## **Making Monsters False Memories Psychotherapy And Sexual Hysteria:**

**Making Monsters** Richard Ofshe, Ethan Watters, 1996-01-01 In the last decade reports of incest have exploded into the national consciousness Magazines talk shows and mass market paperbacks have taken on the subject as many Americans primarily women have come forward with graphic memories of childhood abuse Making Monsters examines the methods of therapists who treat patients for depression by working to draw out memories or with the use of hypnosis to encourage fantasies of childhood abuse the patients are told they have repressed Since this therapy may leave the patient more depressed and alienated than before questions are appropriately raised here about the ethics and efficacy of such treatment

*Making Monsters* Richard Ofshe, Ethan Watters, 1994-06-01 Lately reports of incest have exploded as many people primarily women have come forward with graphic stories of sexual psychological abuse Many of these stories have emerged from recovered memory therapy These recovered memories can be false fabricated in the highly charged atmosphere of therapy The authors not only take to task poorly trained therapists they also show how the mental health establishment has actually added to the confusion They trace the problem back to Sigmund Freud illuminate how why the debate about recovered memories will drive psychology in the future

*A Feminist Clinician's Guide to the Memory Debate* Susan Contratto, M Janice Gutfreund, 2014-06-03 First published in 1997 A Feminist Clinician's Guide to the Memory Debate accomplishes four goals it publishes a range of chapters which are explicitly feminist to empower feminists activists practitioners scholars and advocates to be knowledgeable and do the most competent work possible it helps feminist friendly clinicians become alert as to how a feminist analysis can expand and contextualize their understanding of the recovered memory controversy it makes proactive statements of what constitutes ethical healing treatment for the profoundly deforming experience of child sexual abuse and it empowers the clinician to be effectively political outside the therapy setting A Feminist Clinician's Guide to the Memory Debate is an invaluable collection of articles that explores nearly every aspect of the controversy over recovered memories that has shaken public life the courts feminist psychotherapy contemporary psychoanalysis and cognitive science

**Trauma and Cognitive Science** Jennifer J Freyd, Anne P DePrince, 2013-04-15 Decipher the complex interplay of neurology psychology trauma and memory In the midst of the controversies over how repressed false and recovered memories should be interpreted Trauma and Cognitive Science presents reliable original research instead of rhetoric This landmark volume examines the way different traumas influence

memory information processing and suggestibility The research provides testable theories on why people forget some kinds of childhood abuse and other traumas It bridges the cognitive science and clinical approaches to traumatic stress studies Written by the foremost researchers in the field including Bessel van der Kolk and Jennifer Freyd these scientific evaluations of the way traumatic memories are processed offer powerful new perspectives on the interplay of biology and psychology Trauma and Cognitive Science discusses a range of traumas including combat child abuse and sexual assault across the lifespan Fascinating perceptual experiments shed light on the cognitive uses of dissociation the encoding and recall of memory and the effects of early trauma on subsequent information processing Trauma and Cognitive Science offers solid information on the most challenging questions in this field How is memory encoded stored and retrieved How is it forgotten How does trauma influence these processes What kinds of memories can be created by suggestion What physical changes take place in the brain under traumatic stress How is consciousness disturbed during and after trauma What are the ethical clinical and societal implications of traumatic stress studies How can people suffering from traumatic memories be healed Trauma and Cognitive Science also offers an astonishing array of true case studies including the story of an adult woman who was raped went to court and saw her rapist convicted and then forgot the whole traumatic episode The independently corroborated accounts of recovered memories and the carefully designed research studies on multiple modes and levels of memory may offer the key to understanding how we remember and why we forget The results of these controlled scientific studies have wide ranging implications for abuse survivors combat veterans rape victims and people who have survived traumatic events from earthquakes to car accidents Written in clear accessible prose Trauma and Cognitive Science belongs on the bookshelf of all mental health professionals researchers in the areas of traumatic stress and child abuse attorneys judges and survivors of abuse and trauma

**Shattered but Unbroken** Valerie Sinason, Amelia Van der Merwe, 2018-05-08 Shattered but Unbroken is an edited volume focusing on Dissociative Identity Disorder DID which combines the narratives of survivors of ritual abuse with academic contributions on the causes correlates and interventions applicable to DID The book is divided into two distinct parts Part 1 begins with the missing memoir of Anna a survivor of ritual abuse Anna chose not to publish her memoir for fear of retribution from her perpetrators The plight of Anna is interwoven between all the contributions in the book be they life writing or academic contributions So too are the life writings of Annalise writing under pseudonym Instead of using Anna s memoir the politics of anonymity is addressed by a range of survivors of ritual abuse who write about their decision to use their real name in their narratives or to use pseudonyms Part 2 of the book contains academic contributions which deal with the causes correlates and interventions applicable to the most common response to ritual abuse DID

