## **Making Of The New Japan Reclaiming The Political Mainstream:**

**The Making of the New Japan** IPS Chiyoda-ku, Leslie Connors, Yasuhiro Nakasone, 2012-12-06 Yasuhiro Nakasone's rise to political prominence began under the watchful eye of the American occupation with which he had a direct and confrontational relationship arguing for the ending of the occupation and the restoration of sovereignty to Japan Nakasone argued for Japan's need to become a normal nation which in his view involved an enhanced international role for Japan and an enhanced role for the prime minister in domestic policy making Both ideas have come to win an increasingly broad acceptance although Nakasone's slow rise to the position of prime minister bears testament to the controversy aroused by his views These political memoirs chart the journey from his youth in the aftermath of the First World War to his appearance on the world stage at the side of President Reagan They conclude with his thoughts on the eve of the domestic upheavals which saw the fall of the LDP on the prospects for a third opening of Japan to rival the Meiji Restoration and the MacArthur reforms Now an adviser to a younger generation of politicians he is regarded by many as a modern day Genro for Japan

The Japanese Ground Self-Defense Force Robert D. Eldridge, Paul Midford, 2017-01-21 Based on extensive Japanese language materials this book is the first to examine the development of Japan's Ground Self Defense Force It addresses how the GSDF was able to emerge as the post war successor of the Imperial Japanese Army despite Japan's anti militarist constitution how the GSDF despite the public skepticism and even hostility that greeted its creation built domestic and international legitimacy and how the GSDF has responded to changes in international and domestic environments This path breaking study of the world's third largest economic power's ground army is timely for two reasons First the resurgence of tensions in Northeast Asia over territorial disputes and the emphasis recent Japanese governments have placed on using the GSDF for defending Japan's outlying islands is driving media coverage and specialist interest in the GSDF Second the March 11 2011 Great East Japan Earthquake and Tsunami has focused global attention on the GSDF as Japan's lead disaster relief organization This highly informative and thoroughly researched book provides insight for policy makers and academics interested in Japanese foreign and defense policies

State Making in Asia Richard Boyd, Tak-Wing Ngo, 2012-09-10 Including contributions from an international team of leading experts this volume examines state making from a uniquely Asian perspective and reveals some of the misunderstandings that arise when states and state making are judged solely on the basis of Western history The contributors argue that if we are to understand states in Asia then we must first recognize the particular combination of institution and ideologies embedded in Asian state making and their distinctiveness from the Western experience Presenting new empirical and conceptual material based on original research the book provides a unique theoretical reflection of the state through a thorough comparison of East Asian nations and as such will be a valuable

resource to scholars of Asian politics and international relations *Political Conflict and Development in East Asia and Latin America* Richard Boyd, Galjart Benno, Tak-Wing Ngo, 2007-01-24 Long run processes of socio economic change generate prodigious problems of social conflict and social control and governments responsible for these processes must therefore manage the resultant conflict Consequently the success or failure of a government's management of such conflicts is a crucial factor in development outcomes This volume investigates the political struggle for development specifically in two vital regions East Asia and Latin America This analysis calls into question the dominant emphasis on institutional and cultural bases for stable growth A careful historical account of the two regions is presented which permits the rigorous testing of conventional wisdoms regarding development Of importance to a broad range of academics in the spheres of development studies politics political economy and sociology this book will also make an interesting read for those with a general interest in these areas

**Japan's Arduous Rejuvenation as a Global Power** Victor Teo,2019-04-08 This open access book assesses the profound impact of Japan s aspirations to become a great power on Japanese security democracy and foreign relations Rather than viewing the process of normalization and rejuvenation as two decades of remilitarization in face of rapidly changing strategic environment and domestic political circumstances this volume contextualizes Japan s contemporary international relations against the longer grain of Japanese historical interactions It demonstrates that policies and statecraft in the Prime Minister Shinzo Abe s era

are a continuation of a long unbroken and arduous effort by successive generations of leaders to preserve Japanese autonomy enhance security and advance Japanese national interests Arguing against the notion that Japan cannot work with China as long as the US Japan alliance is in place the book suggests that Tokyo could forge constructive relations with Beijing by engaging China in joint projects in and outside of the Asia Pacific in issue areas such as infrastructure development or in the provision of international public goods It also submits that an improvement in Japan China relations would enhance rather than detract Japan US relations and that Tokyo will find that her new found autonomy in the US Japan alliance would not only accord her more political respect and strategic latitude but also allow her to ameliorate the excesses of American foreign policy adventurism paving for her to become a truly normal great power

