Devos, Stephen Marsden, Luke
Xu, Robert Whait**

Making Of The Australian Constitution:

The Oxford Handbook of the Australian Constitution Cheryl Saunders, Adrienne Stone, 2018-02-22 Constitutional law provides the legal framework for the Australian political and legal systems and thus touches almost every aspect of Australian life The Handbook offers a critical analysis of some of the most significant aspects of Australian constitutional arrangements setting them against the historical legal political and social contexts in which Australia's constitutional system has developed It takes care to highlight the distinctive features of the Australian constitutional system by placing the Australian system where possible in global perspective The chapters of the Handbook are arranged in seven thematically grouped parts The first Foundations deals with aspects of Australian history which have influenced constitutional arrangements The second Constitutional Domain addresses the interaction between the constitution and other relevant legal systems and orders including the common law international law and state constitutions The third Themes identifies themes of special constitutional significance including the legitimacy of the constitution citizenship and republicanism The fourth Practice and Process deals with practical issues relevant to constitutional litigation including the processes techniques and authority of the High Court of Australia The final three parts deal with the structural building blocks of the Australian Constitutional system Separation of Powers Federalism and the Protection of Rights Written by a team of experts drawn from academia and practice the Handbook provides Australian and international readers alike with a reliable source of knowledge understanding and insight into the Australian Constitution

The making of the Australian constitution John Andrew La Nauze, Religious Freedom and the Australian Constitution Luke Beck, 2018-03-19 This book examines the origins of Australia's constitutional religious freedom provision It explores on the one hand the political activities and motives of religious leaders seeking to give the Australian Constitution a religious character and on the other the political activities and motives of a religious minority seeking to prevent the Australian Constitution having a religious character The book also interrogates the argument advanced at the Federal Convention in favour of section 116 dealing with separation of religion and government and argues that until now scholars and courts have misunderstood that argument The book casts new light to show how the origins of the provision lead to section 116 being conceptualised as a safeguard against religious intolerance on the part of the Commonwealth Written in an accessible style the work has potential to influence the development of constitutional doctrine by the High Court through its challenge of historical assumptions on which the High Court's current doctrine is based Given the ongoing political debates concerning the interaction of discrimination law and religious freedom the book will be of interest to academics and policy makers working in the areas of law and religion constitutional law and comparative law

The Making of the Australian Constitution J. A. La Nauze, 1974 Australian Constitutional Law Luke Beck, 2019-10-04 Australian Constitutional Law Concepts and Cases is a highly accessible clear and methodical overview of Australian constitutional law integrating theory and doctrine It is both comprehensive and concise This book takes a

conceptual rather than chronological approach to topics With focussed rather than lengthy case extracts the book explains what the law is and why various interpretations have been adopted Clear explanations enable students to understand and engage with constitutional law including its complexity and nuance The book s explicit linkages between topics and clear delineation between case extracts and commentary help students make sense of Australian constitutional law as a whole Conceptual and discussion questions at the end of each chapter facilitate student thinking and discussion about how the law has evolved and how the law is applied Written by leading constitutional law scholar Luke Beck Australian Constitutional Law Concepts and Cases is invaluable for students engaging with Australian constitutional law

Official Year Book of the Commonwealth of Australia Australia. Commonwealth Bureau of Census and Statistics,1909 Issues for 1901 07 1901 20 include corrected statistics for the period 1788 to 1900

Colonial and Post-colonial Constitutionalism in the Commonwealth Hakeem O. Yusuf,2013-12-17 The peace order and good government POGG clause is found in the constitutions of almost all Commonwealth countries Since its introduction the clause has played a significant role in colonial and post colonial constitutionalism in Commonwealth jurisdictions This book is the first full length analysis of the various dimensions of the peace order and good government clause It argues that the origins of the POGG clause mark it out as an anachronistic feature of British constitutionalism when seen against a modern setting of human rights liberty and democratisation The book traces the history politics and applications of the clause through the colonial period in Commonwealth territories to date It provides critical evaluation of the POGG clause in a cross continental enquiry examining statutory political and constitutional deployment in Australia Canada India Nigeria South Africa and the United Kingdom The evaluation demonstrates that the POGG clause has relevance in a number of significant aspects of legal and socio political ordering across the Commonwealth featuring prominently in the federalism question emergency powers and the review of administrative powers It maintains that while the clause is not entirely devoid of positive value the POGG clause has been used not only to further the objects of colonialism but also authoritarianism and apartheid This book calls for a rethink of the prevailing subjective approach to the interpretation of the clause The book will be of interest to students and academics of public law human rights law and comparative politics

