**Zen Terror in Prewar Japan** Brian Daizen Victoria,2020-02-14 Written by a Zen priest this book explodes the myth of Zen Buddhism as a peaceful religion Can Buddhism widely regarded as a religion of peace also contribute to acts of terrorism Through an insider s view of right wing ultranationalism in prewar Japan this powerful book follows a band of Zen Buddhist trained adherents who ardently believed so Brian Victoria himself a Zen priest tells the story of a group of terrorists who were responsible for the assassination of three leading political and economic figures in 1932 Victoria provides a detailed introduction to the religious as well as political significance of the group s terrorist beliefs and acts focusing especially on the life and times of the band s leader Inoue Nissho A deeply troubled youth Inoue became a spy in Manchuria for the Japanese Army in 1909 where he encountered Zen for the first time When he returned to Japan in 1921 he determined to resolve his deep spiritual discontent through meditation practice which culminated in an enlightenment experience that resolved his long term doubts After engaging in post enlightenment training under the guidance of Rinzai Zen master Yamamoto Gempo Inoue began a program of training the patriotic youth who formed the nucleus of his terrorist band After the assassinations Inoue and his band were sentenced to life imprisonment only to be released just a few years later in 1940 Almost unbelievably Inoue then became the live in confidant of Prime Minister Konoe Fumimaro a position he held through the end of WWII In the postwar era Inoue

reinvented himself again as the founder and head of yet another band of ultranationalists known as the National Protection Corps His eventful life came to an end in 1967 Victoria concludes with an assessment of the profound impact of the assassinations which culminated in Japan's transformation into a totalitarian state and set the stage for Pearl Harbor The author also examines the connection of Buddhism to terrorism more broadly considering the implications for today's Islamic related terrorism **Journal of the American Asiatic Association**, 1909 Making Modern Japanese-Style Painting Chelsea Foxwell, 2015-07-20 The Western discovery of Japanese paintings at nineteenth century world's fairs and export shops catapulted Japanese art to new levels of international popularity With that popularity however came criticism as Western writers began to lament a perceived end to pure Japanese art and a rise in westernized cultural hybrids The Japanese response nihonga a traditional style of painting that reframed existing techniques to distinguish them from Western artistic conventions Making Modern Japanese Style Painting explores the visual characteristics and social functions of nihonga and traces its relationship to the past its viewers and emerging notions of the modern Japanese state Chelsea Foxwell sheds light on interlinked trends in Japanese nationalist discourse government art policy American and European commentary on Japanese art and the demands of export The seminal artist Kano Hōgai 1828-88 is one telling example originally a painter for the shogun his art eventually evolved into novel eerie images meant to satisfy both Japanese and Western audiences Rather than simply absorbing Western approaches nihonga as practiced by Hōgai and others broke with pre Meiji painting even as it worked to neutralize the rupture By arguing that fundamental changes to audience expectations led to the emergence of nihonga a traditional interpretation of Japanese art for a contemporary international market Making Modern Japanese Style Painting offers a fresh look at an important aspect of Japan's development into a modern nation