**History Education and International Relations** Hirano Mutsumi,2009-02-12 This is the first in depth study to examine the implications of history education in the context of international relations interstate and transnational focusing on Japanese textbooks as the principal case study The author argues that despite a widespread recognition that our grasp of history has some relevance to our views and attitudes towards foreign countries and peoples ergo ultimately its impact on national policy there appears to be little coherent discussion of such a significant topic and its practical applications in the field of International Relations This study therefore develops a conceptual framework and directs attention to the factors which predetermine the perceptions and attitudes of the public and policy makers and in doing so searches for the roots of their world view The book addresses the following issues Government Influence on the Domestic Educational Environment The Domestic Environment and its Interaction with the External Environment History Education in Practice A case of Japan The Japanese History Textbook Disputes in the Asian Context Parts I and II Twenty five Years On The Task of Coming to Terms with the Past *Japanese Education Reform*

Christopher P. Hood,2003-09-02 The Japanese education system has attracted increasing attention over the past 20 years largely due to the belief that it has been central to Japan s economic growth Many have felt however that the system is stunted by an inability or perhaps even on an incapacity to change This study challenges these contentions It examines the reform policies implemented by Prime Minister Nakasone during the 1980s and argues that not only has the system changed considerably as a result of Nakasone s work but that it continues to do so It analyses the key areas of the education reform debate in particular internationalism government control of education increased liberalization and various social problems and considers the degree to which response to them have been successful This book will be of great interest to all those interested in the Japanese educational system

*The Pacific Challenge* Werner Kreisel, 2005 The enormous leaps of growth and development experienced by Eastern and Southeast Asian states since the 1960s on account of their astonishing industrial development have led to concerns that a resulting global economic and political shift might favour the Pacific region at the expense of the Atlantic region A Pacific century was proclaimed in which it was predicted that Asian Pacific countries would outpace the traditional leading powers of the West A more careful look quickly reveals that this view is too simplistic From the point of view of various disciplines and covering different nations like China Vietnam Indonesia Singapore the Philippines and Papua New Guinea the authors of this publication pursue the question whether the 21st century can already be labelled the Pacific Century This was also the title of the interdisciplinary series of lectures held at the University of Göttingen Germany in the winter semester 2003/2004 This series of lectures was jointly organized by the Department of Geography the University of Göttingen and the Association of Pacific Studies e.V. APSA This 10th volume of the publication series Pazifik Forum contains contributions by W. Kreisel M. Taube Ka Wai Yiu M. Waibel A. Croissant B. Dahm H. Schneider R. Seib and R. Jordan The enormous leaps of growth and development experienced by Eastern and Southeast Asian states since the 1960s on account of

their astonishing industrial development have led to concerns that a resulting global economic and political shift might favour the Pacific region at the expense of the Atlantic region. A Pacific century was proclaimed in which it was predicted that Asian Pacific countries would outpace the traditional leading powers of the West. A more careful look quickly reveals that this view is too simplistic. From the point of view of various disciplines and covering different nations like China, Vietnam, Indonesia, Singapore, the Philippines, and Papua New Guinea, the authors of this publication pursue the question whether the 21st century can already be labelled the Pacific Century. This was also the title of the interdisciplinary series of lectures held at the University of Göttingen, Germany, in the winter semester 2003/2004. This series of lectures was jointly organized by the Department of Geography, the University of Göttingen, and the Association of Pacific Studies e.V. (APSA). This 10th volume of the publication series *Pazifik Forum* contains contributions by W. Kreisel, M. Taube, Ka Wai Yiu, M. Waibel, A. Croissant, B. Dahm, H. Schneider, R. Seib, and R. Jordan.

*Inglorious, Illegal Bastards* Aaron Skabelund, 2022-07-15. In *Inglorious, Illegal Bastards*, Aaron Herald Skabelund examines how the Self Defense Force (SDF), the post-World War II Japanese military, and specifically the Ground Self Defense Force (GSDF), struggled for legitimacy in a society at best indifferent to them and often hostile to their very existence. From the early iterations of the GSDF as the Police Reserve Force and the National Safety Force through its establishment as the largest and most visible branch of the armed forces, the GSDF deployed an array of public outreach and public service initiatives, including off-base and on-base events, civil engineering projects, and natural disaster relief operations. Internally, the GSDF focused on indoctrination of its personnel to fashion a reconfigured patriotism and esprit de corps. These efforts to gain legitimacy achieved some success and influenced the public over time, but they did not just change society. They also transformed the force itself as it assumed new priorities and traditions and contributed to the making of a Cold War defense identity, which came to be shared by wider society in Japan. As *Inglorious, Illegal Bastards* demonstrates, this identity endures.