A First Nations Voice in the Australian Constitution Shireen Morris,2020-08-06 This book makes the legal and political case for Indigenous constitutional recognition through a constitutionally guaranteed First Nations voice as advocated by the historic Uluru Statement from the Heart It argues that a constitutional amendment to empower Indigenous peoples with a fairer say in laws and policies made about them and their rights is both constitutionally congruent and politically achievable A First Nations voice is deeply in keeping with the culture design and philosophy of Australia s federal Constitution as well as the long history of Indigenous advocacy for greater empowerment and self determination in their affairs Morris explores the historical political theoretical and international contexts underpinning the contemporary debate before delving into the constitutional detail to craft a compelling case for

change *The treaty-making power in the Commonwealth of Australia* Günther Doeker, 2012-12-06 In the relation of states treaties are a matter of great importance The law of treaties and the study of treaty making procedures in municipal law systems have become both from a theoretical and practical point of view subjects of increasing interest The United Nations Legal Committee as well as the International Law Commission have published studies concerned with the relationship of international law and municipal law emphasizing national practices concerning the conclusion of treaties In the case of some countries such as Great Britain and the United States numerous studies of treaty making problems have been made but much less has been published in the case of many other countries such as Australia Canada or India In the case of Australia research on treaty making has resulted in comparatively few published articles in scholarly and legal journals and only a few comments in general legal treatises But no comprehensive legal analysis of the subject has as yet appeared This study aims to present a comprehensive survey and analysis of actual treaty making procedures and practices in Australia against the setting of the relevant constitutional and other legal norms of the Australian political system The analysis of treaty making will consider both normative and empirical legal aspects Basic constitutional norms legal principles derived from common and constitutional law and statutes will be discussed as well as the actual practices and procedures used in the exercise of the treaty making power *The State and Federal Constitutions of Australia* Karl Reginald Cramp, 1914 **Australian Taxation** John Bevacqua, Elizabeth Morton, Ken Devos, Stephen Marsden, Luke Xu, Robert Whait, 2020-11-13 Australian Taxation has been written for business and commerce students undertaking an accounting major The title aims to demystify legal jargon and technically without sacrificing essential core legal knowledge and meaning Back cover *Interpreting Constitutions* Charles J. G. Sampford, Kim Preston, 1996 Constitutions can be viewed as the road map of liberal democracies And like any road map they need to be constantly reconsidered and redrawn as the territory develops and changes The contributors undertake this re interpretation on a number of levels They examine first the theoretical approaches to constitutional interpretation and then move on to implied rights There then follows a consideration of the role of the judiciary and parliament in constitutional interpretation drawing upon a number of examples from around the world Responsible Government and the Australian Constitution Benjamin B Saunders, 2023-06-15 This book looks at responsible government under the Australian Constitution It undertakes a detailed examination of the history leading to the incorporation of responsible government into the Constitution examining the political history and constitutional ideas which informed the framers views It draws on this history to develop a theory of responsible government and explore its implications for the interpretation of the Constitution and the structure of modern government in Australia The book fills a major gap in our knowledge of the intellectual background of the Australian Constitution by explaining the constitutional ideas that have shaped the text and structure of the Australian Constitution It contributes to worldwide debates about constitutional interpretation by showing how rigorous use of history can lead to novel interpretations of constitutions without being tied to

the dead hands of the founders *Leading Works in the History of the Constitution* Chris Monaghan,2025-08-15 This collection brings together academic analysis of leading contemporary accounts of the British Constitution with key constitutional documents and sources while also offering analysis of the leading histories of the Constitution The works in question represent examples of the constitutionally most significant legislation judicial decisions and commentaries by scholars and key actors Its scope is the 700 years of English and then British history from the Magna Carta to Britain as an imperial power grappling with the question of how to govern India The contributors presenting a balance of established academics and early career researchers present an original and succinct account of the significance of each leading work They draw upon the context in which it was written contemporary literature and more modern academic analysis of the work and its author s Presenting a complement to standard texts on the history of the Constitution the book will be of interest to researchers and academics working in the areas of Constitutional Law and Politics Public Law and Legal History **The Australian Constitution and National Identity** Anna Olijnyk,Alexander Reilly,2023-05-11 What does Australia s Constitution say about national identity A conventional answer might be not much Yet recent constitutional controversies raise issues about the recognition of First Peoples the place of migrants and dual citizens the right to free speech the nature of our democracy and our continuing connection to the British monarchy These are constitutional questions but they are also questions about who we are as a nation This edited collection brings together legal historical and political science scholarship These diverse perspectives reveal a wealth of connections between the Australian Constitution and Australia s national identity *The Foundations and Traditions of Constitutional Amendment* Richard Albert,Xenophon Contiades,Alkmene Fotiadou,2017-07-13 There is growing interest in constitutional amendment from a comparative perspective Comparative constitutional amendment is the study of how constitutions change through formal and informal means including alteration revision evolution interpretation replacement and revolution The field invites scholars to draw insights about constitutional change across borders and cultures to uncover the motivations behind constitutional change to theorise best practices and to identify the theoretical underpinnings of constitutional change This volume is designed to guide the emergence of comparative constitutional amendment as a distinct field of study in public law Much of the recent scholarship in the field has been written by the scholars assembled in this volume This book like the field it hopes to shape is not comparative alone it is also doctrinal historical and theoretical and therefore offers a multiplicity of perspectives on a subject about which much remains to be written This book aspires to be the first to address comprehensively the new dimensions of the study of constitutional amendment and will become a reference point for all scholars working on the subject The volume covers all of the topics where innovative work is being done such as the notion of the people the trend of empirical quantitative approaches to constitutional change unamendability sunrise clauses constitutional referenda the conventional divide between constituent and constituted powers among other important subjects It creates a dialogue that

