has the scope or the vision of Karen Leonard's work I expect this book to be consulted as a model of historical research for many years to come James Freeman San Jose State University

Gutiérrez,2019-02-05 Relational Formations of Race brings African American Chicana Latinx Asian American and Native American studies together in a single volume enabling readers to consider the racialization and formation of subordinated groups in relation to one another These essays conceptualize racialization as a dynamic and interactive process group based racial constructions are formed not only in relation to whiteness but also in relation to other devalued and marginalized groups The chapters offer explicit guides to understanding race as relational across all disciplines time periods regions and social groups By studying race relationally and through a shared context of meaning and power students will draw connections among subordinated groups and will better comprehend the logic that underpins the forms of inclusion and dispossession such groups face As the United States shifts toward a minority majority nation Relational

How Race Is Made in America Natalia Molina,2014 How Race Is Made in America examines Mexican Americans from 1924 when American law drastically reduced immigration into the United States to 1965 when many quotas were abolished to understand how broad themes of race and citizenship are constructed These years shaped the emergence of what Natalia Molina describes as an immigration regime which defined the racial categories that continue to influence perceptions in the United States about Mexican Americans race and ethnicity Molina demonstrates that despite the multiplicity of influences that help shape our concept of race common themes prevail Examining legal political social and cultural sources related to immigration she advances the theory that our understanding of race is socially constructed in relational ways that is in correspondence to other groups Molina introduces and explains her central theory racial scripts

which highlights the ways in which the lives of racialized groups are linked across time and space and thereby affect one another How Race Is Made in America also shows that these racial scripts are easily adopted and adapted to apply to different racial groups Race, Ethnicity, And Nationality In The United States Paul Wong,2021-09-02 This book is intended for use in advanced undergraduate and graduate level courses on race and ethnicity and on diversity in America It was first conceived as a collective project of the Research and Resident Scholar Program in Comparative Race Relations at Washington State University which was established in 1994 with support from the Rockefeller Foundation A number of the participating authors are established scholars in racial ethnic studies and several have published award winning bestsellers Others are relative newcomers to the field who were invited to join the project because they were doing important work on less well covered topics such as relations between African Americans and Chicano Latino Americans **Multiculturalism in the United States** John D. Buenker,Lormen A. Ratner,2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work Co editors Ratner and Buenker have revised and updated the first edition of Multiculturalism in the United States to reflect the changes patterns and shifts in immigration showing how American culture affects immigrants and is affected by them Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays providing the reader with a comparative reference tool Seven new ethnic groups are included Arabs Haitians Vietnamese Koreans Filipinos Asian Indians and Dominicans New essays on the Irish Chinese and Mexicans are provided as are revised and updated essays on the remaining groups from the first edition The contribution to American culture by people of these diverse origins reflects differences in class occupation and religion The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants Changes over time that both of the cultures brought to America and of the culture that received them is also discussed Essays on representative ethnic groups include African Americans American Indians Arabs Asian Indians Chinese Dominicans Filipinos Germans Haitians Irish Italians Jews Koreans Mexicans Poles Scandinavians and the Vietnamese Race Characters Swati Rana,2020-11-16 A vexed figure inhabits U S literature and culture the visibly racialized immigrant who disavows minority identity and embraces the American dream Such figures are potent and controversial for they promise to expiate racial violence and perpetuate an exceptionalist ideal of America Swati Rana grapples with these figures building on studies of literary character and racial form Rana offers a new way to view characterization through racialization that creates a fuller social reading of race Situated in a nascent period of ethnic identification from 1900 to 1960 this book focuses on immigrant writers who do not fit neatly into a resistance based model of ethnic literature Writings by Paule Marshall Ameen Rihani Dalip Singh Saund Jos Garcia Villa and Jos Antonio Villarreal symbolize different aspects of the American dream from individualism to imperialism assimilation to upward mobility The dynamics of characterization are also those of contestation Rana argues Analyzing the interrelation of persona and
