Making Of Textual Culture:

The Making of Textual Culture Martin Irvine, 1994-04-28 This is the a major study of the cultural work performed by grammatica the central discipline concerned with literacy language interpretation and literature in medieval society Grammatica was with all aspects of Latin literary text its language meaning and value Martin Irvine demonstrates that grammatica though the first of the liberal arts was not simply one discipline among many it had an essentially constitutive function defining language meaning and texts for other medieval disciplines Martin Irvine draws together several aspects of medieval culture literary theory the nature of literacy education biblical interpretation the literary canon and linguistic thought in order to disclose the more far reaching social effect of grammatica chief of which was the making of textual culture in the medieval West *Rezension: Martin Irvine, "The Making of Textual Culture : "grammatica" and Literary Theory 350-1100"* Michael Stolz, 1995 **Rezension Martin Irvine: The Making of Textual Culture, "grammatica" and Literary Theory, 350-1100** Anna A. Grotans, 1997 **The Development of Education in Medieval Iceland** Ryder Patzuk-Russell, 2021-02-08 Medieval Iceland is known for the fascinating body of literary works it produced from ornate court poetry to mythological treatises to sagas of warrior poets and feud culture This book investigates the institutions and practices of education which lay behind not only this literary corpus but the whole of medieval Icelandic culture religion and society By bringing together a broad spectrum of sources including sagas law codes and grammatical treatises it addresses the history of education in medieval Iceland from multiple perspectives It shows how the slowly developing institutions of the church shaped educational practices within an entirely rural society with its own distinct vernacular culture It emphasizes the importance of Latin despite the lack of surviving manuscripts and teaching and learning in a highly decentralized environment Within this context it explores how medieval grammatical education was adapted for bilingual clerical education which in turn helped create a separate and fully vernacularized grammatical discourse **Race and Ethnicity in Anglo-Saxon Literature** Stephen Harris, 2004-06-01 What makes English literature English This question inspires Stephen Harris s wide ranging study of Old English literature From Bede in the eighth century to Geoffrey of Monmouth in the twelfth Harris explores the intersections of race and literature before the rise of imagined communities Harris examines possible configurations of communities illustrating dominant literary metaphors of race from Old English to its nineteenth century critical reception Literary voices in the England of Bede understood the limits of community primarily as racial or tribal in keeping with the perceived divine division of peoples after their languages and the extension of Christianity to Bede s Germanic neighbours was effected in part through metaphors of family and race Harris demonstrates how King Alfred adapted Bede in the ninth century how both exerted an effect on Archbishop Wulfstan in the eleventh and how Old English poetry speaks to images of race [Textual Cultures of Medieval Italy](#) William Randolph Robins, 2011-01-01 Based on papers presented at the 41st Conference on Editorial Problems held at the University of Toronto Toronto Ont from Nov 6 8th 2005

The Protean Virgil Craig Kallendorf, 2015 The Protean Virgil argues that when we try to understand how and why different readers have responded differently to the same text over time we should take into account the physical form in which they read the text as well as the text itself Using Virgil's poetry as a case study in book history the volume shows that a succession of material forms manuscript printed book illustrated edition and computer file undermines the drive toward textual and interpretive stability This stability is the traditional goal of classical scholarship which seeks to recover what Virgil wrote and how he intended it to be understood The manuscript form served to embed Virgil's poetry into Christian culture which attempted to anchor the content into a compatible theological truth Readers of early printed material proceeded differently breaking Virgil's text into memorable moral and stylistic fragments and collecting those fragments into commonplace books Furthermore early illustrated editions present a progression of re-envisionings in which Virgil's poetry was situated within a succession of receiving cultures In each case however the material form helped to generate a method of reading Virgil which worked with this form but which failed to survive the transition to a new union of the textual and the physical This form induced instability reaches its climax with computerization which allows the reader new power to edit the text and to challenge the traditional association of Virgil's poetry with elite culture **Augustine and the Disciplines**

Karla Pollmann, Mark Vessey, 2005-06-09 Augustine and the Disciplines takes its cue from Augustine's theory of the liberal arts to explore the larger question of how the Bible became the focus of medieval culture in the West Augustine himself became increasingly aware that an ambivalent attitude towards knowledge and learning was inherent in Christianity By facing the intellectual challenge posed by this tension he arrived at a new theory of how to interpret the Bible correctly The topics investigated here include Augustine's changing relationship with the disciplines as he moved from an attempt at their Christianization in the philosophical dialogues of Cassiciacum to a radical reshaping of them within a Christian world view in the De Doctrina Christiana and Confessiones the factors that prompted and facilitated his change of perspective and the ways in which Augustine's evolving theory reflected contemporary trends in Christian pedagogy Reading Renunciation

