The Rise of the Modern Woman Peter N. Stearns, 1978

Silent Voices Brenda
 Ayres, 2003-04-30 Some of the greatest English novels were written during the Victorian era and many are still widely read
 and taught today But many others written during that period have been neglected by scholars and modern readers alike A
 number of these novels were written by women and were popular when published Moreover they reveal perspectives of 19th
 century British culture not present in canonized works and therefore revise our understanding of Victorian life and attitudes
 With the increasing interest in revising Victorian history and gender scholarship especially through the rediscovery of lost
 texts written by women this book is a timely and much needed study The expert contributors to this volume argue the value

of novels by such Victorian women writers as Grace Aguilar Catherine Crowe Charlotte Elizabeth Tonna Annie E Holdsworth Ella Hepworth Dixon Flora Annie Steel Anne Thackeray Sarah Grand Marie Corelli and others Most of the chapters address numerous works by a particular writer Each focuses on different social issues as well though most of them share an interest in gender politics Topics discussed include a 19th century Jewish novelist s navigation through Protestant spirituality the relationship of noncanonical governess novels to class and gender issues and forgotten works by women crime writers Other chapters analyze how women writers impelled social reform and subverted patriarchally defined religious issues

Women in Magazines Rachel Ritchie, Sue Hawkins, Nicola Phillips, S. Jay Kleinberg, 2016-02-19 Women have been important contributors to and readers of magazines since the development of the periodical press in the nineteenth century By the mid twentieth century millions of women read the weeklies and monthlies that focused on supposedly feminine concerns of the home family and appearance In the decades that followed feminist scholars criticized such publications as at best conservative and at worst regressive in their treatment of gender norms and ideals However this perspective obscures the heterogeneity of the magazine industry itself and women s experiences of it both as readers and as journalists This collection explores such diversity highlighting the differing and at times contradictory images and understandings of women in a range of magazines and women s contributions to magazines in a number of contexts from late nineteenth century publications to twenty first century titles in Britain North America continental Europe and Australia
