## **Making Magic:**

Making Magic Randall Styers, 2004-01-15 Since the emergence of religious studies and the social sciences as academic disciplines the concept of magic has played a major role in defining religion and in mediating the relation of religion to science Across these disciplines magic has regularly been configured as a definitively non modern phenomenon juxtaposed to distinctly modern models of religion and science Yet this notion of magic has remained stubbornly amorphous In Making Magic Randall Styers seeks to account for the extraordinary vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He argues that this persistence can best be explained in light of the Western drive to establish and secure distinctive norms for modern identity norms based on narrow forms of instrumental rationality industrious labor rigidly defined sexual roles and the containment of wayward forms of desire Magic has served to designate a form of alterity or deviance against which dominant Western notions of appropriate religious piety legitimate scientific rationality and orderly social relations are brought into relief Scholars have found magic an invaluable tool in their efforts to define the appropriate boundaries of religion and science On a broader level says Styers magical thinking has served as an important foil for modernity itself Debates over the nature of magic have offered a particularly rich site at which scholars have worked to define and to contest the nature of modernity and norms for life in the modern world Making Magic Briana Saussy, 2019-06-04 Re enchant your life with this book of rituals ceremonies and practices for personal growth anchored in the hidden power of everyday things We all have a deep capacity to make magic and to do it as easily as we breathe or open our eyes This is not a matter of belief You can discover your own capacity for magic in your own direct experience Briana Saussy When you think of magic do you imagine something supernatural extraordinary or beyond your everyday reality Many of us are drawn to magic because we think there s something out there that can bring enchantment and wonder back into our lives Yet there s a secret to real magic the extraordinary is much closer than you may think With Making Magic expert teacher Briana Saussy invites you to discover a practice of magic that will bring a new depth and power to each moment act and choice of your life Through teaching stories wisdom from a wide variety of world traditions and no nonsense practices you can easily weave into your daily routine Briana will help you reconnect with the wild and creative force of magic that is always around and within you waiting for you to remember As you explore this path of transformation you ll discover resources of magic that permeate your life including Doors and thresholds ways we cross between worlds Communication creating magic with your voice body intentions and relationships Holy helpers ancestors angels saints and spirit beings who guide and support you Water and washing access the revitalizing energy of water when you drink or bathe Textiles and threads how to loosen mend or bind up supportive energies Candles and fire elemental power to bring light to darkness and burn away what no longer serves you Kitchen magic using food to nourish your whole self and reconnect you with nature Talismans infuse your beloved objects with sacred purpose and supportive power Magic is the most real part of
