Women's Studies for the Future Elizabeth Lapovsky Kennedy, Agatha Beins, 2005 Established as an academic field in the 1970s women's studies is a relatively young but rapidly growing area of study Not only has the number of scholars working in this subject expanded exponentially but women's studies has become institutionalized offering graduate degrees and taking on departmental status in many colleges and universities At the same time this field formed in the wake of the feminist movement is finding itself in a precarious position in what is now often called a post feminist society This raises challenging issues for faculty students and administrators How must the field adjust its goals and methods to continue to affect change in the future Bringing together essays by newcomers as well as veterans to the field this essential volume addresses timely questions including Without a unitary understanding of the subject woman what is the focus of women's studies How can women's studies fulfill the promise of interdisciplinarity What is the continuing place of activism in women's studies What are the best ways to think about teach and act upon the intersections of race class gender disability nation and sexuality Offering innovative models for research and teaching and compelling new directions for action *Women's Studies for the Future* ensures the continued relevance and influence of this developing field

Dissonant Divas in Chicana Music Deborah R. Vargas, 2012 Explores the resounding musical performances of Mexican American women such as Chelo Silva Eva Ybarra Eva Garza and Selena within Tejano Chicano music

Visible Women Susan James, Stephanie Palmer, 2002-02 How should feminist theories conceive of the subject What is it to be a legal person What part does embodiment play in subjectivity Can there be a conception of rights which does justice to the social contexts in which rights claims are embedded Is the way the law constitutes legal subjects a form of violence These questions lie at the heart of contemporary feminist theory and in this collection they are addressed by a group of distinguished international scholars working in law philosophy and politics The volume in which the concerns of one author are taken up by others advances current debate on two interconnected levels First it contains original and ground breaking discussions of the questions raised above At the same time it contains a more reflexive strand of argument about the intellectual resources available to feminist thinkers and the advantages and dangers of borrowing from non feminist traditions of thought It thus provides an exceptionally rich examination of contemporary legal and political feminist theory

Women, America, and Movement Susan L. Roberson, 1998 Since the colonial days American women have traveled migrated and relocated always faced with the challenge of reconstructing their homes for themselves and their families *Women America and Movement* offers a journey through largely unexplored territory the experiences of migrating American

women These narratives both real and imagined represent a range of personal and critical perspectives some of the women describe their travels as expansive and freeing while others relate the dreadful costs and sacrifices of relocating Despite the range of essays featured in this study the writings all coalesce around the issues of politics poetry and self identity described by Adrienne Rich as the elements of the politics of location treated here as the politics of relocation The narratives featured in this book explore the impact of race class and sexual economics on migratory women their self identity and their roles in family and social life These issues demonstrate that in addition to geographic place ideology is itself a space to be traversed By examining the writings of such women as Louise Erdrich Zora Neale Hurston and Gertrude Stein the essayists included in this volume offer a variety of experiences The book confronts such issues as racist politicking against Native Americans African Americans and Asian immigrants sexist attitudes that limit women to the roles of wife mother and sexual object and exploitation of migrants from Appalachia and of women newly arrived in America These essays also delve into the writings themselves by looking at what happens to narrative structure as authors or their characters cross geographic boundaries The reader sees how women writers negotiate relocation in their texts and how the written word becomes a place where one finds oneself

Contemporary Feminist Pragmatism Maurice Hamington, Celia Bardwell-Jones, 2012 Contemporary Feminist Pragmatism is an interdisciplinary collection of original essays that explores the present implications of feminism and pragmatism for theory policy and action The notion of feminist pragmatism or pragmatist feminism has been around since Charlene Haddock Seigfried introduced it two decades ago however the bulk of the work in this field has been directed toward recovering the feminist strain of classical American philosophy largely through renewed interest in the work of Jane Addams This exploration of the origins of feminism and pragmatism has been fruitful in providing a foundation for theoretical considerations This book takes this work a step further by addressing the modern significance of the nexus of feminism and pragmatism arguing that these fields hold three common commitments and values the importance of context and experience the relationship of politics and values and the production of knowledge and metaphysics and the need for diversity and thus dialogue among differently situated social groups

Between Warrior Brother and Veiled Sister Minoo Moallem, 2005-07-11 Minoo Moallem challenges the mainstream stereotypical representation of Islam and Muslims as backward fanatical and premodern by showing how Islamic nationalism and fundamentalism are by products of modernity Writing with a deep personal and scholarly concern for recent Iranian history Moallem refers to the gendered notions of brother and sister as keys to understanding the invention of the Islamic ummat as a modern fraternal community Using magazines novels and films she offers a feminist transnational analysis of contemporary Iranian culture that questions dominant binaries of modern

and traditional West and East secular and religious and civilized and barbaric Between Warrior Brother and Veiled Sister responds to a number of important questions raised in connection with 9 11 The author considers how veiling intersects with other identity markers in nation state building and modern formations of gendered citizenship She shows how Islamic nationalism and fundamentalism are fed by a hybrid blend of images and myths of both pre Islamic and Islamic Iran as well as globally circulated patriarchal ideologies Immigrant Acts Lisa Lowe, 1996 Argues that understanding Asian immigration to the United States is fundamental to understanding the racialized economic and political foundations of the nation Lowe discusses the contradictions whereby Asians have been included in the workplaces and markets of the U S nation state yet through exclusion laws and bars from citizenship have been distanced from the terrain of national culture In this uniquely interdisciplinary study Lowe examines the historical political cultural and aesthetic meanings of immigration in relation to Asian Americans back cover