Elizabeth A. Clark, 1999-07-19 A study of how asceticism was promoted through Biblical interpretation Reading Renunciation uses contemporary literary theory to unravel the writing strategies of the early Christian authors Not a general discussion of early Christian teachings on celibacy and marriage the book is a close examination in the author's words of how the Fathers' axiology of abstinence informed their interpretation of Scriptural texts and incited the production of ascetic meaning Elizabeth Clark begins with a survey of scholarship concerning early Christian asceticism that is designed to orient the nonspecialist Section Two is organized around potentially troubling issues posed by Old Testament texts that demanded skillful handling by ascetically inclined Christian exegetes The third section Reading Paul focuses on the hermeneutical problems raised by I Corinthians 7 and the Deutero Pauline and Pastoral Epistles Elizabeth Clark's remarkable work will be of interest to scholars of late antiquity religion literary theory and history **Homo Narrans** John D. Niles, 2010-08-03 It

would be difficult to imagine what human life would be like without stories from myths recited by Pueblo Indian healers in the kiva ballads sung in Slovenian market squares folktales and legends told by the fireside in Italy to jokes told at a dinner table in Des Moines for it is chiefly through storytelling that people possess a past In *Homo Narrans* John D Niles explores how human beings shape their world through the stories they tell The book vividly weaves together the study of Anglo Saxon literature and culture with the author's own engagements in the field with some of the greatest twentieth century singers and storytellers in the Scottish tradition Niles ponders the nature of the storytelling impulse the social function of narrative and the role of individual talent in oral tradition His investigation of the poetics of oral narrative encompasses literary works such as the epic poems and hymns of early Greece and the Anglo Saxon Beowulf texts that we know only through written versions but that are grounded in oral technique That all forms of narrative even the most sophisticated genres of contemporary fiction have their ultimate origin in storytelling is a point that scarcely needs to be argued Niles's claims here are more ambitious than oral narrative is and has long been the chief basis of culture itself that the need to tell stories is what distinguishes humans from all other living creatures

Mere Christian Hermeneutics Kevin J. Vanhoozer, 2024-10-01
Southwestern Journal of Theology 2024 Book of The Year Christianity Today 2024 Theology Book Award The Gospel Coalition 2024 Biblical Studies Book Award Reading the Bible to the glory of God In 1952 C S Lewis's *Mere Christianity* eloquently defined the essential tenets of the Christian faith With the rise of fractured individualism that continues to split the church this approach is more important now than ever before for biblical hermeneutics Many Christians wonder how to read the text of Scripture well rightly and faithfully After all developing a strong theory of interpretation has always been presented by two enormous challenges A variety of actual interpretations of the Bible even within the context of a single community of believers The plurality of reading cultures denominational disciplinary historical and global interpretive communities each with its own frame of reference In response influential theologian Kevin J Vanhoozer puts forth a mere Christian hermeneutic essential principles for reading the Bible as Scripture everywhere at all times and by all Christians To center his thought Vanhoozer turns to the accounts of Jesus transfiguration a key moment in the broader economy of God's revelation to suggest that spiritual or figural interpretation is not a denial or distortion of the literal sense but rather its glorification Irenic without resorting to bland ecumenical tolerance *Mere Christian Hermeneutics* is a powerful and convincing call for both church and academy to develop reading cultures that enable and sustain the kind of unity and diversity that a mere Christian hermeneutic should call for and encourage

New Medieval Literatures 25 Laura Ashe, Philip Knox, Caroline Batten, Wendy Scase, 2025-04-15 This volume continues the series engagement with intellectual and cultural pluralism in the Middle Ages showing the best new work in the field Essays in this volume deal with texts from the ninth to the fifteenth century and include some unexpected comparisons with British Romanticism Great attention is paid to manuscripts in their contexts and situations of production thirteenth century mortuary rolls are examined as sites of fluidly variegated scribal training and

practice revealing a scriptscape of social networks spread across the country Elsewhere close analysis of manuscripts known to have belonged to Henry Despensers bishop of Norwich 1370 1406 makes the case for an effective scribal atelier in the city presided over by the Despensers Master Three essays are linked by a consideration of didactic writing the Old English translation of Gregory the Great s Pastoral Care is analysed both textually and paleographically for what it reveals about grammatical study in England s early Middle Ages and the moral freight of that learning a comparative analysis of multilingual retellings of sheep fables making an important contribution to animal studies and recent violent historical events are shown to have been reshaped into a parable for the instruction of wives in the *Mesnager de Paris* Finally Gowers expansive geographical and genealogical imaginary in the *Confessio Amantis* reveals the impossibility of controlling the affordances of his multivalent East while the Alliterative *Morte Arthure* is newly examined for its representation of mountains and mountaineering as sites of active moral allegory and spiritual importance as well as real world experiences of beauty and danger