**The Past is a Foreign Country - Revisited** David Lowenthal, 2015-10 A completely updated new edition of David Lowenthal's classic account of how we reshape the past to serve present needs

**Wounds and Words** Christa Schönfelder, 2014-04-15 Trauma has become a hotly contested topic in literary studies But interest in trauma is not new its roots extend to the Romantic period when novelists and the first psychiatrists influenced each others investigations of the wounded mind This book looks back to these early attempts to understand trauma reading a selection of Romantic novels in dialogue with Romantic and contemporary psychiatry It then carries that dialogue forward to postmodern fiction examining further how empirical approaches can deepen our theorizations of trauma Within an interdisciplinary framework this study reveals fresh insights into the poetics politics and ethics of trauma fiction

*Hystories* Elaine Showalter, 1997 Filled with fascinating new perspectives on a culture saturated with syndromes of every sort *Hystories* skillfully surveys the condition of hysteria its causes cures famous patients and doctors in the 20th century to show that hysterics are always with us a kind of collective coping mechanism for changing times

Troubling Confessions Peter Brooks, 2000-05-22 Literature has often understood the problematic nature of confession better than the law as Brooks demonstrates in perceptive readings of legal cases set against works by Rousseau Dostoevsky Joyce and Camus among others

BOOK JACKET

Trauma Selma Leydesdorff, 2017-09-29 Traumatic experiences and their consequences are often the core of life stories told by survivors of violence In *Trauma Life Stories of Survivors* leading academics explore the relationship between the experiences of terror and helplessness that have caused trauma the ways in which survivors remember and the representation of these memories in the language and form of their life stories International case studies include the migration of Ethiopian Jews to Israel the life stories of Guatemalan war widows violence in South Africa persecution of political prisoners in South Africa and the former Czechoslovakia lynching in the Mississippi Delta resistance in Zimbabwe's liberation war sexual abuse and the ongoing Irish troubles The volume reveals the complexity of remembering and forgetting traumatic experiences and shows that survivors are likely to express themselves in stories containing elements that are imaginary fragmented and loaded with

symbolism Trauma Life Stories of Survivors is a groundbreaking work of relevance across the social sciences This new perspective on trauma will be of particular importance to researchers in psychology history women s studies anthropology sociology and cultural studies      **Snakes and Ladders: Reviewing Feminisms at Century's End** ,2001-12 This book reviews the current state of feminist thinking in the run up to the millenium its priorities and concerns drawing critical attention to the losses as well as the gains of contemporary feminist work      **Unspeakable** Lynn Sacco,2009-08-17 First place Large Nonprofit Publishers Illustrated Covers 2010 Washington Book PublishersNamed one of the Top Five Books of 2009 by Anne Grant The Providence Journal This history of father daughter incest in the United States explains how cultural mores and political needs distorted attitudes toward and medical knowledge of patriarchal sexual abuse at a time when the nation was committed to the familial power of white fathers and the idealized white family For much of the nineteenth century father daughter incest was understood to take place among all classes and legal and extralegal attempts to deal with it tended to be swift and severe But public understanding changed markedly during the Progressive Era when accusations of incest began to be directed exclusively toward immigrants blacks and the lower socioeconomic classes Focusing on early twentieth century reform movements and that era s epidemic of child gonorrhea Lynn Sacco argues that middle and upper class white males too molested female children in their households even as official records of their acts declined dramatically Sacco draws on a wealth of sources including professional journals medical and court records and private and public accounts to explain how racial politics and professional self interest among doctors social workers and professionals in allied fields drove claims and evidence of incest among middle and upper class white families into the shadows The new feminism of the 1970s she finds brought allegations of father daughter incest back into the light creating new societal tensions Against several different historical backdrops public accusations of incest against genteel men in the nineteenth century the epidemic of gonorrhea among young girls in the early twentieth century and adult women s incest narratives in the mid to late twentieth century Sacco demonstrates that attitude shifts about patriarchal sexual abuse were influenced by a variety of individuals and groups seeking to protect their own interests      *The Vulnerable Therapist* Helen W. Coale,2020-03-31 A passionate proactive stance on the present state of psychotherapy The Vulnerable Therapist Practicing Psychotherapy in an Age of Anxiety picks the brains of contemporary mental health professionals and finds a common symptom fear You ll see why litigation market forces and ethical confusion have raised a dark umbrella of angst over psychotherapy practices and discover what therapists can do to restore the profession to its former good self The Vulnerable Therapist will capture your interest with its broad systemic approach contextual analysis fascinating case studies and anecdotal material You ll see the need for improvement at the institutional and individual levels of the psychotherapy professions Specifically you ll read about social cultural and contextual aspects of the crisis of meaning in psychotherapy professional responses to the crisis of meaning which create ethical dilemmas for individual practitioners the power of language to construct and control mental

