Edgington, 2003 Japan today is at an important historical juncture Buffeted in recent years by rapid economic social and political change yet still very much steeped in custom and history the nation has become an amalgam of the traditional and the modern As a result the country has become increasingly difficult to categorize How are we to represent today's Japan effectively and fairly predict its future This critical multi disciplinary collection explores the convergence of past and future in contemporary Japan Contributors comment on a wide range of economic socio cultural and political trends such as the mobilization of Japanese labour the burgeoning Ainu identity movement and the shifting place of the modern woman and conclude that despite the rapid changes many of the traditional facets of Japanese society have remained intact institutional change they assert is unlikely to occur quickly and
