The Shock of Recognition Lewis Pyenson, 2020-10-12 In The Shock of Recognition Lewis Pyenson uses a method called Historical Complementarity to identify the motif of non figurative abstraction in modern art and science He identifies the motif in Picasso's and Einstein's educational environments He shows how this motif in domestic furnishing and in urban lighting set the stage for Picasso's and Einstein's professional success before 1914 He applies his method to intellectual life in Argentina using it to address that nation's focus on an inventory of

the natural world until the 1940s its adoption of non figurative art and nuclear physics in the middle of the twentieth century and attention to landscape painting and the wonder of nature at the end of the century Routledge International Handbook of the Sociology of Art and Culture Laurie Hanquinet, Mike Savage, 2015-09-16 The Routledge Handbook of the Sociology of Arts and Culture offers a comprehensive overview of sociology of art and culture focusing especially though not exclusively on the visual arts literature music and digital culture Extending and critiquing Bourdieu s influential analysis of cultural capital the distinguished international contributors explore the extent to which cultural omnivorousness has eclipsed highbrow culture the role of age gender and class on cultural practices the character of aesthetic preferences the contemporary significance of screen culture and the restructuring of popular culture The Handbook critiques modes of sociological determinism in which cultural engagement is seen as the simple product of the educated middle classes The contributions explore the critique of Eurocentrism and the global and cosmopolitan dimensions of cultural life The book focuses particularly on bringing cutting edge relational research methodologies both qualitative and quantitative to bear on these debates This handbook not only describes the field but also proposes an agenda for its development which will command major international interest *Frontiers of Creative Industries* Candace Jones, Massimo Maoret, 2018-04-03 Creative industries are a growing and globally important area for both economic vitality and cultural expression of industrialized nations This volume examines their institutional categorical and structural dynamics to provide an overview of new trends and emerging issues in scholarship on this topic The Jewish Decadence Jonathan Freedman, 2021-04-19 As Jewish writers artists and intellectuals made their way into Western European and Anglo American cultural centers they encountered a society obsessed with decadence An avant garde movement characterized by self consciously artificial art and literature philosophic pessimism and an interest in nonnormative sexualities decadence was also a smear whereby Jews were viewed as the source of social and cultural decline In *The Jewish Decadence* Jonathan Freedman argues that Jewish engagement with decadence played a major role in the emergence of modernism and the making of Jewish culture from the 1870s to the present The first to tell this sweeping story Freedman demonstrates the centrality of decadence to the aesthetics of modernity and its inextricability from Jewishness Freedman recounts a series of diverse and surprising episodes that he insists do not belong solely to the past but instead reveal that the identification of Jewishness with decadence persists today **Dealing Art on Both Sides of the Atlantic, 1860-1940** Lynn Catterson, 2017-07-31 *Dealing Art on Both Sides of the Atlantic 1860 1940* aims to bring the marketplace dynamic into sharper focus with its essays which examine the many functionaries who participate in the art market network among them agents scouts intermediaries restorers fakers decorators advisers and experts All of the essays are rooted in case studies which give voice to the various aspects of supply from branding to marketing from inventory to display from restoration to pastiche to fabrication Each is incredibly rich in their marshalling of primary sources and archival materials in sum they present an impressive array of new research

**Pleasure Wars** Peter Gay, 1998 Whereas *Education of the Senses* focused on the sexual attitudes and practices of the nineteenth century Bourgeoisie *The Tender Passion* concentrates on their notions of love No less revisionist than he was in his first volume Gay argues here that the Victorians were able not only to enjoy their sexuality but to know love in its most exalted sense The realities of love for the Victorians he shows came much closer to their ideals than many have thought Gay delves into a huge body of material from philosophical treatises to medical texts from letters and diaries to works of fiction The book is replete with fascinating insights into the lives and works of individual Victorians Dickens Stendhal Wagner Oscar Wilde Beatrice Potter and Sydney Webb among them and his discussions range from the discovery of homosexuality to the ways love was diverted or disguised in music and religion