cuts through these innovative conceptualisations and highlights scholarly disagreement and in so doing puts ideas to the test. The volume therefore captures the fierce ongoing debates on the relevant topics it reveals the current trends and contested issues and it offers a variety of arguments elaborated by prominent experts in the field. It will open the way for further dialogue.

Australian Constitutional Landmarks H. P. Lee, George Winterton, 2004-01-12 Australian Constitutional Landmarks presents the most significant cases and controversies in the Australian constitutional landscape up to its original publication in 2003. Including the Communist Party case, the dismissal of the Whitlam government, the Free Speech cases, a discussion of the race power, the Lionel Murphy saga and the Tasmanian Dam case, this book highlights turning points in the shaping of the Australian nation since Federation. Each chapter clearly examines the legal and political context leading to the case or controversy and the impact on later constitutional reform. With contributions by leading constitutional lawyers and judges as well as two former chief justices, this book will appeal to members of the judiciary, lawyers, political scientists, historians and people with a general interest in Australian politics, government and history.

Indigenous Data Sovereignty and Policy Maggie Walter, Tahu Kukutai, Stephanie Russo Carroll, Desi Rodriguez-Lonebear, 2020-10-29 This book examines how Indigenous Peoples around the world are demanding greater data sovereignty and challenging the ways in which governments have historically used Indigenous data to develop policies and programs. In the digital age, governments are increasingly dependent on data and data analytics to inform their policies and decision making. However, Indigenous Peoples have often been the unwilling targets of policy interventions and have had little say over the collection, use and application of data about them, their lands and cultures. At the heart of Indigenous Peoples' demands for change are the enduring aspirations of self-determination over their institutions, resources, knowledge and information systems. With contributors from Australia, Aotearoa, New Zealand, North and South America and Europe, this book offers a rich account of the potential for Indigenous data sovereignty to support human flourishing and to protect against the ever-growing threats of data-related risks and harms. The Open Access version of this book is available at <https://www.taylorfrancis.com/books/e/9780429273957> and has been made available under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 license.

Federalism as Decision-Making Francesco Palermo, Elisabeth Alber, 2015-02-24 Accounting for participation, separation of powers and democratic accountability, federalism gains momentum in times when traditional democratic legitimacy of institutional decision making is challenged. Its ability to include multiple interests makes federalism a means to ensure good governance. Based on a multidisciplinary analysis, the book tackles the question of whether federalism as a pragmatic governance tool provides answers to current challenges and what those answers are. Thirty-three leading experts critically examine to what extent federalism serves this purpose in compound states, looking at different countries and policies. The volume revolves around five sub-themes: federalism, democracy and governance, participation mechanisms and procedures, policy areas, compared institutional innovation and participatory democracy, and federalism from theory to governance.

The Cambridge

Legal History of Australia Peter Cane, Lisa Ford, Mark McMillan, 2022-08-18 Featuring contributions from leading lawyers historians and social scientists this path breaking volume explores encounters of laws people and places in Australia since 1788 Its chapters address three major themes the development of Australian settler law in the shadow of the British Empire the interaction between settler law and First Nations people and the possibility of meaningful encounter between First laws and settler legal regimes in Australia Several chapters explore the limited space provided by Australian settler law for respectful encounters particularly in light of the High Court s particular concerns about the fragility of Australian sovereignty Tracing the development of a uniquely Australian law and the various contexts that shaped it this volume is concerned with the complexity plurality and ambiguity of Australia s legal history
