**Understanding Marriage, Family, and Intimate Relationships** Jerry D. Lehman, 2005 This introductory textbook is for students who are interested in learning about and establishing healthy marriage family and intimate relationships With divorce rates high and relationships fragile books and courses are needed that help students address important issues regarding relationships The readers of this text examine many important and relevant issues through the lens of theory and research and do so using a written format that is readable understandable and easy to apply to one's life It was written so that each chapter has information that readers will find helpful as they attempt to establish and maintain meaningful healthy relationships There are questions throughout each chapter that help readers focus not only on the material but also on how the material relates to their present and past relationship and family situations The text provides material on the research of John Gottman the object relations theory of Harville Hendrix the solution focused approach of Michele Weiner Davis and the PREP approach to conflict management of Markman Stanley and Blumberg These and other topics discussed are very relevant to students concerns and are addressed in greater depth than found in most other texts The emphasis is not just on couple relationships but also on family relationships Therefore in this book there is extensive coverage of family systems theory and the influence of family rules and family structure on the development of families There is also material on how change produces transitions in family life that must be assimilated into the family structure for example when a couple has their first child Thus both couple and family issues are addressed throughout the book For instructors who want to focus

their courses on marriage family and intimate relationships this book would be an ideal choice A study guide for students and instructional material for instructors can be obtained by visiting [www.understandingrelationships.net](http://www.understandingrelationships.net) **Breaking the Ties That Bound** Barbara Alpern Engel, 2011-03-15 Russia's Great Reforms of 1861 were sweeping social and legal changes that aimed to modernize the country In the following decades rapid industrialization and urbanization profoundly transformed Russia's social economic and cultural landscape Barbara Alpern Engel explores the personal cultural and political consequences of these dramatic changes focusing on their impact on intimate life and expectations and the resulting challenges to the traditional patriarchal family order the cornerstone of Russia's authoritarian political and religious regime The widely perceived marriage crisis had far reaching legal institutional and political ramifications In *Breaking the Ties That Bound* Engel draws on exceptionally rich archival documentation in particular on petitions for marital separation and the materials generated by the ensuing investigations to explore changing notions of marital relations domesticity childrearing and intimate life among ordinary men and women in imperial Russia Engel illustrates with unparalleled vividness the human consequences of the marriage crisis Her research reveals in myriad ways that the new and more individualistic values of the capitalist marketplace and commercial culture challenged traditional definitions of gender roles and encouraged the self creation of new social identities Engel captures the intimate experiences of women and men of the lower and middling classes in their own words documenting instances not only of physical mental and emotional abuse but also of resistance and independence These changes challenged Russia's rigid political order forcing a range of state agents up to and including those who spoke directly in the name of the tsar to rethink traditional understandings of gender norms and family law This remarkable social history is thus also a contribution to our understanding of the deepening political crisis of autocracy