Joinings Jonathan Davis-Secord, 2016-01-01 The first comprehensive study of the use of compound words in Old English poetry homilies and philosophy *Joinings* explores the effect of compounds on style pace clarity and genre in Anglo Saxon vernacular literature Jonathan Davis Secord demonstrates how compounds affect the pacing of passages in *Beowulf* creating slow motion narrative at moments of significant violence how their structural complexity gives rhetorical emphasis to phrases in the homilies of *Wulfstan* and how they help to mix quotidian and elevated diction in *Cynewulf* s *Juliana* and the Old English translations of *Boethius* His work demonstrates that compound words were the epitome of Anglo Saxon vernacular verbal art combining grammar style and culture in a manner unlike any other feature of Old English

Religious Reading Paul J. Griffiths, 1999-05-13 What social conditions and intellectual practices are necessary in order for religious cultures to flourish Paul Griffiths finds the answer in religious reading the kind of reading in which a religious believer allows his mind to be furnished and his heart instructed by a sacred text understood in the light of an authoritative tradition He favorably contrasts the practices and pedagogies of traditional religious cultures with those of our own fragmented and secularized culture and insists that religious reading should be preserved

Textual Histories Thomas A. Bredehoft, 2001-01-01 What modern scholars have been too willing to dismiss as a scattershot collection of unrelated annals is Bredehoft argues a tool created to forge through linking literature and history a patriotic Anglo Saxon national identity

A Companion to Alfred the Great, 2014-12-04 Eleven major scholars of the Anglo Saxon period consider Alfred the Great his cultural milieu and his achievements With revised or revived views of the Alfredian revival the contributors help set the agenda for future work on a most challenging period The collection features the methods of history art history and literature in a newer key and with an interdisciplinary view on a period that offers less evidence than inference Major themes linking the essays include authorship translation practice and theory patristic influence Continental connections and advances in textual criticism The Alfredian moment has always surprised scholars because of its intellectual reach and its

ambition The contributors to this collection describe how we must now understand that ambition

Piers Plowman and the Poetics of Enigma Curtis A. Gruenler, 2017-04-30 In this book Curtis Gruenler proposes that the concept of the enigmatic latent in a wide range of medieval thinking about literature can help us better understand in medieval terms much of the era's most enduring literature from the riddles of the Anglo Saxon bishop Aldhelm to the great vernacular works of Dante Chaucer Julian of Norwich and above all Langland's Piers Plowman Riddles rhetoric and theology the three fields of meaning of aenigma in medieval Latin map a way of thinking about reading and writing obscure literature that was widely shared across the Middle Ages The poetics of enigma links inquiry about language by theologians with theologically ambitious literature Each sense of enigma brings out an aspect of this poetics The playfulness of riddling both oral and literate was joined to a Christian vision of literature by Aldhelm and the Old English riddles of the Exeter Book Defined in rhetoric as an obscure allegory enigma was condemned by classical authorities but resurrected under the influence of Augustine as an aid to contemplation Its theological significance follows from a favorite biblical verse among medieval theologians We see now through a mirror in an enigma then face to face 1 Cor 13 12 Along with other examples of the poetics of enigma Piers Plowman can be seen as a culmination of centuries of reflection on the importance of obscure language for knowing and participating in endless mysteries of divinity and humanity and a bridge to the importance of the enigmatic in modern literature This book will be especially useful for scholars and undergraduate students interested in medieval European literature literary theory and contemplative theology

Error and the Academic Self Seth Lerer, 2002 Examining figures from Thomas More to Stephen Greenblatt from George Hickes to Seamus Heaney from George Eliot to Paul de Man this book illuminates the wanderings of exiles emigres dissenters and the socially estranged as they helped form the modern university disciplines of philology and rhetoric literary criticism and literary theory

Textual Cultures, Cultural Texts Orietta Da Rold, Elaine M. Treharne, 2010 New essays reappraising the history of the book manuscripts and texts The dynamic fields of the history of the book and the sociology of the text are the areas this volume investigates bringing together ten specially commissioned essays that between them demonstrate a range of critical and material approaches to medieval early modern and digital books and texts They scrutinize individual medieval manuscripts to illustrate how careful re-reading of evidence permits a more nuanced apprehension of production and reception across time analyse metaphor for our understanding of the Byzantine book examine the materiality of textuality from Beowulf to Pepys and the digital work in the twenty-first century place manuscripts back into specific historical context and re-appraise scholarly interpretation of significant periods of manuscript and print production in the later medieval and early modern periods All of these essays call for a new assessment of the ways in which we read books and texts making a major contribution to book history and illustrating how detailed focus on individual cases can yield important new findings Contributors Elaine Treharne Erika Corradini Julia Crick Orietta Da Rold A S G Edwards Martin K Foys Whitney Anne Trettien David L Gants Ralph Hanna

Robert Romanchuk Margaret M Smith Liberty Stanavage **Indigenous Textual Cultures** Tony Ballantyne, Lachy Paterson, Angela Wanhalla, 2020-08-10 The contributors to Indigenous Textual Cultures examined the ways in which indigenous peoples created textual cultures to navigate shape and contest empire colonialism and modernity