health beliefs psychotherapy's core constructs and ethical buzzwords psychological and legal risks in practicing psychotherapy today specific problems with licensing boards and other complaint channels problems with rule based ethics alternative models for creating ethical therapist client relationships Today more and more excessive litigation and market driven forces are imposing standard ethics decisions on psychotherapists forcing them to see their clients through the clouded lenses of risk management and liability instead of through the lens of therapeutic need Much like the symptomatic children whose dysfunctional family stops blaming them and starts shouldering part of the problem distraught therapists need the psychotherapy profession to address its own psychopathology at the institutional level The Vulnerable Therapist shows how you can contribute to a total revamping of the mental health professions in a way that facilitates rather than impedes ethical functioning

**Popular Myths about Memory**, Brian H. Bornstein, 2017-07-03 Misconceptions about memory phenomena often go hand in hand with popular misrepresentations of its function in media In Popular Myths about Memory Brian H Bornstein examines how the representation of memory in novels movies and television shows often clashes with scientific research Bornstein discusses the consequences of these myths on the popular understanding of memory and its functions Depictions of amnesia eyewitness accounts and superior memory are just a few of the processes explored and debunked This book is recommended for scholars interested in psychology media and film studies literary studies and communication studies

**Beyond Common Sense** Eugene Borgida, Susan T. Fiske, 2008-04-30 Beyond Common Sense addresses the many important and controversial issues that arise from the use of psychological and social science in the courtroom Each chapter identifies areas of scientific agreement and disagreement and discusses how psychological science advances our understanding of human behavior beyond common sense Features original chapters written by some of the leading experts in the field of psychology and law including Elizabeth Loftus Saul Kassin Faye Crosby Alice Eagly Gary Wells Louise Fitzgerald Craig Anderson and Phoebe Ellsworth The 14 issues addressed include eyewitness identification gender stereotypes repressed memories Affirmative Action and the death penalty Commentaries written by leading social science and law scholars discuss key legal and scientific themes that emerge from the science chapters and illustrate how psychological science is or can be used in the courts

**Opening Skinner's Box: Great Psychological Experiments of the Twentieth Century** Lauren Slater, 2005-02-17 Through ten examples of ingenious experiments by some of psychology's most innovative thinkers Lauren Slater traces the evolution of the century's most pressing concerns free will authoritarianism conformity and morality Beginning with B F Skinner and the legend of a child raised in a box Slater takes us from a deep empathy with Stanley Milgram's obedience subjects to a funny and disturbing re creation of an experiment questioning the validity of psychiatric diagnosis Previously described only in academic journals and textbooks these often daring experiments have never before been narrated as stories chock full of plot wit personality and theme *After the Flying Saucers Came* Greg Eghigian, 2024 After the Flying Saucers Came is a comprehensive account of the stories the

people and the strange events that went into making the fascination with UFOs and aliens a worldwide phenomenon among believers skeptics and the simply curious It traces how an odd sighting of flying saucers by an American pilot in 1947 inspired governments the media scientists writers and the general public to consider the possibility that extraterrestrials were visiting earth

**Self Expressions** Owen J. Flanagan, 1996 Human beings have the unique ability to consciously reflect on the nature of the self But reflection has its costs We can ask what the self is but as David Hume pointed out the self once reflected upon may be nowhere to be found The favored view is that we are material beings living in the material world But if so a host of destabilizing questions surface If persons are just a sophisticated sort of animal then what sense is there to the idea that we are free agents who control our own destinies What makes the life of any animal even one as sophisticated as Homo sapiens worth anything What place is there in a material world for God And if there is no place for a God then what hold can morality possibly have on us why isn't everything allowed Flanagan's collection of essays takes on these questions and more He continues the old philosophical project of reconciling a scientific view of ourselves with a view of ourselves as agents of free will and meaning makers But to this project he brings the latest insights of neuroscience cognitive science and psychiatry exploring topics such as whether the conscious mind can be explained scientifically whether dreams are self expressive or just noise the moral socialization of children and the nature of psychological phenomena such as multiple personality disorder and false memory syndrome What emerges from these explorations is a liberating vision which can make sense of the self agency character transformation and the value and worth of human life Flanagan concludes that nothing about a scientific view of persons must lead to nihilism
